Cartridges and Firearm Identification Robert E. Walker,2012-11-26 At a time when crime scene television shows are all the rage amongst the civilian population, knowledge of firearm forensics is of paramount importance to crime scene analysts, police detectives, and attorneys for both the prosecution and the defense. Cartridges and Firearm Identification brings together a unique, multidisciplined approach to quest

The M14 Battle Rifle Leroy Thompson,2014-10-20 The M14 may have only been the primary US service rifle for a little over a decade before being replaced by the M16, but it is still considered by many experts to be the best rifle to ever see US service. Primarily designed for a war in Europe, where it would take its place alongside the other battle rifles like the FN FAL, the M14 saw most of its combat use in the early days of the Vietnam War. Maintained until 1970 for compatibility with NATO forces the M14 had a renaissance as a semi-automatic sniping weapon and since 2001 the M14 has been employed as a Designated Marksman Rifle, being employed by all branches of the US military, especially in Afghanistan where the open terrain makes longer-range engagements common. Featuring specially commissioned full-color artwork and archive and close-up photographs, this engaging study tells the story of the M14, the long-lived battle rifle that remains in front-line service with US forces more than 50 years after its first adoption.

Heaven Is a World of Love Jonathan Edwards,2020-10-02 Of the many good gifts the Lord has given his church on earth, none exceeds that of his love. The things of this earth are temporary, but “love never ends” (1 Cor. 13:8)—it is a present taste of future glory, made available through communion with the Holy Spirit. In this classic work, Heaven Is a World of Love, New England pastor Jonathan Edwards encourages Christians struggling through the imperfect life here on earth to experience the perfect love of God through an exposition of the biblical foundations for the cause of God’s love, the objects of God’s love, the enjoyment of God’s love, and the fruits of God’s love. Each page of pastoral insight will leave readers hungry to experience more of God.

Guns of Special Forces 2001 - 2015 Leigh Neville,2016-03 In the years since 9/11 Special Forces of many nations have been in almost constant action in covert, high risk operations around the globe. These include the two long conflicts in Iraq and Afghanistan, fighting nationalist insurgents and jihadist terrorists, as well as other lesser known operations. The weapons used by SF are a constant source of interest and speculation, as are SF training, methods and vehicles. The armories of these elite units have developed rapidly to meet their demands and the ever more sophisticated threat. They include for example suppressed piston-driven carbines, programmable grenade launchers that airburst behind hidden enemy and sniper rifles of extreme accuracy and range. This highly researched book gives the reader a privileged insight into this secret world exploring the custom-built weapons that operators carry on capture/kill missions in the 21st Century.

American Rifle Alexander Rose,2009-09-29 George Washington insisted that his portrait be painted with one. Daniel Boone created a legend with one. Abraham Lincoln shot them on the White House lawn. And Teddy Roosevelt had his specially customized. In this first-of-its-kind book, historian Alexander Rose delivers a colorful, engrossing biography of an American icon: the rifle. Drawing on the words of foot soldiers, inventors, and presidents, based on extensive new research, and spanning from the Revolution to the present day, American Rifle is a balanced, wonderfully entertaining history of the rifle and its place in American culture.

Increasing Small Arms Lethality In Afghanistan: Taking Back The Infantry Half-Kilometer Major Thomas P. Ehrhart,2015-11-06 Operations in Afghanistan frequently require United States ground forces to engage and destroy the enemy at ranges beyond 300 meters. These operations occur in rugged terrain and in situations where traditional supporting fires are limited due to range or risk of collateral damage. With these limitations, the infantry in Afghanistan require a precise, lethal fire capability that exists only in a properly trained and equipped infantryman. While the infantryman is ideally suited for combat in Afghanistan, his current weapons, doctrine, and marksmanship training do not provide a precise, lethal fire capability to 500 meters and are therefore inappropriate. Comments from returning non-commissioned officers and officers reveal that about fifty percent of engagements occur past 300 meters. The enemy tactics are to engage United States forces from high ground with medium and heavy weapons, often including mortars, knowing that we are restricted by our equipment limitations and the inability of our overburdened soldiers to maneuver at elevations exceeding 6000 feet. Current equipment, training, and doctrine are optimized for engagements under 300 meters and on level terrain There are several ways to extend the lethality of the infantry. A more effective 5.56-mm bullet can be designed which provides enhanced terminal performance out to 500 meters. A better option to increase incapacitation is to adopt a larger caliber cartridge, which will function using components of the M16/M4. The 2006 study by the Joint Service Wound Ballistics-Integrated Product Team discovered that the ideal caliber seems to be between 6.5 and 7-mm. This was also the general conclusion of all military ballistics studies since the end of World War I.

Scars, Marks & Tattoos Jacqueline Caruso,2021-03-31 I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to catch my breath and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.
