Lucinda Cole

Level Up! Scott Rogers, 2010-09-29 Design and build cutting-edge video games with help from video game expert Scott Rogers! If you want to design and build cutting-edge video games but aren't sure where to start, then this is the book for you. Written by leading video game expert Scott Rogers, who has designed the hits Pac Man World, Maxim vs. Army of Zin, and SpongeBob Squarepants, this book is full of Rogers's wit and imaginative style that demonstrates everything you need to know about designing great video games. Features an approachable writing style that considers game designers from all levels of expertise and experience Covers the entire video game creation process, including developing marketable ideas, understanding what gamers want, working with player actions, and more Offers techniques for creating non-human characters and using the camera as a character Shares helpful insight on the business of design and how to create design documents So, put your game face on and start creating memorable, creative, and unique video games with this book!

Girls with Swords Lisa Bevere, 2014-02-18 A passionate call for Christian women to effectively wield the sword of their God-given feminine strength against any evil that threatens them and those they love. What if you discovered you have been entrusted with an invisible, invincible, and incorruptible weapon? Would you use it? In a day of worldwide trafficking, gendercide, discrimination, and other hostility against women, Lisa Bevere points to a biblical foundation to present a model of feminine strength that will empower women to live confidently. Drawing on the many references to swords throughout Scripture, the author constructs a revealing and compelling female paradigm that will impact every area of a woman's self identity, spiritual awareness, relationships, and life vision and mission. Long known for her passionate and articulate expression of biblical womanhood, Bevere

presents fresh imagery--as enticing and strong as polished steel--to prepare women boldly for the challenges they face in today's world. It's not enough to just be wise and strong: Now a woman must know how to wield her sword. Creatively forging the imagery of swords, the Word of God, and the Cross, *Girls with Swords* will teach you: • How to speak the language of heaven on earth • What it means to intercede • What it means to carry your cross • What it means to be discerning • How to disarm the enemy • Why women are the enemy's target—and why God needs them to be heroes It's time to take up your sword and be a hero.

American Holocaust David E. Stannard, 1993-11-18 For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the

cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

Microbe Hunters Paul De Kruif, 1926 First published in 1927.

The Sumerians Samuel Noah Kramer, 2010-09-17 The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive

stimulation.—American Journal of Archaeology An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity.—Library Journal

The Complete Malazan Book of the Fallen Steven Erikson, 2014-01-28 All ten volumes of New York Times bestselling author Steven Erikson's epic fantasy series featuring vast legions of gods, mages, humans, and dragons battling for destiny of the Malazan Empire are collected together in one e-Book bundle. Homo Deus Yuval Noah Harari, 2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing

at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

Borderland Provinces - Swords & Wizardry Matthew J. Finch,Greg A. Vaughan,Bill Webb,2018-05
The Borderland Provinces are balanced on the knife's edge of history, as a decadent declining empire that retreats slowly, clinging to power, even as it unravels. This book contains the history of the Borderland Provinces region, descriptions of the countries, cities (some with maps), towns, important places, major geographical features, lairs, and extensive encounter tables for the ancient Hyperborean roads crisscrossing the Provinces. For those familiar with Lost Lands geography, the campaign book covers the Western part of our Sinnar Coast Region map, and area in great peril, located only a few hundred miles from Bard's Gate and directly adjacent to the Sundered Kingdoms. For Swords & Wizardry.

Ancient Mesopotamia A. Leo Oppenheim,2013-01-31 This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria.—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay

tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written.—Leonard Cottrell, *Book Week* Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research.—Samuel Noah Kramer, *Archaeology* A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the *Assyrian Dictionary* of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

The Book of Witches Oliver Madox Hueffer, 1908

Imperfect Creatures Lucinda Cole, 2016-02-26 Lucinda Cole's *Imperfect Creatures* offers the first full-length study of the shifting, unstable, but foundational status of "vermin" as creatures and category in the early modern literary, scientific, and political imagination. In the space between theology and an emergent empiricism, Cole's argument engages a wide historical swath of canonical early modern literary texts—William Shakespeare's *Macbeth*, Christopher Marlowe's *The Jew of Malta*, Abraham Cowley's *The Plagues of Egypt*, Thomas Shadwell's *The Virtuoso*, the Earl of Rochester's "A Ramble in St. James's Park," and Daniel Defoe's *Robinson Crusoe* and *Journal of the Plague Year*—alongside other nonliterary primary sources and under-examined archival materials from the period, including treatises on animal trials, grain shortages, rabies, and comparative neuroanatomy.

As Cole illustrates, human health and demographic problems—notably those of feeding populations periodically stricken by hunger, disease, and famine—were tied to larger questions about food supplies, property laws, national identity, and the theological imperatives that underwrote humankind’s claim to dominion over the animal kingdom. In this context, Cole’s study indicates, so-called “vermin” occupied liminal spaces between subject and object, nature and animal, animal and the devil, the devil and disease—even reason and madness. This verminous discourse formed a foundational category used to carve out humankind’s relationship to an unpredictable, irrational natural world, but it evolved into a form for thinking about not merely animals but anything that threatened the health of the body politic—humans, animals, and even thoughts.

The Red Pyramid Rick Riordan, 2010-05-04 Since their mother's death, Carter and Sadie have become near strangers. While Sadie has lived with her grandparents in London, her brother has traveled the world with their father, the brilliant Egyptologist, Dr. Julius Kane. One night, Dr. Kane brings the siblings together for a research experiment at the British Museum, where he hopes to set things right for his family. Instead, he unleashes the Egyptian god Set, who banishes him to oblivion and forces the children to flee for their lives. From the creator of the hit Percy Jackson series.

The Ill-Made Mute Cecilia Dart-Thornton, 2015-08-25 In a dark and perilous realm, a nameless outcast seeks a voice, a past, and a future: “A dazzling debut” (Jennifer Roberson). In all of Erith, there is perhaps no one as wretched as the nameless mute foundling confined to the lowest depths of Isse Tower. Abused by many and despised by all, the pathetic creature lives without memories in the shadows. The amnesiac longs to escape—to roam the wild landscape in search of a past, a name, a destiny—but dangers surround the tower. Only flying ships and majestic winged horses carrying important visitors can reach the castle safely, landing high above the ground on its battlements. The

local servants whisper about malevolent creatures that roam the forests and bear no love for humankind. Escape seems impossible in this treacherous world of wights and monsters. Praised as Australia's J. R. R. Tolkien, Cecilia Dart-Thornton has set a towering new standard for fantasy fiction, earning the respect and acclaim of readers, reviewers, and some of the world's most renowned fantasists. With roots firmly embedded in the ancient folklore of the British Isles, *The Ill-Made Mute*—the opening volume of Dart-Thornton's magnificent *Bitterbynde Trilogy*—introduces fantasy lovers to an unforgettable character whose remarkable adventures rival the epic trials of the Bagginses and the tales of *The Silmarillion*.

Goldfrank's Toxicologic Emergencies, Tenth Edition (ebook) Robert Hoffman, Mary Ann Howland, Neal Lewin, Lewis Nelson, Lewis Goldfrank, 2014-09-22 The standard-setting reference in medical toxicology—trusted as the leading evidencebased resource for poison emergencies A Doody's Core Title for 2017! For decades, one name has been synonymous with the most respected, rigorous perspectives on medical toxicology and the treatment of poisoned and overdosed patients: Goldfrank's Toxicologic Emergencies. Presented in full color, Goldfrank's delivers essential, patientcentered coverage of every aspect of poison management. The editors and authors are recognized as preeminent scholars in their specialties and provide unmatched coverage of all aspects of toxicologic emergencies, from pharmacology and clinical presentation to cutting-edge treatment strategies. Goldfrank's Toxicologic Emergencies, Tenth Edition begins with an examination of medical toxicology principles and techniques. It then reviews the biochemical, molecular, and pathophysiologic basis of toxicology, followed by an intense focus on toxicologic principles related to special patient populations. Features Case studies enhance your understanding of the clinical application of the text material Practical focus on the pathophysiologic basis of medical toxicology

The Antidotes in Depth sections delivers the expertise of toxicologists across the world as they present treatments for critically ill poisoned and overdosed patients and allow you to easily identify key issues relating to the use of complex and often unfamiliar therapies The principles of risk management, medicolegal decision making, patient safety, post mortem toxicology and the assessment of ethanol induced impairment described in chapters and Special Considerations emphasize the interface between medical toxicology, the law, and quality care

Life and Times of Frederick Douglass Frederick Douglass,1882 Frederick Douglass recounts early years of abuse, his dramatic escape to the North and eventual freedom, abolitionist campaigns, and his crusade for full civil rights for former slaves. It is also the only of Douglass's autobiographies to discuss his life during and after the Civil War, including his encounters with American presidents such as Lincoln, Grant, and Garfield.

The Alchemyst Michael Scott,2007-05-22 Nicholas Flamel appeared in J.K. Rowling's Harry Potter—but did you know he really lived? And his secrets aren't safe! Discover the truth in book one of the New York Times bestselling series the Secrets of the Immortal Nicholas Flamel. The truth: Nicholas Flamel's tomb is empty. The legend: Nicholas Flamel lives. Nicholas Flamel is the greatest Alchemyst to ever live. The records show that he died in 1418, but what if he's actually been making the elixir of life for centuries? The secrets to eternal life are hidden within the book he protects—the Book of Abraham the Mage. It's the most powerful book that has ever existed, and in the wrong hands, it will destroy the world. And that's exactly what Dr. John Dee plans to do when he steals it. There is one hope. If the prophecy is true, Sophie and Josh Newman have the power to save everyone. Now they just have to learn to use it. “The Secrets of the Immortal Nicholas Flamel has everything you loved about Harry Potter, including magic, mystery, and a constant battle of good versus evil.”—Bustle

Metamagical Themas Douglas R. Hofstadter, 2008-08-04 Hofstadter's collection of quirky essays is unified by its primary concern: to examine the way people perceive and think.

The Book of King Solomon , 2005-08-01 The story of King Solomon, as told by his court historian.

Wolves of Croton: The Untold Story of Milo John Abdo, 2020-10-12 An epic tale of the “Father of Progressive Resistance Training”, told by Olympian and fitness Hall-of-Famer John Abdo. A USA TODAY bestseller! Thousands of years after his death, Milo of Croton is still undisputedly revered to be the strongest man who ever lived. This dominant Olympian wrestler routinely entered packed stadiums carrying a full-grown bull across his back. As he paced the track, Milo welcomed his cheering fans to slap the loins and tug the tail of his colossal bovine pet. Esteemed for his unfathomable prowess, through progressive adaptations adhering to unorthodox conditioning methodologies, Milo of Croton — whose name remains prominent in sports today — is regarded by us moderns as the ‘Father of Progressive Resistance Training.’ Within the pages of this book, based on historical accounts, readers learn how Milo accomplished his monumental wrestling achievements — a career that amazingly endured an unparalleled three decades. An epic odyssey of inspirational and motivational magnitude, ‘Wolves of Croton - The Untold Story of Milo’ details Milo’s genetic and epigenetic influencers. Attend Milo’s strength conditioning sessions and wrestling practices, learn the origins of modern-day strength training and the achievement of peak performance, then step into the arena and watch Milo mangle his opponents inside the pit. Travel with Milo from his enigmatic beginnings to his epic athletic events, then onto the battlefield where Milo commands an army comprised of

Crotonian athlete-soldiers against a formidable foe of superior numerical advantage. A tale of athleticism and leadership, this meticulously-research and fact-based story will be sure to both motivate and entertain.

The Current State of Things Amy Oliver, 2021-10 A photography book of still life images taken in the artist's home. In these objects, she finds quiet beauty in the chaos of raising a small child.
