Fair Shares for All Jean-Pierre Gross,2003-11-13 This study explores the egalitarian policies pursued in the provinces during the radical phase of the French Revolution, but moves away from the habit of looking at such issues in terms of the Terror alone. It challenges revisionist readings of Jacobinism that dwell on its totalitarian potential or portray it as dangerously utopian. The mainstream Jacobin agenda emphasised 'fair shares' and equal opportunities for all in a private ownership market economy. It sought to achieve social justice without jeopardising human rights and tended thus to complement, rather than undermine, the liberal, individualist programme of the Revolution. The book stresses the relevance of the 'Enlightenment legacy', the close affinity between Girondins and Montagnards, the key role played by many lesser-known figures and the moral ascendancy of Robespierre. It reassesses the basic social and economic issues at stake in the Revolution, which cannot be understood solely in terms of political discourse.

South-Western France, from the Loire and the Rhone to the Spanish Frontier - Handbook for Travellers Karl Baedeker,2009-12 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Gentile Tales Miri Rubin,2004-05-03 During the late medieval period, accusations that Jews had abused Christ by desecrating the Eucharist created a powerful anti-Jewish movement and violent clashes quickly spread throughout Europe.

Portrayed on the Heart Cynthia Hahn,2001-11-20 Hagiography, or writing about and illustrating the lives of saints, was one of the most creative areas for artistic inspiration in the literature and arts of the Middle Ages. This book explores the sumptuously illustrated saints' lives that were made in medieval Europe. Cynthia Hahn discusses a broad range of manuscripts and other artifacts, many of which are reproduced here, and provides an analysis of their pictorial and narrative structure. Hahn's book is a virtual compendium of images-many rarely published-as well as a learned study that deepens our understanding of the role of various types of saints, the nature of their audience, and the historical moment when individual works were produced. After two informative introductory chapters setting the historical and narrative context of pictorial hagiography, Hahn considers the Lives of Martyrs and Virgins, Bishops, Monks and Abbots, and Kings and Queens, and concludes with an examination of the extraordinary chronicles and illustrations of the lives of saints by the English monk Matthew Paris. She considers such questions as: Why were illustrated saints' lives produced in such great numbers during this period? Why were they illustrated at all given the trouble and expense of such illustration? And to whom did the saints' lives appeal, and how did their readers use them? As she addresses these and other intriguing questions, Hahn traces changes that occurred over time both in the images and the stories, and shows how their creators, mostly the intellectual elite, were finely attuned to audience reception. This important aspect of hagiographic production has received scant attention in the past, and as she considers this issue in light of contemporary narrative theory, Hahn brings us to a fresh appreciation of these intricately illustrated manuscripts and their multiple audiences.

Toward a Definition of Antisemitism Gavin I. Langmuir,1996-02-01 Toward a Definition of Antisemitism offers new contributions by Gavin I. Langmuir to the history of antisemitism, together with some that have been published separately. The collection makes Langmuir's innovative work on the subject available to scholars in medieval and Jewish history and religious studies. The underlying question that unites the book is: what is

antisemitism, where and when did it emerge, and why? After two chapters that highlight the failure of historians until recently to depict Jews and attitudes toward them fairly, the majority of the chapters are historical studies of crucial developments in the legal status of Jews and in beliefs about them during the Middle Ages. Two concluding chapters provide an overview. In the first, the author summarizes the historical developments, indicating concretely when and where antisemitism as he defines it emerged. In the second, Langmuir criticizes recent theories about prejudice and racism and develops his own general theory about the nature and dynamics of antisemitism.

Anti-Semitism in Times of Crisis Sander L. Gilman, Steven T. Katz, 1991 Growing out of a conference held at Cornell U. in 1986, this collection of essays exploring the representation of the Jew in the Western world investigates the role of the Jew as the ultimate other in Europe and in the parts of the world colonized by Europeans, and follows the shift from Semitism. Communities of Saint Martin Sharon Farmer, 2019-03-15 Sharon Farmer here investigates the ways in which three medieval communities—the town of Tours, the basilica of Saint-Martin there, and the abbey of Marmoutier nearby—all defined themselves through the cult of Saint Martin. She demonstrates how in the early Middle Ages the bishops of Tours used the cult of Martin, their fourth-century predecessor, to shape an idealized image of Tours as Martin's town. As the heirs to Martin's see, the bishops projected themselves as the rightful leaders of the community. However, in the late eleventh century, she shows, the canons of Saint-Martin (where the saint's relics resided) and the monks of Marmoutier (which Martin had founded) took control of the cult and produced new legends and rituals to strengthen their corporate interests. Since the basilica and the abbey differed in their spiritualities, structures, and external ties, the canons and monks elaborated and manipulated Martin's cult in quite different ways. Farmer shows how one saint's cult lent itself to these varying uses, and analyzes the strikingly dissimilar Martins that emerged. Her skillful inquiry into the relationship between group identity and cultural expression illuminates the degree to which culture is contested territory. Farmer's rich blend of social history and hagiography will appeal to a wide range of medievalists, cultural anthropologists, religious historians, and urban historians.

Sainthood in the Later Middle Ages Andri Vauchez, André Vauchez, 2005-02-17 This is a standard work of reference for the study of the religious history of western Christianity in the later middle ages which, since its original publication in French in 1981, has come to be regarded as one of the great contributions to medieval studies of recent times. Hagiographical texts and reports of the processes of canonisation - a mode of investigation into saints' lives and their miracles implemented by the popes from the end of the twelfth century - are here used for the first time as major source materials. The book illuminates the main features of the medieval religious mind, and highlights the popes' attempts to gain firmer control over the wide variety of expressions of faith towards the saints in order to promote a higher pattern of devotion and moral behaviour among Christians.

Weaving Sacred Stories Laura Weigert, 2004 Spanning the backs of choir stalls above the heads of the canons and their officials, large-scale tapestries of saints' lives functioned as both architectural elements and pictorial narratives in the late Middle Ages. In an extensively illustrated book that features sixteen color plates, Laura Weigert examines the role of these tapestries in ritual performances. She situates individual tapestries within their architectural and ceremonial settings, arguing that the tapestries contributed to a process of storytelling in which the clerical elite of late medieval cities legitimated and defended their position in the social sphere. Weigert focuses on three of the most spectacular and little-studied tapestry series preserved from the fifteenth and early sixteenth centuries: Lives of Saints Piat and Eleutherius (Notre-Dame, Tournai), Life of Saint Steven (Saint-Steven, Auxerre [now Musée du Moyen Age, Paris]), and Life of Saints Gervasius and Protasius (Saint-Julien, Le Mans). Each of these tapestries, measuring over forty meters in length, included elements that have traditionally been defined as either lay or clerical. On the prescribed

days when the tapestries were displayed, the liturgical performance for which they were the setting sought to merge the history and patron saint of the local community with the universal history of the Christian church. Weigert combines a detailed analysis of the narrative structure of individual images with a discussion of the particular social circumstances in which they were produced and perceived. *Weaving Sacred Stories* is thereby significant not only to the history of medieval art but also to art history and cultural studies in general.

Expositions of the Psalms 1-32 (Vol. 1) Saint Augustine (of Hippo), 1990 As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine's personal life, his theological reflections and his pastoral concerns as Bishop of Hippo.--Publisher's website.

Religious Movements in the Middle Ages Herbert Grundmann, 1995-01-31 Medievalists, historians, and women's studies specialists will welcome this translation of Herbert Grundmann's classic study of religious movements in the Middle Ages because it provides a much-needed history of medieval religious life--one that lies between the extremes of doctrinal classification and materialistic analysis--and because it represents the first major effort to underline the importance of women in the development of the language and practice of religion in the Middle Ages.

Murder in the Cloister Tania Bayard, 2021-03-01 Christine de Pizan is in danger when she is sent to the Priory of Poissy to catch the killer of a young nun in this vividly imagined historical mystery set in fourteenth-century France. Paris, 1399. Scribe Christine de Pizan is sent to the Priory of Poissy by the palace to copy a manuscript for the prioress. But the prioress already has many copyists, and Christine senses that something is amiss. Her suspicions are confirmed when the prioress reveals that one of the sisters has been found murdered in the cloister. Fearing for the welfare of the king's young daughter who resides at the abbey, she is eager for Christine to find out who killed the young nun - and why. As Christine investigates, she uncovers dark mischief and closely guarded secrets, but can she unmask a killer? This compelling medieval mystery will appeal to fans of KAREN MAITLAND, SUSANNA GREGORY and CANDACE ROBB.

Byzantine Court Culture from 829 to 1204 Henry Maguire, 2004 The imperial court in Constantinople is central to the outsider's vision of Byzantium. However, in spite of its fame in literature and scholarship, there have been few attempts to analyze the court in its entirety as a phenomenon. These studies provide a unified composition by presenting Byzantine courtly life in all its interconnected facets.

Conscripts and Deserters Alan I. Forrest, 1989 Between the outbreak of war with Austria in 1792 and Napoleon's final debacle in 1814, France remained almost continuously at war, recruiting in the process some two to three million frenchmen--a level of recruitment unknown to previous generations and widely resented as an attack on the liberties of rural communities. Forrest challenges the notion of a nation heroically rushing to arms by examining the massive rates of desertion and avoidance of service as well as their consequences on French society--on military campaigns

and the morale of armies, on political opinion at home, on the social fabric of local villages, and on the Napoleonic dream of bringing about a coherent and centralized state.
