Yefim Gordon

*Mikoyan MiG-31* Yefim Gordon,Dmitriy Komissarov,2011-10-30 A history of this advanced Russian jet, including useful information for model makers. The MiG-31 started life as an advanced derivative of the famous MiG-25P interceptor, becoming the first Soviet fourth-generation combat aircraft. First flown in 1975, it differed from its progenitor primarily in having a crew of two (pilot and weapons systems operator), a highly capable passive phased-array radar—a world first—and new R-33 long-range missiles as its primary armament. The maximum speed was an impressive Mach 2.82, the cruising speed being Mach 2.35. The type entered service in 1981; more than 500 copies were built between 1981 and 1994. The powerful radar and other avionics allowed the MiG-31 to operate as a “mini-AWACS” scanning the airspace and guiding other interceptors to their targets; a flight of three such aircraft in line abreast formation could cover a strip 800 km (500 miles) wide. To this day the MiG-31 remains one of the key air defense assets of the Russian Air Force. This book describes the MiG-31’s developmental history, including upgrade programs, and features a comprehensive survey of the MiG-31 model-making kits available on the market.

**Mikoyan MiG-31** Yefim Gordon,2004-01-01

*Mikoyan MiG-31* E. Gordon,Yefim Gordon,2005 The MiG-31 Foxhound long-range interceptor flew in prototype form as the Ye-155MP in 1975 and entered production in 1979, with the first regiments becoming operational in 1982. It has also been sold to China, and it remains in service in significant numbers. Yefim Gordon, the doyen of Russian aviation writers, continues to amass an outstanding archive of previously unpublished materials. Though the MiG-31 was covered to some extent in the now out-of- print and sought-after Aerofax on the MiG-25 and -31, this new book will be close to a definitive work on this important aircraft and include an enormous amount of newly released and acquired information and a splendid array of unpublished photographs (including detailed walk-around shots) and drawings. The narrative of course includes detailed discussion of the background to the project, its development, versions, service, weaponry, and comparisons with its contemporaries such as the F-14 Tomcat. The aircraft is a favorite with enthusiasts and modelers, and the extensive coverage, both technical and operational, backed up by high-quality images and drawings, will have wide appeal.

**Mikoyan MiG-31: Famous Russian Aircraft** Yefim Gordon,Dmitriy Komissarov,2020 As early as 1965, when the MiG-25 interceptor was in the midst of its test program, the Mikoyan Design Bureau started work on an even more capable two-seat interceptor meant to provide adequate protection for the huge

expanses of Siberia and the Soviet Far East. Though superficially resembling a MiG-25 with tandem cockpits, the aircraft was soon designated the MiG-31. Initially dubbed Super Foxbat in the West but soon renamed Foxhound, the MiG-31 first flew on 16 September 1975 and, after a five-year trials program, achieved initial operational capability in 1980. Full-scale deliveries began in 1982 to units covering the Moscow Air Defense Zone, the Arctic and the Far East. One of the effects was that the SR-71s now stayed away from the Soviet borders. Efforts to improve the Foxhound began right away. In-flight refueling capability was added in 1989 to overcome the problem of inadequate range. Next, the MiG-31B, featuring upgraded avionics and better weapons, entered production in 1990; existing MiG-31s were brought up to the new standard (except for IFR capability) as the MiG-31BS. The radically improved 'Generation 4+' MiG-31M featuring a new WCS and new R-37 ultra-long-range AAMs first flew in 1985 but never entered production because of funding shortages. Today, the MiG-31s remains one of modern Russia's key air defense assets, and new versions keep appearing. The book gives the complete development and service history of this remarkable aircraft and is richly illustrated with color photos and color artwork throughout.
