Wooden Boats Michael Ruhlman, 2002-04-30 There are fewer than 10,000 wooden boats in America, but the circulation of *WoodenBoat* magazine exceeds 180,000. What is it about these boats that has captured the popular imagination? With his lively blend of reportage [and] reflection (*Los Angeles Times*), Michael Ruhlman sets off for a renowned boatyard in Martha's Vineyard to follow the construction of two boats-Rebecca, a 60-foot modern pleasure schooner, and Elisa Lee, a 32-foot powerboat. Filled with exquisite details and stories of the sea, this exciting exploration of a nearly forgotten craft and the colorful personalities involved will enthrall wooden boat owners as well as craftspeople of every stripe, nature enthusiasts, and fans of compelling nonfiction.

We have long known how to fold paper boats, of course the traditional paper boat that has been passed down for generations. In this book, a number of traditional paper boats will be re-introduced and a number of new models will be introduced. Traditional models need to be included, so that people do not forget the existing traditional models, and also as a first step to learn to fold a paper boat, before starting to fold newer models. New models are introduced so that people can fold more diverse models of paper boats. Happy folding!

Boats Made in Holland Geoffrey D. Reynolds, 2018-05-07 Holland's boat building tradition took root in the 1840s, as Dutch immigrants crafted flatboats and watercraft for residents. Just a century later, the city's commercial boat building industry flourished. The innovation of fiberglass reinforced plastic changed the traditional structure of boats, revamped the industry and re-created the blueprint for U.S. pleasure boats following World War II. The Roamer Boat Company's masterfully welded sheet steel cabin cruisers led to the 1955 purchase by the Chris-Craft Corporation to create the Roamer Boat Corporation. Local craftsmen, like the Jesiek brothers, found the transition from furniture building to boat building seamless. But with the success of larger manufacturers, smaller boat shops declined. Geoffrey Reynolds explores the story of Holland's unique legacy of maritime craftsmanship.
