Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Racing Camaros Steve Holmes, 2021-03-12 Chevrolet created the Camaro in response to the runaway sales success of the Ford Mustang, the first pony car. The Mustang went on sale in April 1964, and by August that same year, General Motors launched an intensive program to bring its own pony car to market. In September 1966, the Camaro went on sale. Chevrolet wanted the Camaro to be better than the Mustang in every area, including style, ride-quality, and performance. To that end, with the Mustang having already achieved so much racing success, Chevrolet wanted to beat it on the track also. Racing Camaros: An International Photographic History 1966 - 1984 is a photographic celebration of road racing Camaros throughout the world. It focuses on production-based cars, rather than the heavily modified tube-frame silhouette machines that began appearing in the late 1970s. Included are images of big-budget factory-supported cars competing in the Trans-Am series, right through to low-buck independents, and cars competing throughout the world. For the first time, the

international road racing representation of the Camaro is featured in a book, which includes countless photos that have never been published. Technical detail is provided throughout, from concept and design, right through its racing career, and the challenges and developments that took place to make it a winner. Only period images have been used. This is a true photographic history depicting the global popularity of the Chevrolet Camaro as a road racing car.

365 Sports Cars You Must Drive John Lamm,Steve Sutcliffe,Larry Edsall,James Mann,Kris Palmer,2020-10-27 365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase getting there is half the fun must have owned a sports car. And the wag who suggested that it's the journey not the destination? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

Blood and Smoke Charles Leerhsen,2012-05-22 One hundred years ago, 40 cars lined up for the first Indianapolis 500. We are still waiting to find out who won. The Indy 500 was created to showcase the controversial new sport of automobile racing, which was sweeping the country. Daring young men

were driving automobiles at the astonishing speed of 75 miles per hour, testing themselves and their vehicles. With no seat belts, hard helmets or roll bars, the dangers were enormous. When the Indianapolis Motor Speedway opened in 1909, seven people were killed, some of them spectators. Oil-slicked surfaces, clouds of smoke, exploding tires, and flying grit all made driving extremely hazardous, especially with the open-cockpit, windshield-less vehicles. Bookmakers offered bets not only on who might win but who might survive. But this book is about more than a race--it is the story of America at the dawn of the automobile age, a country in love with speed, danger, and spectacle.-- From publisher description.

Danica: Crossing the Line Danica Patrick, 2013-02-22 Sharing secrets and stories, tales from the track, and insights into her personal life, Danica reflects on her extraordinary rise from a ten-year-old go-kart champion to the most successful woman in the history of American racing. Danica Patrick's life moves at 220 mph. She drives every race and lives every day like she has something to prove—and she does. As a 5-foot 2-inch, 100-pound woman, she had to qualify a little quicker and race a little faster than the boys—just to earn the respect she would otherwise be given if she weren't the girl on the track, driving the princess mobile. But you don't get to be an IndyCar driver without talent and determination. Danica is living proof that if you work hard and aim high, you can do whatever you set your mind to, that you can rise to any challenge, and that what makes you different is what makes you great. An inspiration to all, *Crossing the Line* offers Danica's unique perspective on how to compete in life, how to stand out, and how to get the respect and attention you deserve.

Darkspell Katharine Kerr, 2010-06-02 On the long roads of Deverry ride two mercenaries whose fates lie hidden deep in that of their own land. But Lord Rhodry, exiled from the dragon court of Aberwyn, has yet to discover his true parentage, and his swordmaster-lover, Jill, has barely glimpsed

her awesome powers. Meanwhile, the ancient sorcerer Nevyn, held back by his vows from boldly intervening in their lives, can only watch and wait as Rhodry and Jill move ever closer to danger. For as the two struggle to recover the Great Stone, the mystic jewel that guides the conscience of the kingship of Deverry, malevolent dark masters are weaving terrifying spells against them--and displacing messengers of death. Katharine Kerr has extensively rewritten Darkspell, incorporating major changes in the text, making this her definitive edition. Here the epic saga that began with the Daggerspell continues--a tale of might and magic, lust and glory, dark danger and poignant desires that echo from Deverry's sapphire waters to its secret mountain caverns. It's a spellbinding story destined to please fantasy lovers everywhere.

The Winning Cars of the Indianapolis 500 James Craig Reinhardt, 2019-04-01 At speeds of over 230 miles per hour, the Indy open-wheel race cars set the bar for American Championship car racing. For over 100 years, the Indy cars and their drivers have drawn hundreds of thousands of spectators to Speedway, Indiana, with another 6 million people watching the race on television or by live stream. In *The Winning Cars of the Indianapolis 500*, James Craig Reinhardt, author and official tour guide for the Indianapolis Motor Speedway, details the history of the famous race and how the open-wheel race cars have evolved over the last century. Starting in 1911 with the first running of the Indy 500, Reinhardt profiles each race and car, including the starting position, engine, tires, race speed, margin of victory, and much more. Featuring nearly 200 images of the automobiles and individuals who make the race renowned, this book showcases the top drivers and how racing has changed through two world wars, the Great Depression, and unforgettable accidents. This beautifully illustrated book is a must-have for veteran and rookie race fans alike.

The Rain Drop and Other Shades of Prosetry Patrick Mandidi, 2010-03 The word prosetry does not

exist. But the author of this book of prose uses it to describe the presentation of prose in a manner that attempts to depict the aims and objectives of poetry. The Rain Drop and Other Shades of Prose is written in five sections. The first is The Rain Drop and tells of an author who has just achieved great success. He reflects back on an embarrassing incident that happened when he was six, and which comes to mind whenever it rains. The second story, The Priest, is about a man who became a priest by accident, but grows to love his chosen profession. Then he is presented a great temptation when he meets a woman who resembles a girl he loved as a teenager. The Cricketer shows the game through the eyes of an experienced player, one about to go through a very unusual experience during a cricket match. In The Driver, the anxieties of an aging Formula One racecar driver show what happens during what could be the last year of his racing career. In the fifth and final story, The Admirer, the anguish of a young man who has fallen madly in love with a girl he has never spoken with is told in prose.

Driven by Desire Alan Wilson, 2011-10-15 From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desire

Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desire's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desire became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series - the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

The Brown Bullet Bill Poehler, 2020 The powers-that-be in auto racing in the 1920s, namely the American Automobile Association's Contest Board, barred everyone who wasn't a white male from the sport. Dewey Gatson, a black man who went by the name Rajo Jack, broke into the epicenter of racing in California, refusing to let the pervasive racism of his day stop him from competing against entire fields of white drivers. Though Rajo Jack spent his whole life striving to reach the pinnacle of the sport, the Indianapolis 500, the greatest race in the world wouldn't have him. In *The Brown Bullet*, Bill Poehler uncovers the life of a long-forgotten trailblazer and the great lengths he took to even get on the track, and, in the end, tells how Rajo Jack proved to a generation that a black man could compete with some of the greatest white drivers of his era, winning some of the biggest races of the day--

Lotus 72 Pete Lyons, 2019-03-26 This book, the first in Evro's new Formula 1 Greats series, covers one of the most revered Formula 1 cars ever made. Introduced in 1970, the wedge-shaped Lotus 72 competed for six seasons, winning 20 World Championship Grands Prix, two Drivers' titles (for Jochen Rindt in 1970 and Emerson Fittipaldi in 1972) and three Constructors' titles (in 1970, 1972 and 1973), racing first in Lotus's evocative red, white and gold livery, then the equally eye-catching black and gold of the John Player Special period. Pete Lyons, Autosport's renowned Formula 1 reporter for part of the Lotus 72 era, explores the car's entire race-by-race career in his insightful commentary accompanying a magnificent array of more than 300 photos. The 1970 season: after troubled early development, the 72 finally took over from the long-serving 49, its four consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to

team leader after Rindt's death, great things were expected of the 72's second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi's four Grand Prix victories made him World Champion. The 1973 season: Ronnie 'SuperSwede' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus's spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season: well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx's second place in the tragic Spanish Grand Prix its best result.

A Locker Room of Her Own David C. Ogden, Joel Nathan Rosen, 2013-05-14 Female athletes are too often perceived as interlopers in the historically male-dominated world of sports. Obstacles specific to women are of particular focus in *A Locker Room of Her Own*. Race, sexual orientation, and the similar qualities ancillary to gender bear special exploration in how they impact an athlete's story. Central to this volume is the contention that women in their role as inherent outsiders are placed in a unique position even more complicated than the usual experiences of inequality and discord associated with race and sports. The contributors explore and critique the notion that in order to be considered among the pantheon of athletic heroes one cannot deviate from the traditional demographic profile, that of the white male. These essays look specifically and critically at the nature of gender and sexuality within the contested nexus of race, reputation, and sport. The collection explores the reputations of iconic and pioneering sports figures and the cultural and social forces that helped to forge their unique and often problematic legacies. Women athletes discussed in this volume include Babe Didrikson Zaharias, the women of the AAGPBL, Billie Jean King, Venus and Serena

Williams, Marion Jones, Chris Evert and Martina Navratilova, Sheryl Swoopes, Florence Griffith Joyner, Roberta Gibb and Kathrine Switzer, and Danica Patrick.

Nissan - The GTP & Group C Racecars 1984-1993 John Starkey, 2019-06-25 When Don Devendorf and John Knepp got together to form Electramotive Engineering of El Segundo, California, little did they realise that they were setting in motion a train of events which would sooner, rather than later,

bring to them and the mighty Nissan GTP cars that they promoted, developed and raced, no less than four IMSA Camel GT Championships. Here, for the first time, is the story of Nissan in racing from 1984 to 1993, the GTP era. The full story of Electramotive and NPTI is told, with interviews with Don Devendorf, John Knepp, Geoff Brabham, Trevor Harris, Kas Kastner, Ashley Page, and many other members of the crew that won the IMSA Camel GT Championship from 1988 to 1991. The story of the European Group C Nissans, using chassis from March and Lola, from 1985 to 1992 is also told, along with interviews from many of the drivers and technicians involved, such as Mark Blundell, Julian Bailey, Dave Price and Bob Bell.
