The Horus myth in its relation to Christianity William Ricketts
Cooper,1876

The War of Horus and Set David McIntee,2013-05-20 Long ago the brother gods Osiris and Set ruled peacefully over the lands of Upper and Lower Egypt, each in his own kingdom. But over time Set came to covet his brother's lands and crown, and eventually the temptation overwhelmed him. Usurping Osiris's throne, Set began a blood feud that spread war, death and mutilation through both the heavens and the earth. Gods and men chose sides and took up arms on behalf of both Set and Horus, the heir of Osiris. This book retells the mythic struggle between Horus and Set, exploring the variations and background to the feud, and examining the earthly realities that inspired, or reflected, the actions and allegiances of the Gods, such as the political rivalries between the two kingdoms, and the invasion of Egypt by Cambyses II. Ancient Egyptian weapons and strategies are also examined, showing how their gods and men did battle.

Dictionary of Ancient Magic Words and Spells Claude

Lecouteux,2015-10-15 A comprehensive handbook of more than 1,000 magical words, phrases, symbols, and secret alphabets • Explains the origins, derivatives, and practical usage of each word, phrase, and spell as well as how they can be combined for custom spells • Based on the magical traditions of Europe, Greece, and

Egypt and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany • Includes an in-depth exploration of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes From Abracadabra to the now famous spells of the Harry Potter series, magic words are no longer confined to the practices of pagans, alchemists, witches, and occultists. They have become part of the popular imagination of the Western world. Passed down from ancient Babylon, Egypt, and Greece, these words and the rituals surrounding them have survived through the millennia because they work. And as scholar Claude Lecouteux reveals, often the more impenetrable they seem, the more effective they are. Analyzing more than 7,000 spells from the magical traditions of Europe as well as the magical papyri of the Greeks and recently discovered one-of-a-kind grimoires from Scandinavia, France, and Germany, Lecouteux has compiled a comprehensive dictionary of ancient magic words, phrases, and spells along with an in-depth exploration--the first in English--of secret magical alphabets, including those based on Hebrew letters, Kabbalistic symbols, astrological signs, and runes. Drawing upon thousands of medieval accounts and famous manuscripts such as the *Heptameron* of

Peter Abano, the author examines the origins of each word or spell, offering detailed instructions on their successful use, whether for protection, love, wealth, or healing. He charts their evolution and derivations through the centuries, showing, for example, how spells that were once intended to put out fires evolved to protect people from witchcraft. He reveals the inherent versatility of magic words and how each sorcerer or witch had a set of stock phrases they would combine to build a custom spell for the magical need at hand. Presenting a wealth of material on magical words, signs, and charms, both common and obscure, Lecouteux also explores the magical words and spells of ancient Scandinavia, the Hispano-Arabic magic of Spain before the Reconquista, the traditions passed down from ancient Egypt, and those that have stayed in use until the present day.

Shattered Legions Laurie Goudling, 2018 Driven almost to the brink of self-destruction at Istvan V, the Iron Hands now seek vengeance for the murder of their primarch Ferrus Manus. Gathering survivors from the Raven Guard and the Salamanders aboard any vessels capable of warp travel, these Shattered Legions wage a new campaign of annihilation against the traitor forces across the galaxy - a campaign masterminded by legendary

warleader Shadrak Meduson. This Horus Heresy anthology contains ten short stories by authors including Dan Abnett, Chris Wraight, John French and many more. Also, in the novella The Seventh Serpent, Graham McNeill revisits the ragtag crew of the starship Sisyphus as they are drawn into a war of subterfuge against the Alpha Legion,--Page [4] of cover.
