Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Superperformance Stocks Richard S. Love,2022-05-27 The Author writes about the superperformance stocks of the time, and the common denominators of those stocks. What traits do they have in common, how to find them? Definition of a superperformance stock: One that at least tripled in price and increased at a minimum rate of three times during a two-year period. A move was considered ended if the price failed to reach a new high in less than six months, or if there was a price reaction of 25 percent or more. Stocks that have a chance to become superperformance stocks share some of these characteristics: * Large increases of earnings, especially if the large increase comes as a surprise. * Mergers and acquisitions. * New management. * New products. The best results come after the market has experienced a severe correction or a bear market, because that is the time when there would be many bargain opportunities in that environment. History often repeats itself in the stock market. The names of the stocks change,

but the overall situation is always similar. Acceleration of earning power is the most important thing to look for when examining the potential of a stock to become a superperformance stock. And the superperformance move will most often coincide with the bull market cycle of the general market.
