**European Dream and Reluctant Integration in the 21st Century** Hungdah Su (2020-10-01) To avoid a repeat of those nationalist nightmares, a common European Dream emerged after WWII, which has since developed into some essential doctrines of European integration. This dream-inspired institutionalist context has framed intergovernmental bargaining, sectoral spillovers and transnational cooperation in European integration. The powerful European Dream has even encouraged Europeans toward closer integration, though they were, quite often, very reluctant to go further. This dream-driven approach and reluctant runner's model have highlighted some fundamental realities of European integration, extremely inspiring for the future of the EU and the ongoing Asian regionalism. This book consists of three parts and thirteen chapters. It aims to explain European integration, the EU's role in global governance and the EU's impact upon Asian regionalism with the help of the European Dream approach and reluctant runners' model. Trump's unilateralism, the rising tensions between the US and PRC and the COVID-19 pandemic may be a turning point for world politics. Both globalization and global governance have consequently slowed down, giving place to regionalism and inter-regionalism. This book hopes to contribute to the rising debate over European integration, Asian regionalism and EU-Asian inter-regionalism.

**What We Owe Each Other** Minouche Shafik,2022-08-23 From one of the leading policy experts of our time, an urgent rethinking of how we can better support each other to thrive Whether we realize it or not, all of us participate in the social contract every day through mutual obligations among our family, community, place of work, and fellow citizens. Caring for others, paying taxes, and benefiting from public services define the social contract that supports and binds us together as a society. Today, however, our social contract has been broken by changing gender roles, technology, new models of work, aging, and the perils of climate change. Minouche Shafik takes us through stages of life we all experience—raising children, getting educated, falling ill, working, growing old—and shows how a reordering of our societies is possible. Drawing on evidence and examples from around the world, she

shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society. But we owe each other more than this. A more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential. What We Owe Each Other identifies the key elements of a better social contract that recognizes our interdependencies, supports and invests more in each other, and expects more of individuals in return. Powerful, hopeful, and thought-provoking, What We Owe Each Other provides practical solutions to current challenges and demonstrates how we can build a better society-together.

The Federalist Papers Alexander Hamilton, John Jay, James Madison, 2018-08-20 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Rewriting the Rules of the European Economy: An Agenda for Growth and Shared Prosperity Joseph E. Stiglitz, 2020-01-28 A companion to his acclaimed work in *Rewriting the Rules of the American Economy*, Joseph E. Stiglitz, along with Carter Dougherty and the Foundation for European Progressive Studies, lays out the economic framework for a Europe with faster growth that is more equitably shared. Europe is in crisis. Sluggish economic growth in many countries, widespread income stagnation, and recession have led to severe political and social consequences. Social protections for citizens have been cut back. Governments offer timid responses to deep-seated problems. These economic and political failures have contributed to the rise of extremist parties on the right. Marginalized populations are being made scapegoats for Europe's woes. But the problems of today's Europe stem from decisions based on a blind worship of markets in too many areas of policy. If Europe is to return to an innovative and dynamic economy—and if there is to

be shared prosperity, social solidarity, and justice—then EU countries need to break with their current, destructive trajectory. This volume offers concrete strategies for renewal that would also reinvigorate the project of European integration, with fresh ideas in the areas of both macroeconomics and microeconomics, including central banking, public investment, corporate governance and competition policy, social policy, and international trade.

**Designing Mobility and Transport Services** Mike Tovey, Andree Woodcock, Jane Osmond, 2016-11-10 European cities increasingly face problems caused by transport and traffic. For many people transport provision is unsatisfactory and current arrangements are leading to a deteriorating environment. A fundamental problem is that our currently fragmented approach makes it difficult to understand fully the circumstances and needs of transport users. In any overall approach public transport is a crucial component. Designing Mobility and Transport Services shows how these issues can be addressed and resolved. The development of an inclusive, validated passenger experience measurement instrument is the first step in understanding the situation and thus tackling it. It is needed if we are to create high quality, user centred, integrated, accessible public transport services, which are capable of attracting and retaining public transport users whilst meeting sustainability targets. The METPEX research project was devised to tackle these issues. Coordinated by Coventry University, the METPEX consortium brought together 16 European partners from 12 countries. The project's underlying rationale was the proposition that if transport operators and authorities were provided with a robust, reliable and tailorable means of measuring the whole multimodal passenger journey, they could improve service provision. The book describes how such an improvement can be achieved, to attract travellers out of their private vehicles, thereby reducing congestion and pollution and increasing health and well-being. It provides a template for a creative approach and a meta-design narrative in designing for transport systems to enhance mobility choices by improving the door to door journey and thus underpin sustainable transport initiatives.
