**Little Free Libraries & Tiny Sheds Philip Schmidt,Little Free**

Library,2019-03-26 Expand the sharing movement to your

community with Little Free Libraries and Tiny Sheds—your complete source for building tiny sharing structures, including plans for 12 different structures, step-by-step photography and instructions, inspirational examples, and maintenance. Around the world, a community movement is underway featuring quaint landscape structures mounted on posts in front yards and other green spaces. Some are built for personal use, as miniature sheds for gardeners or as decorative accent pieces. More commonly, though, they are evidence of the growing trend toward neighborhood organization and community outreach. This movement has been popularized by Wisconsin-based Little Free Library (LFL), whose members currently include 75,000 stewards seeking to build community togetherness and promote reading at the same time by sharing books among neighbors. LFL has inspired builders to use similar structures to share things like CDs, food, garden tools, and seeds in the community. Produced in cooperation with Little Free Library, *Little Free Libraries and Tiny Sheds* is the builder's complete source of inspiration and how-to knowledge. Illustrated throughout with colorful step-by-step photography and a gallery of tiny structures for further inspiration, *Little Free Libraries and Tiny Sheds* covers every step: planning

and design, tools and building techniques, best materials, and 12 complete plans for structures of varying size and aesthetics. In addition, author and professional carpenter Phil Schmidt includes information on proper installation of small structures and common repairs and maintenance for down the road. Little Free Libraries and Tiny Sheds even includes information on how to become a steward, getting the word out about your little structure once it's up and running, and tips for building a lively collection. Community togetherness has never been so at the fore of our consciousness—or so important. Little Free Libraries and Tiny Sheds is one tool on the road to helping you build community in your neighborhood.

**Core 52** Mark E. Moore,2019-07-16 ECPA BESTSELLER • FINALIST FOR THE CHRISTIAN BOOK AWARD® • Build your Bible IQ and Christian worldview in just fifteen minutes a day! Over the course of a year, Core 52 will help you master the 52 most important passages in the Bible. “You will gain the tools you need for living the life God has called you to.”—Kyle Idleman, pastor and author of *Not a Fan* “For physical training is of some value, but

godliness has value for all things, holding promise for both the present life and the life to come.”—1 Timothy 4:8 Most of us want to know the Bible better, but few reach our goal, often because we’re too busy or we don’t know where to start. Core 52 removes both barriers, offering a common-sense solution that fits into our busy lives. Respected Bible professor and teaching pastor Mark E. Moore developed this proven process from thirty-five years of helping people grow deeper in God’s Word. Each week features a brief essay, memory verse, Bible story, trajectory verses, and practical ways to put what you’ve learned into practice. An optional “Overachiever Challenge” offers the chance to memorize the top 100 Bible verses by year’s end. This simple approach allows you to become familiar with the big ideas of the Bible in less time and with less effort than other reading plans. In one year, you can master the core of the Bible—focusing on topics from God’s will to worry, happiness to holiness, and leadership to love. These fifty-two core passages are lenses through which you can read the rest of the Bible with clarity and confidence.

**Join the Club** Tina Rosenberg, 2011-04-08 In the style of Nudge or The Spirit Level - a groundbreaking book that will change the way you look at the world. Tina Rosenberg has spent her career tackling some of the world's hardest problems. The Haunted Land, her searing book on how Eastern Europe faced the crimes of Communism, was awarded both the National Book Award and the Pulitzer Prize in the US. In Join the Club, she identifies a brewing social revolution that is changing the way people live, based on harnessing the positive force of peer pressure. Her stories of peer power in action show how it has reduced teen smoking in the United States, made villages in India healthier and more prosperous, helped minority students get top grades in college calculus, and even led to the fall of Slobodan Milosevic. She tells how creative social entrepreneurs are starting to use peer pressure

to accomplish goals as personal as losing weight and as global as fighting terrorism. Inspiring and engrossing, Join the Club explains how we can better our world through humanity's most powerful and abundant resource: our connections with one another.
