MiniEco Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

Mouse House Rumer Godden,2016-09-06 “Once upon a time there was a little mouse house. It was like a doll’s house, but not for dolls, for mice.” Not proper mice, but a flannel He-Mouse and She-Mouse with beady eyes and bristle whiskers who stand quite still, propped on their hind legs in the sitting room. Mary knows real mice run and scamper, and disappointed with her new gift, she puts the mouse house away in her room. Meanwhile, down in the basement, a real mouse named Bonnie has been jostled out of her woefully inadequate flowerpot home by her older brothers and sisters. Overlooked by her harried parents and desperate for shelter, Bonnie ventures upstairs and finds the mouse house. And before too long what was a miniature make-believe house becomes a marvelously messy home for proper mice who know how to play, much to everyone’s delight.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
