Daniel Jonathan Clarke, Stefan Dercon

**Poema de Mio Cid** Peter Such, John Hodgkinson, 1987 One of the most powerful and sustained works in all medieval literature, without which no series could be considered complete. The Poem of My Cid deals with the exploits of the medieval Castilian warrior, beginning with the sorrow of his departure into exile and focusing on his determination to regain the favour of his king.

*Courtly Seductions, Modern Subjections* Fidel Fajardo-Acosta, 2010 A critical analysis of courtly love and medieval troubador literature, this book claims that both traditions were instrumental in the construction of the modern subject and its preparation for life in the highly regulated societies of the modern world. Relating troubadour texts to the rise of commerce, luxury commodities, social differentiation, the centralization of authority, and the crusades, the author proposes that western romantic love, from its courtly beginnings, eroticized the forms and values of the early European commercial economy and nation-states -- playing a key role in the subjection of medieval hearts, minds, and bodies to the disciplines of emerging modern powers. -- Back cover.

Iconography in Medieval Spanish Literature John E. Keller, Richard P. Kinkade, 2021-10-21 The masterpieces of medieval Spanish literature have come to be known and loved by Hispanists, and more recently by others throughout the world. But the brilliant illuminations with which the original manuscripts were illustrated have remained almost totally unknown on the shelves of the great European libraries. To redress this woeful neglect, two noted scholars here present a generous selection from this great visual treasury including many examples never before reproduced. John E. Keller and Richard P.

Kinkade have chosen five representative works, dating from the mid-thirteenth century to the late fifteenth, to illustrate the richness of early Spanish narrative art. Together, these five works encompass the entire range of narrative techniques and iconography to be found in medieval Spain, and reflect both foreign and native Spanish artistic tendencies. The authors' analyses of the relation between verbalizations and visualizations will provide students of medieval art and literature a wealth of new information expanding our knowledge of this fascinating period. The beauty of many of the illuminations speaks for itself.

**Shakespeare: Invention of the Human** Harold Bloom, 1999-09-01 The indispensable critic on the indispensable writer. -Geoffrey O'Brien, New York Review of Books A landmark achievement as expansive, erudite, and passionate as its renowned author, this book is the culmination of a lifetime of reading, writing about, and teaching Shakespeare. Preeminent literary critic and ultimate authority on the western literary tradition, Harold Bloom leads us through a comprehensive reading of every one of the dramatist's plays, brilliantly illuminating each work with unrivaled warmth, wit and insight. At the same time, Bloom presents one of the boldest theses of Shakespearean scholarship: that Shakespeare not only invented the English language, but also created human nature as we know it today.

Far-Right Revisionism and the End of History Taylor & Francis Group, 2021-12-13 In this volume, scholars ranging from historians to neuroscientists show how contemporary far-right movements have proposed revisions and counter-narratives to accepted understandings of history, fact, and narrative.

**Crossfire** Roberta Johnson, 2014-07-11 The marriage of philosophy and fiction in the first third of Spain's

twentieth century was a fertile one. It produced some truly notable offspring -- novels that cross genre boundaries to find innovative forms, and treatises that fuse literature and philosophy in new ways. In her illuminating interdisciplinary study of Spanish fiction of the Silver Age, Roberta Johnson places this important body of Spanish literature in context through a synthesis of social, literary, and philosophical history. Her examination of the work of Miguel de Unamuno, Pio Baroja, Azorin, Ramon Perez de Ayala, Juan Ramon Jimenez, Gabriel Miro, Pedro Salinas, Rosa Chacel, and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period's most canonical novels. Johnson reformulates the traditional discussion of generations and isms by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another. Current narratological theories, including those of Todorov, Genette, Bakhtin, and Martinez Bonati, assist in teasing out the intertextual maneuvers and philosophical conflicts embedded in the novels of the period, while the sociological and biographical material bridges the philosophical and literary analyses. The result, solidly grounded in original archival research, is a convincingly complete picture of Spain's intellectual world in the first thirty years of this century. *Crossfire* should revolutionize thinking about the Generation of '98 and the Generation of '14 by identifying the heterogeneous philosophical sources of each and the writers' reactions to them in fiction.

**Understanding Cyber Conflict** George Perkovich, Ariel Levite, 2017 Analogies help us think, learn, and communicate. The fourteen case studies in this volume help readers make sense of contemporary cyber conflict through historical analogies to past military-technological problems. The chapters are divided into

three groups. The first--What Are Cyber Weapons Like?--examines the characteristics of cyber capabilities and how their use for intelligence gathering, signaling, and precision strike compares with earlier technologies for such missions. The second section--What Might Cyber Wars Be Like?--explores how lessons from several wars since the early 19th century, including the World Wars, could apply or not apply to cyber conflict in the 21st century. The final section--What Is Preventing and/or Managing Cyber Conflict Like?--offers lessons from 19th and 20th century cases of managing threatening actors and technologies.

**The Medieval Iberian Treasury in the Context of Cultural Interchange (Expanded Edition)** ,2020-11-16  
The Medieval Iberian Treasury in the Context of Cultural Interchange—expanded beyond the special issue of Medieval Encounters from which it was drawn—centers on the magnificent treasury of San Isidoro de León to address wider questions about the meanings of cross-cultural luxury goods in royal-ecclesiastical settings during the central Middle Ages. Now fully open access and with an updated introduction to ongoing research, an additional chapter, composite bibliographies, and indices, this multidisciplinary volume opens fresh ways into the investigation of medieval objects and textiles through historical, art historical, and technical analyses. Carbon-14 dating, iconography, and social history are among the methods applied to material and textual evidence, together shining new light on the display of rulership in medieval Iberia. Contributors are Ana Cabrera Lafuente, María Judith Feliciano, Julie A. Harris, Jitske Jasperse, Therese Martin, Pamela A. Patton, Ana Rodríguez, and Nancy L. Wicker.

**Borderlands** Gloria Anzaldúa,1987 Second edition of Gloria Anzaldúa's major work, with a new critical

introduction by Chicano Studies scholar and new reflections by Anzaldua.

*El Libertador* Sim?n Bolívar, 2003-05-15 General Sim?n Bolívar (1783-1830), called El Libertador, and sometimes the George Washington of Latin America, was the leading hero of the Latin American independence movement. His victories over Spain won independence for Bolivia, Panama, Columbia, Ecuador, Peru, and Venezuela. Bolívar became Columbia's first president in 1819. In 1822, he became dictator of Peru. Upper Peru became a separate state, which was named Bolivia in Bolívar's honor, in 1825. The constitution, which he drew up for Bolivia, is one of his most important political pronouncements. Today he is remembered throughout South America, and in Venezuela and Bolivia his birthday is a national holiday. Although Bolívar never prepared a systematic treatise, his essays, proclamations, and letters constitute some of the most eloquent writing not of the independence period alone, but of any period in Latin American history. His analysis of the region's fundamental problems, ideas on political organization and proposals for Latin American integration are relevant and widely read today, even among Latin Americans of all countries and of all political persuasions. The Cartagena Letter, the Jamaica Letter, and the Angostura Address, are widely cited and reprinted.

Wickberg offers a fresh and imaginative take on Early Modern culture.

**Dull Disasters?** Daniel Jonathan Clarke, Stefan Dercon, 2016 Economic losses from disasters are now reaching an average of US\$250--\$300 billion a year. In the last 20 years, more than 530,000 people died as a direct result of extreme weather events; millions more were seriously injured. Most of the deaths and serious injuries were in developing countries. Meanwhile, highly infectious diseases will continue to emerge or re-emerge, and natural hazards will not disappear. But these extreme events do not need to turn into large-scale disasters. Better and faster responses are possible. The authors contend that even though there is much generosity in the world to support the responses to and recovery from natural disasters, the current funding model, based on mobilizing financial resources after disasters take place, is flawed and makes responses late, fragmented, unreliable, and poorly targeted, while providing poor incentives for preparedness or risk reduction. The way forward centres around reforming the funding model for disasters, moving towards plans with simple rules for early action and that are locked in before disasters through credible funding strategies while resisting the allure of post-disaster discretionary funding and the threat it poses for those seeking to ensure that disasters have a less severe impact. -- Provided by publisher.

**The Great American Biotic Interchange** Alberto Luis Cione, Germán Mariano Gasparini, Esteban Soibelzon, Leopoldo Héctor Soibelzon, Eduardo Pedro Tonni, 2015-04-24 South American ecosystems suffered one of the greatest biogeographical events, after the establishment of the Panamian land bridge, called the "Great American Biotic Interchange" (GABI). This refers to the exchange, in several phases, of land mammals between the Americas; this event started during the late Miocene with the appearance of the

Holarctic Procyonidae (Huayquerian Age) in South America and continues today. The major phases of mammalian dispersal occurred from the Latest Pliocene (Marplatan Age) to the Late Pleistocene (Lujanian Age). The most important and richest localities of Late Miocene-Holocene fossil vertebrates of South America are those of the Pampean region of Argentina. There are also several Late Miocene and Pliocene localities in western Argentina and Bolivia. Other important fossils have been collected in localities of Pleistocene age outside Argentina: Tarija (Bolivia), karstic caves of Lagoa Santa and the recently explored caves of Tocantins (Brasil), Talara (Perú), La Carolina (Ecuador), Muaco (Venezuela), and Cueva del Milodon (Chile), among others. The book discusses basic information for interpreting the GABI such as taxonomic composition (incorporating the latest revisions) at classical and new localities for each stage addressing climate, environments, and time boundaries for each stage. It includes the chronology and dynamics of the GABI, the integration of South American mammalian faunas through time, the Quaternary mammalian extinctions and the composition of recent mammalian fauna of the continent.

**Scientific Knowledge and Its Social Problems** Jerome R. Ravetz, 2020-09-10 Science is continually confronted by new and difficult social and ethical problems. Some of these problems have arisen from the transformation of the academic science of the prewar period into the industrialized science of the present. Traditional theories of science are now widely recognized as obsolete. In *Scientific Knowledge and Its Social Problems* (originally published in 1971), Jerome R. Ravetz analyzes the work of science as the creation and investigation of problems. He demonstrates the role of choice and value judgment, and the inevitability of error, in scientific research. Ravetz's new introductory essay is a masterful statement of how our

understanding of science has evolved over the last two decades.

**The Paleoanthropology and Archaeology of Big-Game Hunting** John D. Speth, 2010-09-08 Since its inception, paleoanthropology has been closely wedded to the idea that big-game hunting by our hominin ancestors arose, first and foremost, as a means for acquiring energy and vital nutrients. This assumption has rarely been questioned, and seems intuitively obvious—meat is a nutrient-rich food with the ideal array of amino acids, and big animals provide meat in large, convenient packages. Through new research, the author of this volume provides a strong argument that the primary goals of big-game hunting were actually social and political—increasing hunter's prestige and standing—and that the nutritional component was just an added bonus. Through a comprehensive, interdisciplinary research approach, the author examines the historical and current perceptions of protein as an important nutrient source, the biological impact of a high-protein diet and the evidence of this in the archaeological record, and provides a compelling reexamination of this long-held conclusion. This volume will be of interest to researchers in Archaeology, Evolutionary Biology, and Paleoanthropology, particularly those studying diet and nutrition.

**A History of the Greek Language** Francisco Rodríguez Adrados, 2005-10-01 A History of the Greek Language is a kaleidoscopic collection of ideas on the development of the Greek language through the centuries of its existence.

**The Spanish Ballad in English** Shasta M. Bryant, 2014-07-15 This study offers an introduction to an important branch of Spanish literature -- the romance, or ballad. Although a great many of these poems have been translated into English by various authors, they are not generally known nor easily accessible.

Collected here for the first time in a single volume is a broad and representative sampling of romances in translation that encompasses historical ballads (including those about Spain's greatest folk hero, el Cid), Moorish ballads, and ballads of chivalry, love, and adventure. For the collection, Shasta M. Bryant has written a perceptive commentary and critique in which he discusses the individual poems and compares the translation with the original; both texts are presented to facilitate comparison. For those who wish to pursue their reading further there is an index of romances that have been translated into English, along with the names of the translators. Although the text has been written with the non-specialist in mind, this book will be equally valuable for students of comparative literature and of medieval Spain.

*The Mercenary Mediterranean* Hussein Fancy, 2016-03-22 Over the course of the thirteenth and fourteenth centuries, the Christian kings of Aragon recruited thousands of foreign Muslim soldiers to serve in their armies and as members of their royal courts. Based on extensive research in Arabic, Latin and Romance sources, 'The Mercenary Mediterranean' explores this little-known and misunderstood history.
