

Motion Forms Paper Art By Richard Sweeney

Paul Jackson

Paper Sculpture Richard Sweeney, 2021-11-28 Paper is readily available and inexpensive in comparison to other sculptural media, and can be manipulated with a set of simple tools. It is a tactile medium, which can be formed into three-dimensional shapes quickly and immediately through folding and cutting. This hands-on element is something I feel is important -- it allows the artist to engage immediately with the material, resulting in something physical and tangible. It is, perhaps, these factors that make it so appealing, not only as a tool to apply in different fields, such as model making for architecture, but as an activity for its own sake. A section of this book is dedicated to a selection of the techniques I use in the creation of my work, and which I demonstrate in my workshops. My aim is to show the basic principles of form-making in paper, which can then be expanded on and explored as the reader wishes. Also included are my sources of inspiration and details of my working practice, which shows the evolution of an initial idea into a final artwork. I hope this book offers an insight into my work, while offering inspiration to those who wish to explore the creative potential of paper.

New Expressions in Origami Art Meher McArthur, 2017-03-07 This origami art book features the work of 25 contemporary master folders who are among the most innovative origami artists working today. They are pushing the boundaries of origami vigorously in new directions in terms of style, scale, materials, subject and scope. This elite group includes: Joel Cooper Erik Demaine and Martin Demaine Paul Jackson Beth Johnson Michael G. LaFosse and Richard L. Alexander Robert J. Lang Linda Mihara Bernie Peyton Richard Sweeney And many more... The stunning photos and brilliant essays in this book demonstrate why origami is now an international art movement—largely through the efforts and artistic genius of a few contemporary masters. The trailblazing efforts of Japanese artist Akira Yoshizawa elevated the paper folding to an art form by showing how subtle shapes and figures could be created from a single sheet of paper through a variety of non-traditional folding techniques. Artists in other parts of the world—including the United States, France, England, China and Scandinavia—took Yoshizawa's cue and pushed these techniques further and further. The result has been the emergence of many new and surprising sculptural forms created through techniques such as wet folding, curved creasing, tessellating and the application of alternative materials besides paper.

Folding Techniques for Designers Paul Jackson, 2011-05-02 Many designers use folding techniques in their work to make three-dimensional forms from two-dimensional sheets of fabric, cardboard, plastic, metal, and many other materials. This unique book explains the key techniques of folding, such as pleated surfaces, curved folding, and crumpling. It has applications for architects, product designers, and jewelry and fashion designers An elegant, practical handbook, *Folding for Designers* explains over 70 techniques explained with clear step-by-step drawings, crease pattern drawings, and specially commissioned photography. All crease pattern drawings are available to view and download from the Laurence King website.

Cut and Fold Techniques for Pop-Up Designs Paul Jackson, 2014-02-17 Introducing techniques for making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the

third dimension. Each chapter introduces a new technical idea and shows how that technique can be adapted in many different ways, or combined with techniques from earlier chapters. These 3-D techniques can be incorporated into any design where typography and/or illustration are used, including mail-shots, personal publicity, invitations, business cards and greetings cards. With their emphasis on surface design over complex cutting, the pop-ups have an instant appeal for designers. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, *Cut and Fold Techniques for Pop-Up Designs* is an essential resource for marketing professionals and design students.

Spencer Sweeney Priya Bhatnagar, 2015 Painter, DJ and nightlife promoter Spencer Sweeney (born 1973) has been an indelible and essential part of New York City's cultural landscape for almost two decades, connecting to longstanding roots in the city's music, art and life after dark. While many mourn the loss of the NYC they love, Sweeney has never fallen out of love with his city. This huge but affordable volume is filled with the evidence: pages of fascinating interviews with fellow faithfuls such as Alex Bag, Larry Clark, Abel Ferrara, John Giorno, Mary Heilmann, Harmony Korine, Johan Kugelberg, Jim Lambie, Glenn O'Brien, Will Oldham, Elizabeth Peyton, Rob Pruitt and Tony Shafrazi; archival photos documenting the countless moments, both legendary and obscure; and of course, hundreds of Sweeney's colorful paintings that synthesize life in New York in the second decade of the new century.

Passages in Modern Sculpture Rosalind E. Krauss, 1981-02-26 Studies major works by important sculptors since Rodin in the light of different approaches to general sculptural issues to reveal the logical progressions from nineteenth-century figurative works to the conceptual work of the present.

And Our Faces, My Heart, Brief as Photos John Berger, 2011-07-13 Berger reveals the ties between love and absence, the ways poetry endows language with the assurance of prayer, and the tensions between the forward movement of sexuality and the steady backward tug of time. He recreates the mysterious forces at work in a Rembrandt painting, transcribes the sensorial experience of viewing lilacs at dusk, and explores the meaning of home to early man and to the hundreds of thousands of displaced people in our cities today. *And Our Faces, My Heart, Brief as Photos* is a seamless fusion of the political and personal.

Complete Pleats Paul Jackson, 2015-09-14 Paul Jackson's major new title *Complete Pleats* is the most comprehensive book about pleating on the market. It explains how pleating systems can be stretched, compressed, flared, skewed, multiplied, and mirrored, showing how from simple ideas, a huge number of original pleat forms can be created. Each technique is explained with a series of step-by-step photographs and line illustrations, enabling the designer to work through the basic principles of pleating and then adapt them to their specific needs. *Complete Pleats* also features more than 60 examples of pleats from the worlds of architecture, fashion, and product design. Paul Jackson has taught pleating techniques to students of Fashion Design for 30 years, in both paper and fabric. *Complete Pleats* is the definitive practical guide for anyone wishing to create and make pleats. The book includes a DVD featuring 23 videos of pleating techniques.

Finishing the Hat Stephen Sondheim, 2010-10-26 ONE OF THE NEW YORK TIMES 10 BEST BOOKS OF THE YEAR • Titled after perhaps Stephen Sondheim's most autobiographical song, from Sunday in the Park with George—Finishing the Hat not only collects his lyrics for the first time, it offers readers a rare personal look into his life as well as his remarkable productions. Stephen Sondheim's career spanned more than half a century; his lyrics are synonymous with musical theater and popular culture. Sondheim—the winner of seven Tonys, an Academy Award, seven Grammys, a Pulitzer Prize and more—treats us to never-before-published songs from each show, songs that were cut or discarded before seeing the light of day, along with the lyrics for all of his musicals from 1954 to 1981, including West Side Story, Company, Follies, A Little Night Music and Sweeney Todd. He discusses his relationship with his mentor, Oscar Hammerstein II, and his collaborations with extraordinary talents such as Leonard Bernstein, Arthur Laurents, Ethel Merman, Richard Rodgers, Angela Lansbury, Harold Prince and a panoply of others. The anecdotes—filled with history, pointed observations and intimate details—transport us back to a time when theater was a major pillar of American culture. Best of all, Sondheim appraises his work and dissects his lyrics, as well as those of others, offering unparalleled insights into songwriting that will be studied by fans and aspiring songwriters for years to come. Accompanying Sondheim's sparkling writing are behind-the-scenes photographs from each production, along with handwritten music and lyrics from the songwriter's personal collection. Penetrating and surprising, poignant, funny and sometimes provocative, Finishing the Hat is not only an informative look at the art and craft of lyric writing, it is a history of the theater that belongs on the same literary shelf as Moss Hart's Act One and Arthur Miller's Timebends. It is also a book that will leave you humming the final bars of Merrily We Roll Along, while eagerly anticipating the next volume.

Art and Faith Makoto Fujimura, 2021-01-05 From a world-renowned painter, an exploration of creativity's quintessential—and often overlooked—role in the spiritual life “Makoto Fujimura's art and writings have been a true inspiration to me. In this luminous book, he addresses the question of art and faith and their reconciliation with a quiet and moving eloquence.”—Martin Scorsese “[An] elegant treatise . . . Fujimura's sensitive, evocative theology will appeal to believers interested in the role religion can play in the creation of art.”—Publishers Weekly Conceived over thirty years of painting and creating in his studio, this book is Makoto Fujimura's broad and deep exploration of creativity and the spiritual aspects of “making.” What he does in the studio is theological work as much as it is aesthetic work. In

between pouring precious, pulverized minerals onto handmade paper to create the prismatic, refractive surfaces of his art, he comes into the quiet space in the studio, in a discipline of awareness, waiting, prayer, and praise. Ranging from the Bible to T. S. Eliot, and from Mark Rothko to Japanese Kintsugi technique, he shows how unless we are making something, we cannot know the depth of God's being and God's grace permeating our lives. This poignant and beautiful book offers the perspective of, in Christian Wiman's words, "an accidental theologian," one who comes to spiritual questions always through the prism of art.

Irving Harper Michael Maharam, 2013-02-12 An intimate monograph of the professional and personal creations of a midcentury design legend. Irving Harper is the most famous designer you have never heard of. Working as an associate at the office of George Nelson in the 1950s and '60s, Harper was responsible for such icons of midcentury design as the Marshmallow sofa, the Ball clock, and numerous Herman Miller textile designs. Harper's unrecognized contribution to this seminal era of design, and his incredible paper sculptures (made in his spare time to relieve stress), are presented for the first time in this book. An essay by design critic Julie Lasky introduces Harper's commercial design work, recognizable designs from graphics to domestic goods to furniture that are still coveted and appreciated today, designed for the offices of Raymond Loewy, George Nelson, and then his own studio Harper + George. The second part of the book documents Harper's extensive paper sculptures, which have never been exhibited. More than three hundred works fill Harper's house and barn in Rye, New York, where this array of fantastical people and animal sculptures was created from modest and inexpensive materials as diverse as spaghetti and toothpicks in addition to paper. Images of Harper's home, filled with furniture and objects of his own design as well as his paper sculptures, offer a rare glimpse into a Modern design enthusiast's paradise. Offering insight into an important era of American design as well as the prolific output of a creative mind, this book promises to be the first to recognize Irving Harper's contribution to the field and will appeal to fans of Modern design.
