Poetics and Politics Toni Bernhart, Jaša Drnovsek, Sven Thorsten Kilian, Joachim Küpper, Jan Mosch, 2018-08-21 Far from teleological historiography, the pan-European perspective on Early Modern drama offered in this volume provides answers to why, how, where and when the given phenomena of theatre appear in history. Using theories of circulation and other concepts of exchange, transfer and movement, the authors analyze the development and differentiation of European secular and religious drama, within the disciplinary framework of comparative literature and the history of literature and concepts. Within this frame, aspects of major interest are the relationship between tradition and innovation, the status of genre, the proportion of autonomous and heteronomous creational dispositions within the artefacts or genres they belong to, as well as strategies of functionalization in the context of a given part of the cultural net. Contributions cover a broad range of topics, including poetics of Early Modern Drama; political, institutional and social practices; history of themes and motifs (Stoffgeschichte); history of genres/cross-fertilization between genres; textual traditions and distribution of texts; questions of originality and authorship; theories of circulation and net structures in Drama Studies.

Dosso's Fate Dosso Dossi, 1998 Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists. Although a wealth of documents chronicles his life, he remains, in many ways, an enigma, and his art continues to be as elusive as it is compelling. In *Dosso's Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators, as well as his visual and literary sources and his painting technique. The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy.

Dante's Poets Teodolinda Barolini, 2014-07-14 By systematically analyzing Dante's attitudes toward the poets who appear throughout his texts, Teodolinda Barolini examines his beliefs about the limits and purposes of textuality and, most crucially, the relationship of textuality to truth. Originally published in 1984. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Gadda Goes to War Federica G Pedriali, 2013-09-30 Introduces and analyses stage performances of texts by Italian Modernist writer Carlo Emilio Gadda, Italy's own Joyce. Includes the Italian texts (with English translation) and the dvd of the Italian performance (with English subtitles).

The Slovene Dialect of Resia Han Steenwijk, 1992 The study contains a synchronical description of the San Giorgio variety of the Slovene dialect spoken in the Resia valley (Val Resia/Rezijanska dolina) situated in north-eastern Italy. The following linguistic levels are analysed: phonology, morphonology and morphology. Apart from this some remarks on syntax and a lexicon have been included. The first chapter contains an overview of existing descriptive publications on Resian. Taking this overview as a starting point the choice of exactly the San Giorgio variety as the topic of this study is accounted for and the need for not only phonological, but also morphological analysis is made pointed out. The chapter further contains information on the native speakers whose speech is analysed and on the various methods used to obtain the dialect material. In the second chapter the phoneme inventory is presented, along with information on realisations, (optional) neutralisations and sandhi phenomena. Notwithstanding the considerable amount of phonetic detail given, the first and foremost aim of this chapter remains the quest for phonological oppositions and their functioning. In the third chapter the morphonological alternations that occur in the substantive, adjective and verb categories are being treated. Instead of dividing this information over the respective chapters on these categories, the alternations are presented together in a separate chapter, because some of the more frequent of them occur in all these word classes. However, through a classification by accent classes alternations concerning the location of stress are treated together with the word class they occur in. The third through seventh chapter inclusive contain the morphology of the substantive (chapter 4), the adjective (chapter 5), the pronoun, the numeral and the article (chapter 6) and the verb (chapter 7), respectively. In each chapter, together with an inventory of the attested desinences, an overview is given of rare desinences, of irregular declinations/conjugations and of the distribution of alternative desinences.

Renaissance Weddings and the Antique Jerzy Miziołek, 2018 This book is divided into two parts, the

The second part, consisting of eight chapters, discusses the cassone panels and paintings deriving from day beds--lettucci--and panelling of the walls--spalliere.--Back cover.

History and Art History Nicholas Chare,Mitchell B. Frank,2020-11-29 Through a series of cross-disciplinary and interdisciplinary interventions, leading international scholars of history and art history explore ways in which the study of images enhances knowledge of the past and informs our understanding of the present. Spanning a diverse range of time periods and places, the contributions cumulatively showcase ways in which ongoing dialogue between history and art history raises important aesthetic, ethical and political questions for the disciplines. The volume fosters a methodological awareness that enriches exchanges across these distinct fields of knowledge. This innovative book will be of interest to scholars in art history, cultural studies, history, visual culture and historiography.

Explorations in Albania, 1930-39 Luigi Cardini,Karen Francis,2005 In 1999 a collection of documents were found in the archives of the Italian Institute of Human Palaeontology belonging to Luigi Cardini, one of the founders of the Institute. These documents included site notebooks, photographs, drawings and maps relating to work carried out in Albania from 1930-39 where he was sent on a governmental mission to 'reinforce Italian supremacy in Albania through archaeological research'. This monograph publishes extracts from these notebooks within a historical, political and archaeological context. The work he carried out is synthesised and a report is included on survey work carried out in 2000 and 2001 to attempt to relocate many of Cardini's cave sites described in his notebooks.
