**The Business Affairs of Mr Julius Caesar** Bertolt Brecht, 2016-01-28 Bertolt Brecht's extraordinary historical novel presents an aspiring scholar's efforts to write an idealized life of Julius Caesar twenty years after his death. But the historian abandons his planned biography, confronted by a baffling range of contradictory views. Was Caesar an opportunist, a permanently bankrupt businessman who became too big for the banks to allow him to fail – as his former banker claims? Did he stumble into power while trying to make money, as suggested by the diary of his former slave? Across these different versions of Caesar's career in the political and economic life of Rome, Brecht wryly contrasts the narratives of imperial progress with the reality of grasping self-interest, in a sly allegory that points to the Weimar Republic and perhaps even to our own times. Brecht reminds his readers of the need for constant vigilance and critical suspicion towards the great figures of the past. In an echo of his dramatic theories, the audience is confronted with its own task of active interpretation rather than passive acceptance -- we have to work out our own views about Mr Julius Caesar. This edition is translated by Charles Osborne and features an introduction and editorial notes by Anthony Phelan and Tom Kuhn.

**Imagining America at War** Cynthia Weber, 2006 Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy. She details how films released between 9/11 and Gulf War II reflect raging debates about US foreign policy and fundamental debates about what it means to be an American.

**Cinematic Political Thought** Michael Shapiro, 1999-09 In *Cinematic Political Thought*, Michael J. Shapiro investigates aspects of contemporary politics and articulates a critical philosophical perspective with politically disposed treatments of contemporary cinema. Reading such films as *Hoop Dreams*, *Lone Star*, *Father of the Bride II* and *To Live and Die in LA* through the lens of Deleuze, Derrida, Foucault and Lyotard, Shapiro demonstrates what it can mean to think the political both in terms of cinema studies and in wider aesthetic and social contexts. *Cinematic*

Political Thought is a polemical work, aimed at encouraging critical, ethical and political thinking. Its breadth of theoretical scope and empirical reference, and the innovative style of presentation will make it vital reading for anyone with an interest in the conjunction of culture and politics.

**International Relations Theory** Cynthia Weber, 2010 Introducing students to the main theories in international relations, this textbook also deconstructs each theory, allowing students to engage critically with the assumptions and myths that underpin them.

**Hitler's Terror Weapons** Geoffrey Brooks, 2008-10-20 This is the story of the Terror Weapons

developed by Hitler and Nazi Germany that were intended to be unleashed with devastating effect on the rest of the World. The book charts the development of the V rockets and their successes against allied targets. It then goes on to look at the even more sinister deadly weapons that Hitler was planning and developing, but fortunately did not succeed in producing. Hitler's Terror Weapons tells of the desperate efforts of the Nazis to produce war-winning weapons, and the measures taken by the Allies at the high levels to frustrate them in their aim.

Critical Mass Carter Plymton Hydrick, 2004 The true story of the Manhattan Project you haven't heard about! On May 19, 1945, eleven days after the surrender of Nazi Germany in Europe, a U-boat was escorted into Portsmouth Naval Yard, New Hampshire. News reporters covering the surrender of U-234 were ordered, contrary to all previous and later U-boat surrender procedures, to keep their distance from crew members and passengers of U-234, on threat of being shot by the attending Marine guards. Why the tight security? Buried in the nose of the mammoth boat, sealed in cylinders lined with gold, was 560 kilograms, 1,120 pounds, of enriched uranium oxide labeled U235-the fissile material from which atom bombs are made. Following ten years of research, author Carter Hydrick presents documentation that demonstrates surrendered German components from U-234 were used by the Manhattan Project to complete both the uranium bomb dropped on Hiroshima and the plutonium bomb dropped on Nagasaki to defeat the Japanese, win World War Two and usher in the Nuclear Age.

**SS Brotherhood of the Bell** Joseph P. Farrell, 2011-04-02 In 1945, a mysterious Nazi secret weapons project code-named The Bell left its underground bunker in lower Silesia, along with all its project documentation, and a four-star SS general named Hans Kammler. Taken aboard a massive six engine Junkers 390 ultra-long range aircraft, The Bell, Kammler, and all project records

disappeared completely, along with the gigantic aircraft. It is thought to have flown to America or Argentina. As a prelude to this disappearing act, the SS murdered most of the scientists and technicians involved with the project, a secret weapon that according to one German Nobel prize-winning physicist, was given a classification of decisive for the war, a security classification higher than any other secret weapons project in the Third Reich, including its atomic bomb. What was The Bell? What new physics might the Nazis have discovered with it? How far did the Nazis go after the war to protect the advanced energy technology that it represented? In *The SS Brotherhood of The Bell*, alternative science and history researcher Joseph P. Farrell reveals a range of exotic technologies the Nazis had researched, and challenges the conventional views of the end of World War Two, the Roswell incident, and the beginning of MAJIC-12, the government's alleged secret team of UFO investigators.
