A Little History of the World E. H. Gombrich, 2014-10-01 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

The Politics Aristotle, 1981-09-17 Twenty-three centuries after its compilation, 'The Politics' still has much to contribute to this central question of political science. Aristotle's thorough and carefully argued analysis is based on a study of over 150 city constitutions, covering a huge range of political issues in order to establish which types of constitution are best - both ideally and in particular circumstances - and how they may be maintained. Aristotle's opinions form an essential background to the thinking of philosophers such as Thomas Aquinas, Machiavelli and Jean Bodin and both his premises and arguments raise questions that are as relevant to modern society as they were to the ancient world.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer,

father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Third Witch Rebecca Reisert, 2002-03-02 Rebecca Reisert's mesmerizing first novel re-imagines Macbeth, Shakespeare's classic tragedy of power and madness, through the eyes of a mysterious young woman on a dangerous quest for vengeance. For the girl called Gilly, life in the wilds of Birnam Wood is little more than a desperate struggle for survival. Seven long years have passed since she was first taken in and sheltered by Nettle and Mad Helga, the hut-dwelling wise-women whose inscrutable powers of alchemy and prophecy are feared and reviled throughout good King Duncan's kingdom. Living under the threat of deadly persecution by witch-hunting villagers, the threesome ekes out a life by peddling potions and elixirs, scavenging for food, and robbing the bloodied corpses of Scotland's battle-scarred hills for precious metals and weapons. But Gilly is haunted by recollections of a much brighter life. She clings to fading memories of a time when she was contented and adored -- until tragedy swept all that happiness away and young Gilly's life was changed forever. I have made my life an arrow, and His heart is my home. I have made my heart a blade, and His heart is my sheath....Obsessed with avenging her loss and putting out the fire that still rages in her heart, Gilly has dedicated herself to destroying Macbeth, the boundlessly ambitious man who took away her childhood, and his goading wife. Disguising herself as a poor servant boy, she insinuates herself into their lives and, as she bears horrified witness to Macbeth's violent path to power, Gilly subtly begins to take a hand in the forces governing his fate. But as the culmination of her revenge draws near, Gilly finds her own life at risk when she confronts the troubling legacy of a long-concealed heritage. *The Third Witch* is a brilliantly imagined, wonderfully satisfying novel. In a riveting story of ruthlessness and revenge, debut author Rebecca Reisert demonstrates a profound

understanding of the Bard's timeless drama -- and of the real-life Macbeth upon whom Shakespeare's incarnation is modeled.

Why Did Europe Conquer the World? Philip T. Hoffman, 2017-01-24 The startling economic and political answers behind Europe's historical dominance Between 1492 and 1914, Europeans conquered 84 percent of the globe. But why did Europe establish global dominance, when for centuries the Chinese, Japanese, Ottomans, and South Asians were far more advanced? In *Why Did Europe Conquer the World?*, Philip Hoffman demonstrates that conventional explanations—such as geography, epidemic disease, and the Industrial Revolution—fail to provide answers. Arguing instead for the pivotal role of economic and political history, Hoffman shows that if certain variables had been different, Europe would have been eclipsed, and another power could have become master of the world. Hoffman sheds light on the two millennia of economic, political, and historical changes that set European states on a distinctive path of development, military rivalry, and war. This resulted in astonishingly rapid growth in Europe's military sector, and produced an insurmountable lead in gunpowder technology. The consequences determined which states established colonial empires or ran the slave trade, and even which economies were the first to industrialize. Debunking traditional arguments, *Why Did Europe Conquer the World?* reveals the startling reasons behind Europe's historic global supremacy.

The Black Jacobins C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791–1803 “One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L’Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.
