

Detroit 67 Stuart Cosgrove, 2016-10-06 First in the award-winning soul music trilogy—featuring Motown artists Diana Ross & the Supremes, Smokey Robinson, Marvin Gaye, and others. Detroit 67 is “a dramatic account of twelve remarkable months in the Motor City” during the year that changed everything (Sunday Mail). It takes you on a turbulent journey through the drama and chaos that ripped through the city in 1967 and tore it apart in personal, political, and interracial disputes. It is the story of Motown, the breakup of the Supremes, and the damaging clashes at the heart of the most successful African American music label ever. Set against a backdrop of urban riots, escalating war in Vietnam, and police corruption, the book weaves its way through a year when soul music came of age and the underground counterculture flourished. LSD arrived in the city with hallucinogenic power, and local guitar band MC5—self-styled holy barbarians of rock—went to war with mainstream America. A summer of street-level rebellion turned Detroit into one of the most notorious cities on earth, known for its unique creativity, its unpredictability, and self-lacerating crime rates. The year 1967 ended in social meltdown, rancor, and intense legal warfare as the complex threads that held Detroit together finally unraveled. “A whole-hearted evocation of people and places,” Detroit 67 is “a tale set at a fulcrum of American social and cultural history” (Independent).

Expo 67 Rhona Richman Kenneally, Johanne Sloan, 2010-12-11 Expo 67, the world's fair held in Montreal during the summer of 1967, brought architecture, art, design, and technology together into a glittering modern package. Heralding the ideal city of the future to its visitors, the Expo site was perceived by critics as a laboratory for urban and architectural design as well as for cultural exchange, intended to enhance global understanding and international cooperation. This collection of essays brings new critical perspectives to Expo 67, an event that left behind a significant material and imaginative legacy. The contributors to this volume reflect a variety of interdisciplinary approaches and address Expo 67 across a broad spectrum ranging from architecture and film to more ephemeral markers such as postcards, menus, pavilion displays, or the uniforms of the hostesses employed on the site. Collectively, the essays explore issues of nationalism, the interplay of tradition and modernity, twentieth-century discourse about urban experience, and the enduring impact of Expo 67's technological experimentation. Expo 67: Not Just a Souvenir is a compelling examination of a world's fair that had a profound impact locally, nationally, and internationally.

Expo 67 and Its World Craig Moyes, Steven Palmer, 2022-06-17 In 1967, Montreal hosted Man and His World/Terre des hommes. By far the most successful cultural event ever produced in Canada, it was embraced by the public at the same time as intellectuals from Marshall McLuhan to Umberto Eco hailed it as a new type of exhibition for a new global age. Because it was held where and when it was – on a man-made archipelago in the St Lawrence River seven years into Quebec's Quiet Revolution – Expo 67 also provided a prism through which the idea of the nation could be refracted and recast in original ways. Misunderstood by some scholars as an expensive exercise in official patriotism, while maligned by Quebec intellectuals as a crypto-federalist distraction from the real business of national independence, the fair nevertheless showcased Montreal as the de facto capital of a suddenly modern Quebec engaging with a late-modern world. Expo 67 and Its World proposes a reappraisal of the 1967 Montreal International and Universal Exhibition across a range of political, social, and cultural spaces: from the dispossession of Indigenous Peoples and what was then known as the Third World, through the aspirations of Montreal, Quebec, and Canada, to the increasingly global ambit of youth culture, medicine, film, and finance. A new approach to understanding Expo 67, the collection challenges assumptions about the significance of the event to Canadian, Québécois, and First Nations history.

McDonnell XP-67 "Moonbat" Steve Richardson, Peggy Mason, 2022-11-24 Packed with never-before-seen photos, plans and meticulous new digital artwork, this is the first history of the USAAF's futuristic World War II prototype interceptor, the XP-67 Moonbat. The series of X-planes that sprang from the US Army's Request for Data R40C, focused on high-altitude, high-speed, long-range bomber interceptors. Among these aircraft was the McDonnell Aircraft Company's first ever clean sheet design, the XP67. Its futuristic lines promised performance that it was ultimately unable to deliver, but development was still underway when disaster struck. Just before Army performance demonstration flights were scheduled to begin, an engine fire destroyed the only XP-67 prototype, leaving a host of unanswered questions about what might have been, and leading to decades of continuing fascination with the XP-67 among aviation buffs and aircraft modelers. The authors of this book have uncovered new sources of information and a wealth of photographs and line drawings that document not just the XP-67 but also its immediate precursors within the McDonnell Aircraft design community, as well as alternative configurations for unbuilt variants aimed at different missions. Packed with unpublished photos of all stages of construction including key airframe changes made after initial flight tests, showing in detail how the final configuration was evolved, this volume finally provides clear focus on a story that has long been shrouded in mystery.

Montreal's Expo 67 Bill Cotter, 2020-02-03 In 1967, Canada celebrated the 100th anniversary of its founding with a spectacular party, and the whole world was invited. Montreal's Expo 67 was the first world's fair held in Canada, and it was a huge success, attracting over 50 million visitors. The 1,000-acre site was built on two man-made islands in the St. Lawrence River and incorporated 90 futuristic pavilions created by some of the world's greatest architects and designers. Over 60 countries were represented, along with many private, corporate and thematic pavilions, all brought together under the theme Man and his World. With performers and entertainers of all varieties, restaurants, cultural attractions, exhibitions and a world-class amusement park, Expo 67 was literally the party of the century, exceeding all expectations.

Emigre: GLOBAL DESIGN, VS. Globalism, Criticism, SCIENCE, AUTHENTICity and Humanism - #67 Rudy VanderLans,2004-08-12 In his essay Style is Not a Four Letter Word, Mr. Keedy looks at the continuing feud in design between style and content, form and function, and even pleasure and utility, and tries to pin down how style got such a bad reputation, and how restoring its value may save design. Kenneth FitzGerald in Buzz Kill continues to be amazed at the gyrations designers will go through to try and place themselves beyond criticism. His essay tries to drive a stake through the common techniques used by designers to neutralize criticism. Anthony Inciong mourns the fact that design no longer leads but answers to the market and how this coincides with the dumbing down of design education. He recommends an increase in theory, history, and research as a way for young designers to build an awareness of the culture in which they and their objects will live. Michael Schmidt and Katherine McCoy, in two separate essays, explore the role of graphic design in the age of globalization. Randy Nakamura looks at the continuing attempt by graphic designers to raise design above its middlebrow pedigree. David Cabianca reviews Fred Smeijer's book Type now: a manifesto, plus work so far. Cabianca, who studies at the University of Reading (UK), looks at what a student of type design may take away from this book. Rudy VanderLans interviews Peter Bilak, the designer of the popular Fedra type family and co-publisher of DotDotDot magazine, as well as Dmitri Siegel, a recent Yale graduate who has a knack for writing original and insightful design critiques. Max Kisman lends us a few pages from his ongoing illustrated diary which currently contains over 15,000 pages. Plus, the Readers Respond, featuring letters in response to past issues of Emigre magazine.
