Metal Gear Solid Ashly Burch,Anthony Burch,2015-08-17 Before they co-created the hit web series Hey Ash, Whatcha Playin'?, Ashly and Anthony Burch were just a brother and sister who shared a weird obsession with Solid Snake and his 3D debut, Metal Gear Solid. And why wouldn't they? Hideo Kojima's 1998 game featured groundbreaking stealth mechanics, a gruff and hunky leading man, a brilliantly claustrophobic setting, tons of cinematic cutscenes, shocking fourth wall breaks, and terrifying bosses. The only problem: The Burches grew up but their all-time favorite video game didn't. After nearly two decades, Metal Gear Solid's once-innovative stealth mechanics seem outdated, the cutscenes have lost some of their action movie punch, and the game's treatment of women is often out of touch. Witness a celebration/takedown of this landmark game with the combination of insight and hilarity that Ashly and Anthony have made their careers on.

Following on the heels of his New York Times bestselling novel *Telegraph Avenue*, Pulitzer Prize-winning author Michael Chabon delivers another literary masterpiece: a novel of truth and lies, family legends, and existential adventure—and the forces that work to destroy us. In 1989, fresh from the publication of his first novel, *The Mysteries of Pittsburgh*, Michael Chabon traveled to his mother's home in Oakland, California, to visit his terminally ill grandfather. Tongue loosened by powerful painkillers, memory stirred by the imminence of death, Chabon's grandfather shared recollections and told stories the younger man had never heard before, uncovering bits and pieces of a history long buried and forgotten. That dreamlike week of revelations forms the basis for the novel *Moonglow*, the latest feat of legerdemain from Pulitzer Prize-winning author Michael Chabon. *Moonglow* unfolds as the deathbed confession of a man the narrator refers to only as "my grandfather." It is a tale of madness, of war and adventure, of sex and marriage and desire, of existential doubt and model rocketry, of the shining aspirations and demonic underpinnings of American technological accomplishment at midcentury, and, above all, of the destructive impact—and the creative power—of keeping secrets and telling lies. It is a portrait of the difficult but passionate love between the narrator's grandfather and his grandmother, an enigmatic woman broken by her experience growing up in war-torn France. It is also a tour de force of speculative autobiography in which Chabon devises and reveals a secret history of his own imagination. From the Jewish slums of prewar South Philadelphia to the invasion of Germany, from a Florida retirement village to the penal utopia of New York's Wallkill prison, from the heyday of the space program to

the twilight of the “American Century,” the novel revisits an entire era through a single life and collapses a lifetime into a single week. A lie that tells the truth, a work of fictional nonfiction, an autobiography wrapped in a novel disguised as a memoir, *Moonglow* is Chabon at his most moving and inventive.
