*The Creative Mind* Margaret A. Boden, 2004-02-24 How is it possible to think new thoughts? What is creativity and can science explain it? And just how did Coleridge dream up the creatures of *The Ancient Mariner*? When *The Creative Mind: Myths and Mechanisms* was first published, Margaret A. Boden's bold and provocative exploration of creativity broke new ground. Boden uses examples such as jazz improvisation, chess, story writing, physics, and the music of Mozart, together with computing models from the field of artificial intelligence to uncover the nature of human creativity in the arts. The second edition of *The Creative Mind* has been updated to include recent developments in artificial intelligence, with a new preface, introduction and conclusion by the author. It is an essential work for anyone interested in the creativity of the human mind.

**The Hyperlinked Society** Lokman Tsui, 2009-12-11 Links are among the most basic---and most unexamined---features of online life. Bringing together a prominent array of thinkers from industry and the academy, The Hyperlinked Society addresses a provocative series of questions about the ways in which hyperlinks organize behavior online. How do media producers' considerations of links change the way they approach their work, and how do these considerations in turn affect the ways that audiences consume news and entertainment? What role do economic and political considerations play in information producers' creation of links? How do links shape the size and

scope of the public sphere in the digital age? Are hyperlinks bridging mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world? Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and beliefs? This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication, commerce, and civic discourse in the world of digital media. This collection provides a broad and deep examination of the social, political, and economic implications of the evolving, web-based media environment. The Hyperlinked Society will be a very useful contribution to the scholarly debate about the role of the internet in modern society, and especially about the interaction between the internet and other media systems in modern society. ---Charles Steinfield, Professor and Chairperson, Department of Telecommunication, Information Studies, and Media, Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication, University of Pennsylvania. **Ancient Greece and Rome in Videogames** Ross Clare, 2021-06-03 This volume presents an original framework for the study of video games that use visual materials and narrative conventions from ancient Greece and Rome. It focuses on the culturally rich continuum of ancient Greek and Roman games, treating them not just as representations, but as functional interactive products that require the player to interpret, communicate with and alter them. Tracking the movement of such concepts across different media, the study builds an interconnected picture of antiquity in video games within a wider transmedial environment. *Ancient Greece and Rome in Videogames* presents a wide array of games from several different genres, ranging from the blood-spilling violence of god-killing and gladiatorial combat to meticulous strategizing over virtual Roman Empires and often bizarre adventures in pseudo-ancient places. Readers encounter instances in which players become intimately engaged with the “epic mode” of spectacle in *God of War*, moments of negotiation with colonised lands in *Rome: Total War* and *Imperium Romanum*, and multi-layered narratives rich with ancient traditions in games such as *Eleusis* and *Salamambo*. The case study approach draws on close analysis of outstanding examples of the genre to uncover how both representation and gameplay function in such “ancient games”.

Lesser Known Monsters of the 21st Century Kim Fu, 2022-02-01 The strange and wonderful define Kim Fu's story collection, where the line between fantasy and reality fades in and out, elusive and beckoning. -The New York Times Book Review A LitHub, ALTA, and PureWow Best Book of the Month A BuzzFeed and WIRED Pick for a Book You Need to Read This Winter In the twelve unforgettable tales of Lesser Known Monsters of the 21st Century, the strange is made familiar and the familiar strange, such that a girl growing wings on her legs feels like an ordinary rite of passage, while a bug-infested house becomes an impossible, Kafkaesque nightmare. Each story builds a new world all its own: a group of children steal a haunted doll; a runaway bride encounters a sea monster; a vendor sells toy boxes that seemingly control the passage of time; an insomniac is seduced by the Sandman. These visions of modern life wrestle with themes of death and technological consequence, guilt and sexuality, and unmask the contradictions that exist within all of us. Mesmerizing, electric, and wholly original, Kim Fu's Lesser Known Monsters of the 21st Century blurs the boundaries of the real and fantastic, offering intricate and surprising insights into human nature.

Make It New Bill Beuttler, 2019-10-01  
As jazz enters its second century it

is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.
