Inside the Sideshow Studio . Sideshow, 2015-06-16

Inside the Sideshow Studio takes readers on a behind-the-scenes tour of a unique creative environment—the eclectic and dynamic workplace of one of the world’s leading figure arts creators. Admired by collectors for its meticulous attention to detail, Sideshow Collectibles has rooted itself on a foundation of creativity, close collaboration, and boundary-pushing quality. The world of Sideshow itself, and the renaissance-like environment it fosters, is the subject of this unique photographic exploration of creativity and the spaces it inhabits. Through dynamic photography, Inside Sideshow Collectibles takes an in-depth look at an artistic haven expressly devoted to the development of high-end collectible figures, offering a one-of-a-kind examination of the relationship between innovation and spatial design. A must-have for fans and creatives, this beautifully illustrated book will not only grant a look at Sideshow that few have ever seen, but also inspire readers to push the limits of their talent and surround themselves with artistic spaces of their own.

*Transtopia in the Sinophone Pacific* Howard Chiang, 2021-04-06 As a broad category of identity, “transgender” has given life to a vibrant field of academic research since the 1990s. Yet the Western origins of the field have tended to limit its cross-cultural scope. Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance. Defined as the antidote to transphobia, transtopia challenges

a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum. Against the backdrop of the Sinophone Pacific, Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame. At the same time, he challenges China-centrism in the study of East Asian gender and sexual configurations. Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another. Grounded in an eclectic range of sources—from the archives of sexology to press reports of intersexuality, films about castration, and records of social activism—this book reorients anti-transphobic inquiry at the crossroads of area studies, medical humanities, and queer theory. Timely and provocative, *Transtopia in the Sinophone Pacific* highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity.

*Speeches of Note* Shaun Usher, 2018-12-04 From the author of the New York Times bestseller *Letters of Note* comes a collection of 75 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Frederick Douglass, Justin Trudeau, Albert Einstein, Meghan Markle, Barbara Jordan, and Ursula K. Le Guin. This thoughtfully curated and richly illustrated collection

celebrates oratory old and new, highlighting speeches we know and admire, while also shining a light on profound drafts that were never delivered or have until now been forgotten. From George Bernard Shaw's warm and rousing toast to Albert Einstein in 1930 and the commencement address affectionately given to graduates at Long Island University by Kermit the Frog, to the chilling public announcement (that was thankfully never made) by President Richard Nixon should Neil Armstrong and Buzz Aldrin become stranded on the moon, *Speeches of Note* honors the words and ideas of some of history's most provocative and inspiring personages.
