A Stolen Life Jaycee Dugard,2011-07-12 A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years On 10 June 1991, eleven-year-old Jaycee Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she experienced, including how she feels now, a year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

Resonate Nancy Duarte,2013-07-02 Reveals the underlying story form of all great presentations that will not only create impact, but will move people to action Presentations are meant to inform, inspire, and persuade audiences. So why then do so many audiences leave feeling like they've wasted their time? All too often, presentations don't resonate with the audience and move them to transformative action. Just as the author's first book helped presenters become visual communicators, *Resonate* helps you make a strong connection with your audience and lead them to purposeful action. The author's approach is simple: building a presentation today is a bit like writing a documentary. Using this approach, you'll convey your content with passion, persuasion, and impact. Author has a proven track record, including having created the slides in Al Gore's Oscar-winning *An Inconvenient Truth* Focuses on content development methodologies that are not only fundamental but will move people to action Upends the usual paradigm by making the audience the hero and the presenter the mentor Shows how to use story techniques of conflict and resolution Presentations don't have to be boring ordeals. You can make them fun, exciting, and full of meaning. Leave your audiences energized and ready to take action with *Resonate*.

Engineering a Safer World Nancy G. Leveson,2012-01-13 A new approach to safety, based on systems thinking, that is more effective, less costly, and easier to use than current techniques. Engineering has experienced a technological revolution, but the basic engineering techniques applied in safety and reliability engineering, created in a simpler, analog world, have changed very little over the years. In this groundbreaking book, Nancy Leveson proposes a new approach to safety—more suited to today's complex, sociotechnical, software-intensive world—based on modern systems thinking and systems theory. Revisiting and updating ideas pioneered by 1950s aerospace engineers in their System Safety concept, and testing her new model extensively on real-world examples, Leveson has created a new approach to safety that is more effective, less expensive, and easier to use than current techniques. Arguing that traditional models of causality are inadequate, Leveson presents a new, extended model of causation (Systems-Theoretic Accident Model and Processes, or STAMP), then shows how the new model can be used to create techniques for system safety engineering, including accident analysis, hazard analysis, system design, safety in operations, and management of safety-critical systems. She applies the new techniques to real-world events including the friendly-fire loss of a U.S. Blackhawk helicopter in the first Gulf War; the Vioxx recall; the U.S. Navy SUBSAFE program; and the bacterial contamination of a public water supply in a Canadian town. Leveson's approach is relevant even beyond safety engineering, offering techniques for “reengineering” any large sociotechnical system to improve safety and manage risk.

The Upside of Being Down Jen Gotch,2020-03-24 A NEW YORK TIMES BESTSELLER An entertaining, humorous, and inspirational memoir by the founder and chief creative officer of the multimillion-dollar lifestyle brand ban.do, who “has become a hero among women (and likely some men too) who struggle with mental health” (Forbes). After graduating from college, Jen Gotch was living with her parents, heartbroken and lost, when she became convinced that her skin had turned green. Hallucinating that she looked like Shrek was terrifying, but it led to her first diagnosis and the start of a journey towards self-awareness, acceptance, success, and ultimately, joy. With humor and candor, Gotch shares the empowering story of her unlikely path to becoming the creator and CCO of a multimillion-dollar brand. From her childhood in Florida where her early struggles with bipolar disorder, generalized anxiety, and ADD were misdiagnosed, to her winding career path as a waitress, photographer, food stylist, and finally,

accidental entrepreneur, she illuminates how embracing her flaws and understanding the influence of mental illness on her creativity actually led to her greatest successes in business and life. Hilarious, hyper-relatable, and filled with fascinating insights and hard-won wisdom on everything from why it's okay to cry at work to the myth of busyness and perfection to the emotional rating system she uses every day, Gotch's inspirational memoir dares readers to live each day with hope, optimism, kindness, and humor.
