Secret on the Tarmac Christopher Sign,2019-11-14 The plan was perfect.No cameras, no microphones, no prying eyes and plenty of security.The setting for a clandestine meeting could not have been better.Former President Bill Clinton exited Attorney General Loretta Lynch's private plane 20-minutes after he boarded.Both thought they got away with it. Both were wrong.Amid a heated Presidential race, federal investigations involving emails and Benghazi and society looking for clarity on the future of the country, the secret tarmac meeting would only complicate things.The secret meeting would have never been revealed if it weren't for a veteran journalist and a trusted source.It wasn't the Emmys, Murrows or Associated Press Awards, it was decades of experience and relationships that led to the moment Christopher Sign broke the story of the secret tarmac meeting.His former teammates and coaches at the University of Alabama would play a personal and critical role after breaking the story. From politics to football, to friendship and journalism, this is the unfiltered story of the secret tarmac meeting. Christopher takes you behind the scenes for a step by step account of how it all unfolded in the summer of 2016 on a blazing tarmac. Details revealed for the first time, the process, the questions of sabotage, the attempt at a coverup, the contradictions from Clinton & Lynch, and the source who saw it all. Take a ride and tackle THE SECRET ON THE TARMAC.

China's Relations with the Gulf Monarchies Jonathan Fulton,2018-08-06 As China's international political role grows, its relations with states outside of its traditional sphere of interests is evolving. This is certainly the case of the Arab Gulf monarchies of Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, and the United Arab Emirates, which together comprise the Gulf Cooperation Council (GCC). China's levels of interdependence with these states has increased dramatically in recent years, spanning a wide range of interests. What motivating factors explain the Chinese leadership's decision to forge closer ties to the GCC? Why have GCC leaders developed closer ties to China, and what kind of role can China be expected to play in the region as levels of interdependence intensify? This book uses neoclassical realism to analyse the evolution of Sino-GCC relations. Examining the pressures that shaped China's policy toward the Arab Gulf monarchies, it demonstrates that systemic considerations have been predominant since 1949, yet domestic political considerations were also always an important consideration. Relations are examined across diplomatic and political interactions, trade and investment, infrastructure and construction projects, people-to-people exchanges, and military and security cooperation. This book will appeal to scholars in the fields of International Relations and International Political Economy, as well as area specialists on China, the Persian Gulf, the Arab Gulf Monarchies, and those working on foreign policy issues.

External Powers and the Gulf Monarchies Jonathan Fulton,Li-Chen Sim,2018-08-23 The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security, but in response to regional events, particularly the Arab Spring of 2011, they are pursuing more activist foreign policies, which has allowed other international powers to play a larger role in regional affairs. This book analyses the changing dynamic in this region, with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra-regional powers, including the USA, Russia, China, India, Brazil, Turkey, Japan, South Korea, France, and the United Kingdom. At the theoretical level, these case studies explore the extent to which different international relations and international political economy theories explain change in these relationships as the regional, political and security environment shifts. Focusing on how and why external powers approach their relationships with the Gulf monarchies, contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years. Addressing an under-analysed, yet important topic, the volume will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra-regional powers studied.

The End of America J J Sefton,2021-09-28 The Left's 100-year campaign of political and cultural subversion in its quest for absolute power climaxed during a roughly 100-day period from early January through mid-April of 2021. As millions of Americans attempted to exercise their rights to peacefully petition their elected representatives to challenge what was, at best, a seriously compromised national election, they were mocked, vilified, censored and even incarcerated. The brazen criminality of the Democrat Party before, during and after the fact was shocking and unprecedented. But it was the fecklessness, cowardice and even collusion in the crime on the part of Republicans and the judiciary that was truly despicable. Ultimately, their abrogation of their legal and moral responsibility to preserve, protect and defend the Constitution from all enemies foreign and domestic sealed the fate of this nation. America, as founded, has finally been overthrown.

The Miner Natsume Soseki,2015-09-07 The Miner is the most daringly experimental and least well-known novel of the great Meiji writer Natsume Soseki. An absurdist tale about the indeterminate nature of human personality, written in 1908, it was in many ways a precursor to the work of Joyce and Beckett. The result is a novel that is both absurd and comical, and a true modernist classic.

Between Islam and the American Dream Yuting Wang,2013-11-26 Based on a three-year ethnographic study of a steadily growing suburban Muslim immigrant congregation in Midwest America, this book examines the micro-processes through which a group of Muslim immigrants from diverse backgrounds negotiate multiple identities while seeking to become part of American society in the years following 9/11. The author looks into frictions, conflicts, and schisms within the community to debunk myths and provide a close-up look at the experiences of ordinary immigrant Muslims in the United States. Instead of treating Muslim immigrants as fundamentally different from others, this book views Muslims as multidimensional individuals whose identities are defined by a number of basic social attributes, including gender, race, social class, and religiosity. Each person portrayed in this ethnography is a complex individual, whose hierarchy of identities is shaped by particular events and the larger social environment. By focusing on a single congregation, this study controls variables related to the particularity of place and presents a “thick” description of interactions within small groups. This book argues that the frictions, conflicts and schisms are necessary as much as inevitable in cultivating a “composite culture” within the American Muslim community marked by diversity, leading it onto the path of Americanization.
