Paint by Sticker Kids: Under the Sea Workman Publishing, 2017-05-16 Paint by Sticker is the most exciting new idea in activity books, both for grown-ups and kids. A compelling activity for crafters and artists, doodlers and colorers of all ages, each Paint by Sticker Kids book includes everything you need to create ten vibrant, full-color "paintings." The original images are rendered in low-poly, a computer graphics style using geometric polygon shapes to create a 3D effect. As in paint-by-number, each template is divided into spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next—it's an activity that's utterly absorbing, both in the pleasure of peeling and sticking and the growing satisfaction of watching a "painting" come to life, emerging from a flat black-and-white illustration to a dazzling image with color, body, and spirit. Paint by Sticker Kids: Under the Sea is a journey into the world beneath the waves. Kids will create a dolphin, a shark, an octopus, and other denizens of the watery world. The card stock pages are perforated so kids can remove them easily and display, or share, their finished works of art.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

From Cave Man to Cave Martian Manfred "Dutch" von Ehrenfried, 2019-04-05 This book explores the practicality of using the existing subsurface geology on the Moon and Mars for protection against radiation, thermal extremes, micrometeorites and dust storms rather than building surface habitats at great expense at least for those first few missions. It encourages NASA to plan a precursor mission using this concept and employ a "Short Stay" Opposition Class mission to Mars as the first mission rather than the "Long Stay" concept requiring a mission that is too long, too dangerous and too costly for man's first missions to Mars. Included in these pages is a short history on the uses of caves by early humans over great periods of time. It then describes the ongoing efforts to research caves, pits, tunnels, lava

tubes, skylights and the associated technologies that pertain to potential lunar and Mars exploration and habitation. It describes evidence for existing caves and lava tubes on both the Moon and Mars. The work of noted scientists, technologists and roboticists are referenced and described. This ongoing work is more extensive than one would think and is directly applicable to longer term habitation and exploration of the Moon and Mars. Emphasis is also given to the operational aspects of working and living in lunar and Martian caves and lava tubes.

Paint by Sticker Kids: Dinosaurs Workman Publishing, 2020-07-21 Paint by Sticker Kids just gets stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid's favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don't forget about the king of them all: a ferocious T-Rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without them even thinking they're doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!

All the pages are perforated, making it easy to tear out each finished work to frame and share!

Paint by Sticker Kids: Zoo Animals Workman Publishing, 2016-09-20 Find the sticker, peel the sticker, place the sticker. And sticker by sticker, a koala appears! Or an elephant, frog, red panda, puffin, peacock, snake, giraffe,

tiger, or gorilla. (And no mess to clean up!) Designed for children ages 5 and up, Paint by Sticker Kids: Zoo Animals uses low-poly art—a computer style that renders 3-D images out of polygon shapes—and removable color stickers so that kids can create 10 vibrant works of art. The stickers are larger, as befits the younger audience, and the card stock pages are perforated for easy removal, making them suitable for displaying.

Paint by Sticker Kids: Beautiful Bugs Workman Publishing, 2018-04-17 The magic of Paint by Sticker Kids continues, combining the fun of coloring and stickers with the creativity of paint by number. The series just keeps growing, with another much-loved nature-themed topic: Bugs! Paint by Sticker Kids: Beautiful Bugs includes everything kids need to create 10 full-color illustrations of their favorite creepy-crawlies: a firefly, a praying mantis, a ladybug, butterflies, ants, a painted grasshopper, a dragonfly, beetles, a bumblebee, and a weevil. Simply find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and watch a dazzling image come to life with color and spirit in the modern “low-poly” style (using geometric polygon shapes). The card-stock pages are perforated so artwork can be easily removed for framing or the fridge. Creating sticker art is as fun and meditative as coloring, and it's a refreshing shake-up from the usual crayons and markers. Plus, the peel-and-place system allows kids to practice recognizing and learning numbers in an interactive, stress-free way. And it's a great rainy day or travel activity (no cleanup!) that delivers hands-on fun for less than \$10.

The Wal-Mart Effect Charles Fishman, 2006 An award-winning journalist breaks through the wall of secrecy to reveal how the world's most powerful company really works and how it is transforming the American economy.

Picasso's Ladies Wendy Ramshaw, Anna Beatriz Chadour-Sampson, 1998 Wendy Ramshaw who lives in London is one of the leading artist-jewellers of the late 20th century whose distinctive style is internationally admired and widely influential. Picasso, one of the most prolific artists of the 20th century, and his painted records of his wives, mistresses and friends have been the focus of Ramshaw's study since the mid-Eighties. The sheer beauty of the women and the full range of emotions expressed in these paintings provided the impetus to design one or more jewels for each of the 66 portraits of 'Picasso's Ladies' illustrated in this book. In this publication the collection is for the first time being presented in its entirety alongside Picasso's paintings, the source of stimulus. In an unusual approach the artist gives in her notes an insight into her working process. She reveals to us the personal messages of each painting which led to a number of amazing designs and how her choice of stones either reflect or go against the colours on the paintings. Four authors have illuminated various aspects of what are undoubtedly some of the most intellectually complex and aesthetically accomplished jewels.--BOOK JACKET. To the Point Daniela Malev, 2017 In the field of contemporary jewellery, the

brooch is a very common and also much discussed form of jewellery. One of the special challenges of making a good brooch is to find an adequate solution for the pin, which connects the piece securely to the wearer but goes beyond being a mere functional and invisible part of the backside. It should be an essential part of the brooch in terms of content and aesthetics. The author is convinced that the fastening and attachment of a brooch hold a tremendous potential for the design of a brooch in its entirety. As the selection of brooches in this book demonstrates, there is a whole universe of possibilities and varieties...
