A Shrine to Moses Davide Bianchi,2021-04-27 This book offers new insights into the Memorial of Moses on Mount Nebo, one of the most renowned coenobitic monasteries in the Byzantine period in Arabia. Between 2012 and 2014, the Studium Biblicum Franciscanum carried out new archaeological investigations in the southern wing of the monastery and in the church. The excavation in the central nave unearthed an empty tomb adorned with alabaster marble, placed on the highest point of the mountain. Starting from the archaeological data, the author critically reflects on the architectural phases of the basilica, how the monastery was run and its daily life. Special attention is also given to pilgrimages to the monastic shrines beyond the River Jordan and their progressive abandonment.

Like Angels on Jacob's Ladder Harvey J. Hames,2012-02-01 Explores the career of Abraham Abulafia, thirteenth-century founder of the school of ecstatic Kabbalah.

Sacred Power, Sacred Space Jeanne Halgren Kilde,2008-07-21 Jeanne Halgren Kilde's survey of church architecture is unlike any other. Her main concern is not the buildings themselves, but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power, or ideas about God; personal empowerment as manifested in the individual's perceived relationship to the divine; and social power, meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code, and is represented spatially and materially in church buildings. Kilde explores these categories chronologically, from the early church to the twentieth century. She considers the form, organization, and use of worship rooms; the location of churches; and the interaction between churches and the wider culture. Church buildings have been integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are, in Kilde's view, dynamic participants in religious change and goldmines of information on Christianity itself.

Life of St. Francis of Assisi Paul Sabatier,1894

Liturgy and Devotion in the Crusader States Iris Shagrir,Cecilia Gaposchkin,2020-05-21 Examining liturgy as historical evidence has, in recent years, developed into a flourishing field of research. The chapters in this volume offer innovative discussion of the Latin Kingdom of Jerusalem from the perspective of 'liturgy in history'. They demonstrate how the total liturgical experience, which was visual, emotional, motile, olfactory, and aural, can be analysed to understand the messages that liturgy was intended to convey. The chapters reveal how combining narrative sources with liturgical documents can help decode political circumstances and inter-group relations and decipher the core ideals of the community of Outremer. Moreover, understanding the Latins' liturgical activities in the Holy Land has much to contribute to our understanding of the crusade as an institution, how crusade spirituality was practised on the ground in the Latin East, and how people engaged with the crusading movement. This volume brings together eight original studies, forwarded by the editors' introduction, on the liturgy of Jerusalem, spanning the immediate pre-Crusade and Crusade period (11th-13th centuries). It demonstrates the richness of a focus on the liturgy in illuminating the social, religious, and intellectual history of this critical period of ecclesiastical self-assertion, as well as conceptions of the sacred in this time and place. This book was originally published as a special issue of the Journal of Medieval History.

The Encounter of Eastern Christianity with Early Islam David Thomas,2006-05-01 The contributions in this volume deal with crucial subjects of political and theological dialogue and controversy that characterized the varying responses of the Christian communities in the Byzantine Eastern provinces to the Islamic conquest and its subsequent impact on Byzantine society and history.

Staging Holiness: The Case of Hospitaller Rhodes (ca. 1309-1522) Sofia Zoitou,2020-12-15 The open access publication of this book has been published with the support of the Swiss National Science Foundation. In Staging Holiness: The Case of Hospitaller Rhodes (ca. 1309-1522) Sofia Zoitou offers a study of the history of relic collections, devotional rituals, and sites invested with special meaning on Rhodes, during a time when the island became one of the most frequented ports of call for ships carrying pilgrims from Venice to the Holy Land. Scrutinizing late medieval travel reports by pilgrims from all over Europe along with extant historical, archaeological, visual, and material evidence, Sofia Zoitou traces the various forms of the Rhodian cultic sites' evolution and perception, ultimately considered as an overall artistic strategy for the staging of the sacred.

Armenia Helen C. Evans,Constance Alchermes,Ina Baghdiantz McCabe,Anna Ballian,Sheila R. Canby,Kathrin Colburn,Yolande Crowe,Michael Daniel Findikyan,Rachel Goshgarian,Grigor Grigoryan,Zsuzsanna Gulácsi,Asoghik Karapetian,Anna Leyloyan-Yekmalyan,Christina Maranci,Sylvie L. Merian,Erin Piñon,Earnestine M. Qiu,Ioanna Rapti,Joanna Rydzkowska-Kozak,Suzan Yalman,2018-09-22 At the foot of Mount Ararat on the crossroads of the eastern and western worlds, medieval Armenians dominated international trading routes that reached from Europe to China and India to Russia. As the first people to convert officially to Christianity, they commissioned and produced some of the most extraordinary religious objects of the Middle Ages. These objects—from sumptuous illuminated manuscripts to handsome carvings, liturgical furnishings, gilded reliquaries, exquisite textiles, and printed books—show the strong persistence of their own cultural identity, as well as the multicultural influences of Armenia's interactions with Romans, Byzantines, Persians, Muslims, Mongols, Ottomans, and Europeans. This unprecedented volume, written by a team of international scholars and members of the Armenian religious community, contextualizes and celebrates the compelling works of art that define Armenian medieval culture. It features breathtaking photographs of archaeological sites and stunning churches and monasteries that help fill out this unique history. With groundbreaking essays and exquisite illustrations, Armenia illuminates the singular achievements of a great medieval civilization. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Image, Knife, and Gluepot: Early Assemblage in Manuscript and Print Kathryn M. Rudy,2019-07-14 In this ingenious study, Kathryn Rudy takes the reader on a journey to trace the birth, life and afterlife of a Netherlandish book of hours made in 1500. Image, Knife, and Gluepot painstakingly reconstructs the process by which this manuscript was created and discusses its significance as a text at the forefront of fifteenth-century book production, when the invention of mechanically-produced images led to the creation of new multimedia objects. Rudy then travels to the nineteenth century to examine the phenomenon of manuscript books being pillaged for their prints and drawings: she has diligently tracked down the dismembered parts of this book of hours for the first time. Image, Knife, and Gluepot also documents Rudy's twenty-first-century research process, as she hunts through archives while grappling with the logistics and occasionally the limits of academic research. This is a timely volume, focusing on questions of materiality at the forefront of medieval and literary studies. Beautifully illustrated throughout, its use of original material and its striking interdisciplinary approach, combining book and art history, make it a significant academic achievement. Image, Knife, and Gluepot is a valuable text for any scholar in the fields of medieval studies, the history of early books and publishing, cultural history or material culture. Written in Rudy's inimitable style, it will also be rewarding for any student enrolled in a course on manuscript production, as well as non-specialists interested in the afterlives of manuscripts and prints. The Royal Society of Edinburgh has generously contributed to this Open Access publication. Due to the number and quality of the images in this book, we have provided the option of a more expensive hardback edition, printed on the best quality paper available, in order to present the images as clearly and beautifully as possible. We hope this range of options — the freely available PDF, HTML and XML editions; the economically priced EPUB, MOBI and paperback editions; and the more expensively printed hardback — will satisfy everyone. Furthermore the HTML edition allows readers to magnify the images of the manuscripts displayed in the book.

Contesting the Sacred John Eade,Michael J. Sallnow,2013-05-10 Whether a pilgrimage centers around a place, a visionary individual, or a text, it brings widely diverse individuals and their beliefs, doctrines, and expectations into contact with each other. This important collection assesses the

qualities and power of pilgrimage shrines as sites for accommodating various, often competing, meanings and practices, both among pilgrims and between shrine custodians and devotees. Contributors discuss the highly organized shrine at Lourdes and also the shrine at San Giovanni Rotondo in Sangiovannesi, Italy, where conflicting interests among townspeople and pilgrims have crystallized around the life and the remains, respectively, of a holy man. Other contributors consider the competing images of Jerusalem among pilgrims of various Christian faiths-Greek Orthodox, Roman Catholic, and Christian Zionist-and explore the unique attributes of shrines in Sri Lanka and Peru. A major advance in understanding the complexity of pilgrimage, Contesting the Sacred provides valuable insight into the process of exchange between human beings and the divine that gives pilgrimage its central rationale. John Eade's new introduction places the book's theoretical frame in the context of recent thinking and writing on pilgrimage and considers the impact of globalization and tourism on pilgrimage cults and sites.

CHRONICLE OF THE TWENTY-FOUR GENERALS OF THE ORDER OF FRIARS MINOR ARNALD OF SARRANT,2013-09-26 The history of the Order of Friars Minor during the first one and a half centuries of its existence is maybe the most studied period of the 800 years of Franciscan presence in the Church. The publication of the Sources for the lives of Saint Francis and Saint Clare of Assisi in all the main European languages has been of considerable help to spread the historical knowledge regarding Francis of Assisi and his movement and make it available to the average reader. Among these Sources, the Chronica XXIV Ministrorum Generalium Ordinis fratrum Minorum by Arnald of Sarrant merits particular attention. It tells the story of the Franciscan Order from the time of Saint Francis till the beginning of the Western Schism in 1378, and therefore contains valuable information regarding the initial period of Franciscan history. Unfortunately it is not easily available in translation because of its voluminous nature. In fact, it covers a total of 712 pages of the third volume of Analecta Franciscana, published by the Franciscan editors of Quaracchi in 1897. Our aim has been that of embarking on the arduous task of translating this voluminous work of history into English from the original Latin. This translation is the fruit of three years of work, and we are now happy to present it to the general public. Because of its voluminous nature we intend to divide it into 5 sections, four of which cover the 575 pages of text and one the appendixes. The whole 575 page Chronicle is here available in 4 sections covering respectively the following historical periods: (1) Saint Francis and the early Franciscan fraternity; (2) The Generals from brother Elias as vicar (1227) to Saint Bonaventure (1274); (3) The Generals from Jerome of Ascoli (1274) to Michael of Cesena (1328); (4) The Generals from Gerard Eudes (1329) to Leonard of Giffoni (1378). A last section will be the translation of the appendixes. The translation is enriched by footnotes and explanations on the various historical events narrated and on the personages of the Chronicle. Our aim has been simply that of providing a readable translation, without pretending to be scholars of mediaeval Latin. We hope that the service we are offering at such an enormous cost of time and personal effort will be of benefit both to students of Franciscan history as well as to those who are qualified to correct its inaccuracies, and who we gratefully thank for their eventual advice and corrections

The Ten Greatest Revivals Ever Elmer L. Towns,Douglas Porter,2004-01-31 Over the centuries God has touched the earth with revival, lifting men and women into his presence in extraordinary ways. And in some epochs the divine hand seems to have rested on us longer and to have caused more profound changes in the church and the culture. Authors Towns and Porter have studied revival eras throughout history in order to identify the ten which seem to have been the greatest of all time. If you want to understand revival and if you long to see revival in our day, this book will speak to both your mind and your heart.

Communities of Saint Martin Sharon Farmer,2019-03-15 Sharon Farmer here investigates the ways in which three medieval communities—the town of Tours, the basilica of Saint-Martin there, and the abbey of Marmoutier nearby—all defined themselves through the cult of Saint Martin. She demonstrates how in the early Middle Ages the bishops of Tours used the cult of Martin, their fourthcentury predecessor, to shape an idealized image of Tours as Martin's town. As the heirs to Martin's see, the bishops projected themselves as the rightful leaders of the community. However, in the late eleventh century, she shows, the canons of Saint-Martin (where the saint's relics resided) and the monks of Marmoutier (which Martin had founded) took control of the cult and produced new legends and rituals to strengthen their corporate interests. Since the basilica and the abbey differed in their spiritualities, structures, and external ties, the canons and monks elaborated and manipulated Martin's cult in quite different ways. Farmer shows how one saint's cult lent itself to these varying uses, and analyzes the strikingly dissimilar Martins that emerged. Her skillful inquiry into the relationship between group identity and cultural expression illuminates the degree to which culture is contested territory. Farmer's rich blend of social history and hagiography will appeal to a wide range of medievalists, cultural anthropologists, religious historians, and urban historians.
