Foreign Policy Analysis Jean-Frédéric Morin, Jonathan Paquin, 2018-01-03 This book presents the evolution of the field of foreign policy analysis and explains the theories that have structured research in this area over the last 50 years. It provides the essentials of emerging theoretical trends, data and methodological pitfalls and major case-studies and is designed to be a key entry point for graduate students, upper-level undergraduates and scholars into the discipline. The volume features an eclectic panorama of different conceptual, theoretical and methodological approaches to foreign political analysis, focusing on different models of analysis such as two-level game analysis, bureaucratic politics, strategic culture, cybernetics, poliheuristic analysis, cognitive mapping, gender studies, groupthink and the systemic sources of foreign policy. The authors also clarify conceptual notions such as doctrines, ideologies and national interest, through the lenses of foreign policy analysis.

Trump University Entrepreneurship 101 Michael E. Gordon, 2009-09-28 An up-to-date and expanded edition of the Trump guide to starting a business Although he has ups and downs like every entrepreneur, Donald Trump is one of the world's most famous entrepreneurs for good reason—he's one of the best. In Trump University Entrepreneurship 101, Second Edition he teams up with business owner and professor Michael Gordon to show you how to take your dream and turn it into a big-time moneymaker. This new edition is completely updated with timely new material and three new chapters, teaching you how to build a technology venture, even without formal technical education; how to use social networking, Web 2.0, and cloud computing to achieve competitive advantages, and how to exploit opportunities during recessionary times. If you dream of starting your own business, this is the inspiring, comprehensive guide that shows you how to do it from planning to starting up to expansion. It shows you how to mobilize resources, develop a workable strategy, write an effective business plan, raise money, negotiate with investors, and launch your business. With a first chapter by Trump Author Michael Gordon is the founder of five successful companies and teaches entrepreneurship at a number of colleges, including the Harvard University Extension School, Babson College and The International School of Management in Paris Fully revised and updated including new chapters on hot topics in entrepreneurship Includes visual models, case studies, downloadable worksheets, pep talks, and stories from Trump himself If anyone knows how to succeed in business, it's Donald Trump and his team of experts from Trump University. If you are ready for your entrepreneurial adventure, here's all the help you need.

Digital Media and Society Adrian Athique, 2013-07-31 The rise of digital media has been widely regarded as transforming the nature of our social experience in the twenty-first century. The speed with which new forms of connectivity and communication are being incorporated into our everyday lives often gives us little time to stop and consider the social implications of those practices. Nonetheless, it is critically important that we do so, and this sociological introduction to the field of digital technologies is intended to enable a deeper understanding of their prominent role in everyday life. The fundamental theoretical and ethical debates on the sociology of the digital media are presented in accessible summaries, ranging from economy and technology to criminology and sexuality. Key theoretical paradigms are explored through a broad range of contemporary social phenomena – from social networking and virtual lives to the rise of cybercrime and identity theft, from the utopian ideals of virtual democracy to the Orwellian nightmare of the surveillance society, from the free software movement to the implications of online shopping. As an entry-level pathway for students in sociology, media, communications and cultural studies, the aim of this work is to situate the rise of digital media within the context of a complex and rapidly changing world.

Mastering 3D Printing Joan Horvath, Rich Cameron, 2020-05-30 Get the most out of your printer, including how to design models, choose materials, work with different printers, and integrate 3D printing with traditional prototyping to make techniques like sand casting more efficient. This book is for new 3D printer owners, makers of all kinds, entrepreneurs, technology educators, and anyone curious about what you can do with a 3D printer. In this revised and expanded new edition of Mastering 3D Printing, which has been a trusted resource through five years of evolution in the 3D printing industry, you'll gain a comprehensive understanding of 3D printing. This book presumes no foreknowledge and describes what you need to know about how printers work, how to decide which type of printer (filament, resin, or powder) makes the most sense for you, and then how to go forward in the case of filament and resin printers. This new edition now includes material about consumer resin printing, the evolution of lower-cost metal printing, and the plethora of both materials and applications. What You'll Learn Choose among the different 3D printing technologies Create or find 3D models to print Make both easy and challenging prints come out as you imagined Assess whether your business, factory, home or classroom will benefit from 3D printing Work with applications that are good candidates for first projects in home and industrial applications Who This Book Is For People who are encountering 3D printing for the first time, or for those who want to level up their skills. It is designed for the nontechnical adult and minimizes jargon. However more sophisticated users will still find tips and insights of value.

Trump University Marketing 101 Don Sexton, 2006-06-27 Trump University Marketing 101 combines the biggest name in business with the 40-year teaching experience of one of the most well-known marketing thinkers in academia. Without an MBA in marketing, how can today's entrepreneurs and business owners stay on top of what's happening in marketing? How can they find the best new ideas and avoid those tactics that don't work or just lead to trouble? Trump University Marketing 101 presents all the basics of a marketing MBA. Each chapter focuses on one key marketing idea and explores it in a straightforward, non-academic manner with exercises and examples that show the idea in action. But more than basic instruction, Sexton also includes his own methodologies for making vital marketing decisions—the same methodologies major corporations pay top-dollar to have him teach their employees. Don Sexton is Professor of Business at Columbia University and principle of The Arrow Group, Ltd.®, a marketing consulting and training firm whose clients have included GE, Citigroup, IBM, and Pfizer, among many others. He has taught at Columbia for more than 35 years, is a recipient of the Business School's Distinguished Teaching Award, and has written numerous articles on marketing and branding issues. He is often quoted in prominent media such as The New York Times, Business Week, and Beijing's China Economic Daily.

3D Printing with Delta Printers Charles Bell, 2015-07-14 Do you find yourself wondering what the fuss is about a delta 3D printer? Perhaps you've decided to buy one but all of your 3D printing friends are busily perfecting their Cartesian printers. Maybe you find yourself stymied by the fact that your delta printer has very different needs for setup, configuration, calibration, and maintenance than Cartesian printers. 3D Printing with Delta Printers contains detailed descriptions of the innovative delta design including unique hardware, software, and maintenance requirements. The book also covers tips for building your own delta printer as well as examples of common enhancements. This book will enable you to build, configure, and enhance your delta printer. The topics covered will reveal the often-mysterious nuances of the delta design that will enable your printer to compete with the best of what your 3D printer friends can build.

Media Management ,

Handbook of Media Management and Economics Alan Albarran, Bozena Mierzejewska, Sylvia M. Chan-Olmsted, Jaemin Jung, Michael O. Wirth, 2006-04-21 This comprehensive Handbook provides a synthesis of current work and research in media management and economics. The volume has been developed around two primary objectives: assessing the state of knowledge for the key topics in the media management and economics fields; and establishing the research agenda in these areas, ultimately pushing the field in new directions. The Handbook's chapters are organized into parts addressing the theoretical components, key issues, analytical tools, and future directions for research. Each chapter offers the current state of theory and scholarship of a specific area of study, and the volume

contributors--all well established in their areas of specialty--represent domestic and international scholarship. With its unparalleled breadth of content from expert authors, the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms, and establishes the direction for the next phases of research in this growing arena of study. The Handbook of Media Management and Economics will serve to stimulate future thought and research in the media management and economics disciplines. As such, this volume will be a required reference for students, professors, and industry practitioners for years to come.

Mastering 3D Printing Joan Horvath,2014-09-18 Mastering 3D Printing shows you how to get the most out of your printer, including how to design models, choose materials, work with different printers, and integrate 3D printing with traditional prototyping to make techniques like sand casting more efficient. You've printed key chains. You've printed simple toys. Now you're ready to innovate with your 3D printer to start a business or teach and inspire others. Joan Horvath has been an educator, engineer, author, and startup 3D printing company team member. She shows you all of the technical details you need to know to go beyond simple model printing to make your 3D printer work for you as a prototyping device, a teaching tool, or a business machine.

Foreign Policy Decision-Making (Revisited) R. Snyder, H. Bruck, B. Sapin, Valerie Hudson,2003-01-03 This classic work has helped shape the field of international relations and especially influenced scholars interested in how foreign policy is made. At a time when conventional wisdom and traditional approaches are being questioned, and when there is increased interest in the importance of process, the insights of Snyder, Bruck and Sapin have continuing and increased relevance. Prescient in its focus on the effects on foreign policy of individuals and their preconceptions, organizations and their procedures, and cultures and their values, Foreign Policy Decision-Making is of continued relevance for anyone seeking to understand the ways foreign policy is made. Their seminal framework is here complemented by two new chapters examining its influence on generations of scholars, the current state of the field, and areas for future research.

Critical Multiculturalism Stephen May,2005-08-18 This book aims to bring together two movements - multiculturalism and anti-racism - which, though having aims in common, have been at arms length in the past. Differences of emphasis have meant that classroom practice has been the natural realm of multiculturalism, while anti-racism has been dissatisfied with an approach that accentuates life-style at the expense of challenging or changing the racism that minority students experience. In these debates, there has been a concentration on culturally specific topics and this book goes beyond national boundaries to find how international concerns and contexts might provide answers to problems faced in single countries. Leading figures in the USA, Canada, South Africa, the UK and Australasia write on the issues.

Faking It Amir Blumenfeld, Neel Shah, Ethan Trex,2007 The writers of CollegeHumor.com share irreverent advice on how to navigate the peaks and valleys of today's sexual, financial, and social arenas, from bluffing one's way through an on-the-job conversation to using buzzwords to impress cultural circles.

Global Citizenship Education: A Critical Introduction to Key Concepts and Debates Edda Sant, Ian Davies, Karen Pashby, Lynette Shultz,2018-02-22 Global Citizenship Education explores key ideas and issues within local, national and global dimensions. Including examples and case studies from across the world, the authors draw on ideas, experiences and histories within and beyond 'the West' to contribute to multifaceted perspectives on global citizenship education. In concise chapters, the authors set out the key concepts and debates within the field. Global citizenship education is contextualized within key educational frameworks, including citizenship education, global education, development education and peace education. Edda Sant, Ian Davies, Karen Pashby and Lynette Shultz explore the different ways in which global citizenship can be taught, learned and assessed in formal and informal contexts. Including examples from a wide range of education institutions, chapters provide overviews of policy making and international practices borne out of different approaches to global citizenship education. With each chapter including a summary of key issues, an annotated list of key resources, an exercise for students and a further reading list, Global Citizenship Education will aid understanding of this complex and debated area of study.
