Religions and Extraterrestrial Life David A. Weintraub, 2014-07-16 In the twenty-first century, the debate about life on other worlds is quickly changing from the realm of speculation to the domain of hard science. Within a few years, as a consequence of the rapid discovery by astronomers of planets around other stars, astronomers very likely will have discovered clear evidence of life beyond the Earth. Such a discovery of extraterrestrial life will change everything. Knowing the answer as to whether humanity has company in the universe will trigger one of the greatest intellectual revolutions in history, not the least of which will be a challenge for at least some terrestrial religions. Which religions will handle the discovery of extraterrestrial life with ease and which will struggle to assimilate this new knowledge about our place in the universe? Some religions as currently practiced appear to only be viable on Earth. Other religions could be practiced on distant worlds but nevertheless identify both Earth as a place and humankind as a species of singular spiritual religious importance, while some religions could be practiced equally well anywhere in the universe by any sentient beings. Weintraub guides readers on an invigorating tour of the world's most widely practiced religions. It reveals what, if anything, each religion has to say about the possibility that extraterrestrial life exists and how, or if, a particular religion would work on other planets in distant parts of the universe.

The Ascension Mysteries David Wilcock,2016-08-30 From the New York Times bestselling author of Awakening in the Dream comes a book that will take readers on a surprising and enthralling journey through the history of the universe, exploring the great cosmic battle surrounding our own ascension. David Wilcock's previous New York Times bestsellers, The Source Field Investigations and The Synchronicity Key, used cutting-edge alternative science to reveal oft-hidden truths about our universe. In The Ascension Mysteries, David takes us on a gripping personal journey that describes the secret cosmic battle between positive and negative happening every day, hidden in both the traumas of our own lives and the world's headlines. Through his contact with a positive higher intelligence behind the UFO phenomenon, groundbreaking scientific information, and data from high-ranking government whistle-blowers, David reveals that the earth is now on the front lines of a battle that has been raging between positive and negative extraterrestrials for hundreds of thousands of years. The Ascension Mysteries explores the towering personal obstacles David overcame to unlock the great secrets of our universe and looks ahead to what this battle means for each of us personally. By unifying ancient texts from a variety of religions with scientific data and insider testimony, David presents a stunning conclusion—that Earth is on the verge of a massive cosmic event that will transform matter, energy, consciousness, and biological life as we now know it and will utterly defeat the great villains of our time.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Original Grin Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Dreamland Bob Lazar, 2019-10-15 Bob Lazar is the reason Area 51 became infamous in the 1980s and his recent appearance on Joe Rogan's podcast with 7 million listeners is credited with inspiring the Storm Area 51 phenomenon. In his *DREAMLAND* autobiography, Lazar reveals every detail of his highly controversial story about being an insider within the world's most legendary military research base. Bob Lazar was a brilliant young physicist that found himself employed at a top secret facility in the middle of the desert outside Las Vegas. Under the watchful eye of the government elite, he is tasked with understanding an exotic propulsion system being used by an advanced aerospace vehicle he is told came from outer space. The stressful work and long, odd hours start to wear on Bob and he becomes concerned for his safety. He tells his wife and a couple close friends about what he's doing in the desert, and his employers find out and are furious. When they station goons outside his house, Bob seeks help from wealthy UFOlogist, John Lear, who encourages Bob to take his story to award-winning investigative journalist George Knapp at KLAS-TV, a CBS affiliate. To prove he's telling the truth, Bob takes a group of people out into the desert to watch a test flight of the flying saucer. On the way home, they are stopped by the police, who notify the base, and Bob loses his job. In a series of interviews with CBS TV, Bob Lazar then blows the lid off Area 51, blows the whistle on the effort to conceal this craft from the American people, and blows up his career as a top physicist. Bob Lazar's reports have been the subject of intense controversy for decades. He has been interviewed numerous times and his story has been corroborated by other individuals he worked with and who were present when these events happened. But until now, Bob Lazar has never told his own story, in every detail in his own words, about those exciting days in the desert outside of Las Vegas and how the world came

to learn about the experiments being conducted at Area 51.
