Sound Souvenirs Karin Bijsterveld, José van Dijck, 2009 In recent decades, the importance of sound for remembering the past and for creating a sense of belonging has been increasingly acknowledged. We keep sound souvenirs such as cassette tapes and long play albums in our attics because we want to be able to recreate the music and everyday sounds we once cherished. Artists and ordinary listeners deploy the newest digital audio technologies to recycle past sounds into present tunes. Sound and memory are inextricably intertwined, not just through the commercially exploited nostalgia on oldies radio stations, but through the exchange of valued songs by means of pristine recordings and cultural practices such as collecting, archiving and listing. This book explores several types of cultural practices involving the remembrance and restoration of past sounds. At the same time, it theorizes the cultural meaning of collecting, recycling, reciting, and remembering sound and music.

Common Space Associate Professor Stavros Stavrides, 2016-02-15 Space is both a product and a prerequisite of social relations, it has the potential to block and encourage certain forms of encounter. In *Common Space*, activist and architect Stavros Stavrides calls for us to conceive of space-as-commons – first, to think beyond the notions of public and private space, and then to understand common space not only as space that is governed by all and remains open to all, but that explicitly expresses, encourages and exemplifies new forms of social relations and of life in common. Through a fascinating, global examination of social housing, self-built urban settlements, street trade and art, occupied space, liberated space and graffiti, Stavrides carefully shows how spaces for commoning are created. Moreover, he explores the connections between processes of spatial transformation and the formation of politicised subjects to reveal the hidden emancipatory potential of contemporary, metropolitan life.

A Vulgar Art Ian Brodie, 2014-10-29 In *A Vulgar Art* Ian Brodie uses a folkloristic approach to stand-up comedy, engaging the discipline's central method of studying interpersonal, artistic communication and performance. Because stand-up comedy is a rather broad category, people who study it often begin by relating it to something they recognize—"literature" or "theatre"; "editorial" or "morality"—and analyze it accordingly. *A Vulgar Art* begins with a more fundamental observation: someone is standing in front of a group of people, talking to them directly, and trying to make them laugh. So this book takes the moment of performance as its focus, that stand-up comedy is a collaborative act between the comedian and the audience. Although the form of talk on the stage resembles talk among friends and intimates in social settings, stand-up comedy remains a profession. As such, it requires performance outside of the comedian's own community to gain larger and larger audiences. How do comedians recreate that atmosphere of intimacy in a roomful of strangers? This book regards everything from microphones to clothing and LPs to Twitter as strategies for bridging the spatial, temporal, and socio-cultural distances between the performer and the audience.

Running a Thousand Miles for Freedom Ellen Craft, William Craft, 2023-12-25 This eBook edition of *Running a Thousand Miles for Freedom* has been formatted to the highest digital standards and adjusted for readability on all devices. *Running a Thousand Miles for Freedom* is a written account by Ellen Craft and William Craft first

published in 1860. Their book reached wide audiences in Great Britain and the United States and it represents one of the most compelling of the many slave narratives published before the American Civil War. Ellen (1826–1891) and William Craft (1824 - 1900) were slaves from Macon, Georgia in the United States who escaped to the North in December 1848 by traveling openly by train and steamboat, arriving in Philadelphia on Christmas Day.

Rebour Rob Van der Plas, Frank J. Berto, 2017-09-15 A compilation of high-quality illustrations of bicycles and bicycle components and accessories by the French master-illustrator Daniel Rebour. The book contains some 2,000 nicely rendered line drawings with captions explaining the function of the items depicted and references to each illustration's source. This second edition includes additional materials and corrections based on information that has become available since release of the first edition of the book, in 2014. In addition the book contains an updated biography of Daniel Rebour.

Brazilian Bodies and Their Choreographies of Identification Cristina F. Rosa, 2015-08-26 Brazilian Bodies, and their Choreographies of Identification retraces the presence of a particular way of swaying the body that, in Brazil, is commonly known as *ginga*. Cristina Rosa its presence across distinct and specific realms: *samba-de-roda* (samba-in-a-circle) dances, *capoeira* angola games, and the repertoire of Grupo Corpo.

Using French Synonyms R. E. Batchelor, M. H. Offord, 1993-02-25 This new guide to French synonyms is the first to be produced specifically for English-speaking students of French. Its aim is to enable them to develop, broaden and enhance their awareness of the complexity and richness of French vocabulary by presenting in an easily accessible form information not readily available in traditional dictionaries. It contains a wide variety of material, both formal and informal, literary and practical. The tabular layout is designed for maximum ease of reference, with sample contexts and English equivalents for each French item. There are two indexes of French and English words.

The Transatlantic Sixties Grzegorz Kosci, Clara Juncker, Sharon Monteith, Britta Waldschmidt-Nelson, 2014-04-30 This collection brings together new and original critical essays by eleven established European American Studies scholars to explore the 1960s from a transatlantic perspective. Intended for an academic audience interested in globalized American studies, it examines topics ranging from the impact of the American civil rights movement in Germany, France and Wales, through the transatlantic dimensions of feminism and the counterculture movement. It explores, for example, the vicissitudes of Europe's status in US foreign relations, European documentaries about the Vietnam War, transatlantic trends in literature and culture, and the significance of collective and cultural memory of the era.

Dictionary of Media and Communications Marcel Danesi, 2014-12-18 Accessible to wide range of readers from student to lay people, this authoritative reference provides a complete listing of media concepts, figures, and techniques with illustrations and historical commentaries. Written by distinguished scholar and author Marcel Danesi, and with an Introduction by Arthur Asa Berger, a leading figure in the world of media and communications, the dictionary also includes terms related to psychology, linguistics, aesthetics, computer science, semiotics,

culture theory, anthropology, and more that have relevance in media studies. Each entry includes a definition in simple, clear language; an illustration where applicable; and, historical commentary (who coined a term for example, why, who uses it, etc.). A bibliography, a directory of online resources, and a time-line of media genres add to the dictionary's usefulness and appeal.

Ecocriticism and Geocriticism Robert T. Tally Jr., Christine M. Battista, Saville, 2016-04-29 Although treated as two distinct schools of thought, ecocriticism and geocriticism have both placed emphasis on the lived environment, whether through social or natural spaces. For the first time, this interdisciplinary collection of essays addresses the complementary and contested aspects of these approaches to literature, culture, and society.

Spatiality Robert T. Tally, 2013 Divided into six chapters, each dealing with different aspects of the spatial in literary studies, the book provides: An overview of the spatial turn in literary theory - from modern philosophy and historicism to cartography and literary theory Introductions to the major theorists such as Michel Foucault, David Harvey, Edward Soja, Erich Auerbach, Georg Lukács, and Mikhail Bakhtin An analysis of spatiality from a variety of perspectives - the writer as map-maker, different literary and critical 'spaces', the concept of literary geography, cartographics and geocriticism. As the first guide to the literature and criticism of 'space', this clear and engaging book is essential reading.

Cultural Memory and Popular Dance Clare Parfitt, 2021-12-02 This book focuses on the myriad ways that people collectively remember or forget shared pasts through popular dance. In dance classes, nightclubs, family celebrations, tourist performances, on television, film, music video and the internet, cultural memories are shared and transformed by dancing bodies adapting yesterday's steps to today's concerns. The book gathers emerging and seasoned scholarly voices from a wide range of geographical and disciplinary perspectives to discuss cultural remembering and forgetting in diverse popular dance contexts. The contributors ask: how are Afro-diasporic memories invoked in popular dance classes? How are popular dance genealogies manipulated and reclaimed? What is at stake for the nation in the nationalizing of folk and popular dances? And how does mediated dancing transmit memory as feelings or affects? The book reveals popular dance to be vital to cultural processes of remembering and forgetting, allowing participants to pivot between alternative pasts, presents and futures.

The Rejection of Consequentialism Samuel Scheffler, 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that

consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Assassination Generation Lieutenant Colonel Dave Grossman, Kristine Paulsen, 2016-11-15 The author of the 400,000-copy bestseller *On Killing* reveals how violent video games have ushered in a new era of mass homicide--and what we must do about it. Paducah, Kentucky, 1997: a 14-year-old boy shoots eight students in a prayer circle at his school. Littleton, Colorado, 1999: two high school seniors kill a teacher, twelve other students, and then themselves. Utoya, Norway, 2011: a political extremist shoots and kills sixty-nine participants in a youth summer camp. Newtown, Connecticut, 2012: a troubled 20-year-old man kills 20 children and six adults at the elementary school he once attended. What links these and other horrific acts of mass murder? A young person's obsession with video games that teach to kill. Lt. Col. Dave Grossman, who in his perennial bestseller *On Killing* revealed that most of us are not natural born killers -- and who has spent decades training soldiers, police, and others who keep us secure to overcome the intrinsic human resistance to harming others and to use firearms responsibly when necessary -- turns a laser focus on the threat posed to our society by violent video games. Drawing on crime statistics, cutting-edge social research, and scientific studies of the teenage brain, Col. Grossman shows how video games that depict antisocial, misanthropic, casually savage behavior can warp the mind -- with potentially deadly results. His book will become the focus of a new national conversation about video games and the epidemic of mass murders that they have unleashed.

Thereby Hangs a Tail Spencer Quinn, 2013 Bernie Little and his canine companion, Chet, are private investigators. Both have had some setbacks in life - Bernie in combat, Chet in K-9 dog-training school - but together they make up a team like no other. In *Thereby Hangs a Tail*, Bernie and Chet are hired to investigate threats made against an unlikely target - a pretty, pampered show dog named Princess. What seems like a joke turns serious when Princess and her owner are abducted. And to make matters worse, Bernie's on-again, off-again girlfriend, reporter Susie Sanchez, disappears too. When Chet gets separated from Bernie, he tries to put the pieces together, find his way home, and save the day. With genuine suspense and intrigue, combined with humour and insight into the special bond between man and dog, *Thereby Hangs a Tail* is the much awaited sequel to the fantastic, funny, New York Times bestselling *Dog On It*. It will keep everyone talking - and chuckling.

The Peasant in Postsocialist China Alexander F. Day, 2013-07-18 The role of the peasant in society has been fundamental throughout China's history, posing difficult, much-debated questions for Chinese modernity. Today, as China becomes an economic superpower, the issue continues to loom large. Can the peasantry be integrated into a

new Chinese capitalism, or will it form an excluded and marginalized class? Alexander F. Day's highly original appraisal explores the role of the peasantry throughout Chinese history and its importance within the development of post-socialist-era politics. Examining the various ways in which the peasant is historicized, Day shows how different perceptions of the rural lie at the heart of the divergence of contemporary political stances and of new forms of social and political activism in China. Indispensable reading for all those wishing to understand Chinese history and politics, *The Peasant in Postsocialist China* is a new point of departure in the debate as to the nature of tomorrow's China.

Kurt Vonnegut and the American Novel Robert T. Tally Jr., 2011-08-11 The novels of Kurt Vonnegut depict a profoundly absurd and distinctly postmodern world. But in this critical study, Robert Tally argues that Vonnegut himself is actually a modernist, who is less interested in indulging in the free play of signifiers than in attempting to construct a model that could encompass the American experience at the end of the twentieth century. As a modernist wrestling with a postmodern condition, Vonnegut makes use of diverse and sometimes eccentric narrative techniques (such as metafiction, collage, and temporal slippages) to project a comprehensive vision of life in the United States. Vonnegut's novels thus become experiments in making sense of the radical transformations of self and society during that curious, unstable period called, perhaps ironically, the 'American Century.' An untimely figure, Vonnegut develops a postmodern iconography of American civilization while simultaneously acknowledging the impossibility of a truly comprehensive representation.

The Slave's Narrative Charles T. Davis, Henry Louis Gates Jr., 1991-02-21 These autobiographies of Afro-American ex-slaves comprise the largest body of literature produced by slaves in human history. The book consists of three sections: selected reviews of slave narratives, dating from 1750 to 1861; essays examining how such narratives serve as historical material; and essays exploring the narratives as literary artifacts.
