**Woodcarving Illustrated** Roger Schroeder, Paul McCarthy, 1983 A good illustration is worth a thousand wood chips! Here at last is a woodcarving book that lays the projects out chip-by-chip, with drawing-after-drawing to teach the craft in the most accurate way possible. With this book beginners don't have to guess how to position the knife or where to chip away. Clearly, explicitly, taking as many drawings as necessary - sometimes up to 50 for one project - the authors guide you through each project to the completion of handsome, useful, realistic finished pieces. The ten projects are actually ten lessons for building skill in carving techniques and developing confidence and proficiency in this age-old craft.

**Design And Truth** Robert Grudin, 2010-04-20 "If good design tells the truth," writes Robert Grudin in this path-breaking book on esthetics and authority, "poor design tells a lie, a lie usually related . . . to the getting or abusing of power." From the ornate cathedrals of Renaissance Europe to the much-maligned Ford Edsel of the late 1950s, all products of human design communicate much more than their mere intended functions. Design holds both psychological and moral power over us, and these forces may be manipulated, however subtly, to surprising effect. In an argument that touches upon subjects as seemingly unrelated as the Japanese tea ceremony, Italian mannerist painting, and Thomas Jefferson's Monticello plantation, Grudin turns his attention to the role of design in our daily lives, focusing especially on how political and economic powers impress themselves on us through the built environment. Although architects and designers will find valuable insights here, Grudin's intended audience is not exclusively the trained expert but all those who use designs and live within them every day.

Early Human Life on the Southeastern Coastal Plain Albert C. Goodyear,Christopher R. Moore,2021-04-13 Bringing together major archaeological research projects from Virginia to Alabama, this volume explores the rich prehistory of the Southeastern Coastal Plain. Contributors consider how the region's warm weather, abundant water, and geography have long been optimal for the habitation of people beginning 50,000 years ago. They highlight demographic changes and cultural connections across this wide span of time and space.New data are provided here for many sites, including evidence for human settlement before the Clovis period at the famous Topper site in South Carolina. Contributors track the progression of sea level rise that gradually submerged shorelines and landscapes, and they discuss the possibility of a comet collision that triggered the Younger Dryas cold reversion and contributed to the extinction of Pleistocene megafauna like mastodons and mammoths. Essays also examine the various stone materials used by prehistoric foragers, the location of chert quarries, and the details stone tools reveal about social interaction and mobility.This volume synthesizes more than fifty years of research and addresses many of today's controversial questions in the archaeology of the early Southeast, such as the sudden demise of the Clovis technoculture and the recognition of the mysterious Middle Paleoindian period.Contributors: Robert J. *Twelve Years a Slave* Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for

a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
