*The New Economics* Steve Keen,2021-11-11 In 1517, Martin Luther nailed his 95 theses to the wall of Wittenberg church. He argued that the Church's internally consistent but absurd doctrines had pickled into a dogmatic structure of untruth. It was time for a Reformation. Half a millennium later, Steve Keen argues that economics needs its own Reformation. In *Debunking Economics*, he eviscerated an intellectual church - neoclassical economics - that systematically ignores its own empirical untruths and logical fallacies, and yet is still mysteriously worshipped by its scholarly high priests. In this book, he presents his Reformation: a New Economics, which tackles serious issues that today's economic priesthood ignores, such as money, energy and ecological sustainability. It gives us hope that we can save our economies from collapse and the planet from ecological catastrophe. Performing this task with his usual panache and wit, Steve Keen's new book is unmissable to anyone who has noticed that the economics Emperor is naked and would like him to put on some clothes.

Ramsey Personality and debt elimination expert Jade Warshaw candidly shares how she and her husband, Sam, shifted their mindset around money and paid off over \$460,000 in debt—including \$280,000 of student loans! In this Quick Read, Jade uncovers five lies we tend to believe about budgeting. Then, she counters those lies with five truths that will rock your world—and change your attitude toward budgeting. Here are some of the things you'll learn: - An easy way to take control of your finances - The key to get past the "we ain't got no money" mentality - A budget is a powerful money tool - How to stop seeing yourself as a victim and an exception to the rules In just 70 pages, this entertaining Quick Read will help you change your mindset about money and give you practical ways to reach your money goals with control and confidence.

**The Social Meaning of Extra Money** Sidonie Naulin, Anne Jourdain, 2019-08-29 Why do ordinary people who used to engage in domestic and leisure activities for free now try to make a profit from them? How and why do people commodify their free time? This book explores the marketization of blogging, cooking, craftwork, gardening, knitting, selling second-hand items, sexcamming, and more generally the economic use of free time. It outlines how the development of web platforms, the current economic context and post-Fordist values can account for this extension of market and labor. Drawing on a range of interviews, ethnographic observations, and quantitative surveys, the contributors question the empowering effects of commodification, with a specific focus on how gender and class inequalities affect the social meanings of extra money. Ultimately, the collective findings demonstrate how commodification pervades even the most mundane social activities. This research will be invaluable to scholars and students with a focus on gender and digital sociology, the sociology of work and labour, and the marketization of leisure.

It then examines the various

Finally, the paper discusses macropolicy implications, particularly in the areas of exchange controls, prudential banking supervision, tax evasion, statistical reporting, and legislation.
