Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Sources and Methods in African History Toyin Falola, Christian Jennings, 2004 An overview of the ongoing methods used to understand African history. Spurred in part by the ongoing re-evaluation of sources and methods in research, African historiography in the past two decades has been characterized by the continued branching and increasing sophistication of methodologies and areas of specialization. The rate of incorporation of new sources and methods into African historical research shows no signs of slowing. This book is both a snapshot of current academic practice and an attempt to sort through some of the problems scholars face within this unfolding web of sources and methods. The book is divided into five sections, each of which begins with a short introduction by a distinguished Africanist scholar. The first section deals with archaeological contributions to historical research. The second section examines the methodologies involved in deciphering historically accurate African ethnic identities from the records of the trans-Atlantic slave trade. The third section mines old documentary sources for new historical perspectives. The fourth section deals with the method most often associated with African historians, that of drawing historical data from oral tradition. The fifth section is devoted to essays that present innovative sources and methods for African historical research. Together, the essays in this cutting-edge volume represent the current state of the art in African historical research. Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin. Christian Jennings is a Doctoral Candidate in History at the University of Texas at Austin.

The Book of Origins Philip Eveson, 2001 As its name implies, *Genesis* is a book of origins. In it we are told of the origin of the universe, the beginnings of the human race and the birth of the Israelite nation. But it is more than an early record of origins. It is part of God's Word to us, what the apostle Paul calls God-breathed Scripture. Here we are given infallible instruction concerning where we all came from and why things are the way they are. The book of *Genesis* is also crucially important for

our understanding of the rest of Scripture. It introduces us to the true and living God, to the beginnings of sin, its consequences and how it has affected the whole created order. - Publisher.

White Pearl Anchuli Felicia King,2022-11-08 It's just a fun ad. Now the whole world is going crazy. In Singapore, Clearday(TM) has developed from a small startup into a leading international cosmetic brand in less than a year. But when a draft of the company's latest skin cream advert is leaked, the video goes viral globally for all the wrong reasons. YouTube views are in the thousands and keep climbing; anger is building on social media; and journalists are starting to cover the story. This is an international PR nightmare; the company cannot be seen to be racist, they've got to get it taken down before America wakes up.
