Rebel without a Crew Robert Rodriguez, 1996-09-01 Famed independent screenwriter and director Robert Rodriguez (Sin City, Once Upon a Time in Mexico, Spy Kids, Machete) discloses all the unique strategies and original techniques he used to make his remarkable debut film El Mariachi on a shoestring budget. This is both one man's remarkable story and an essential guide for anyone who has a celluloid story to tell and the dreams and determination to see it through. Part production diary, part how-to manual, Rodriguez unveils how he was able to make his influential first film on only a \$7,000 budget. Also included is the appendix, "The Ten Minute Film Course," a tell-all on how to save thousands of dollars on film school and teach yourself the ropes of film production, directing, and screenwriting. A perfect gift for the aspiring filmmaker.

Out of the Frying Pan Francis Swann, 2010-09 Comedy / Characters: 7 male, 5 female Set Requirements: Interior Produced in New York City. Three young men and three young women share an apartment in all innocence; they are would be stage folk and they are doing this for economic security. MiniEco Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

Perspectives on Discourse Analysis Laura Alba

Juez,2009-05-27 Perspectives on Discourse Analysis: Theory and Practice provides the student/reader with the basic theoretical knowledge and the empirical tools of some of the most relevant approaches to the analysis of discourse. It has been mainly conceived of as a general (university) course on Discourse Analysis, but it can also be useful for any person or group whose main concern is to acquire the basic necessary knowledge and skills for analyzing any type of discourse. The subject matter of the book could not only be of use for linguists or prospective linguists: given its interdisciplinary character, its findings can be (and in fact are) used and applied by practitioners and scholars from different fields, such as sociology, psychology, medical science, computer science, and so on. Thus the book can be used by any person who, having certain linguistic knowledge, is interested in exploring

the fascinating world of discourse. All the chapters contain both a theoretical and an empirical section, the latter containing examples of analysis, as well as exercises (Practice) and self-evaluation questions, whose answers can be found at the end of the book (in the Practice key and Key to self-evaluation questions sections).

The book is divided into 12 chapters. The first two introduce basic information about discourse analysis and text linguistics, as well as the necessary techniques for gathering data, including a very brief introduction to corpus linguistics. Chapters 3-11 present and discuss some of the most prominent and well-known approaches to discourse analysis, namely Pragmatics, Interactional Sociolinguistics, Conversation Analysis, The Ethnography of Communication, Variation Analysis and Narrative Analysis, Functional Sentence Perspective, Post-Structuralist Theory and Social Theory, Critical Discourse Analysis and Positive Discourse Analysis, and Mediated Discourse Analysis. Finally, Chapter 12 deals with crucial and further issues, such as the type of discourse chosen for the analysis, the strategies and functions of discourse, or the problem of choosing an appropriate unit of analysis which will suit the aims of research. Perspectives on Discourse Analysis: Theory and Practice may prove of value to all those who are

professionally involved in the area of discourse and pragmatic studies, or simply to those who wish to acquire the necessary basic knowledge and techniques for analyzing any type of discourse, from medical, journalistic or political discourse to computer-mediated, humoristic, or hegemonic discourse (where the use and abuse of power is an important issue), just to name a few of the innumerable possibilities. A desirable and intended effect of this book is also the development of an open and tolerant mind, which will eventually lead to a better understanding of the different and varied manifestations of language, culture and communication in human society.

Assorted Prose John Updike, 2012-09-18 John Updike's first collection of nonfiction pieces, published in 1965 when the author was thirty-three, is a diverting and illuminating gambol through midcentury America and the writer's youth. It opens with a choice selection of parodies, casuals, and "Talk of the Town" reports, the fruits of Updike's boyish ambition to follow in the footsteps of Thurber and White. These jeux d'esprit are followed by "Hub Fans Bid Kid Adieu," an immortal account of Ted Williams's last at-bat in Fenway Park; "The Dogwood Tree," a Wordsworthian evocation of one Pennsylvania childhood; and five autobiographical essays and

stories. Rounding out the volume are classic considerations of Nabokov, Salinger, Spark, Beckett, and others, the earliest efforts of the book reviewer who would go on to become, in The New York Times's estimation, "the pre-eminent critic of his generation." Updike called this collection "motley but not unshapely." Some would call it a classic of its kind.

Christmas at Candleshoe Michael Innes, 2010-02-20 When an American multi-millionaire is keen to buy an Elizabethan manor, she comes up against fierce opposition from a young boy, Jay, and his band of bowmen. It seems that behind a monumental, seventeenth-century carving lies a hoard of treasure.

The Falcon and the Snowman Robert Lindsey, 2018-02-20 True story about two young men from affluent families who, under the code names Falcon and Snowman, commit a brazen act of espionage, by selling some of America's most sensitive secrets to the KGB.

American Humor Constance Rourke, 2004-02-29 Stepping out of the darkness, the American emerges upon the stage of history as a new character, as puzzling to himself as to others. *American Humor*, Constance Rourke's pioneering study of the national character, singles out the archetypal figures of the Yankee peddler, the backwoodsman, and the blackface minstrel to illuminate the fundamental role of popular culture in fashioning a distinctive American sensibility. A memorable performance in its own right, *American Humor* crackles with the jibes and jokes of generations while presenting a striking picture of a vagabond nation in perpetual self-pursuit. Davy Crockett and Henry James, Jim Crow and Emily Dickinson rub shoulders in a work that inspired such later critics as Pauline Kael and Lester Bangs and which still has much to say about the America of Bob Dylan and Thomas Pynchon, Bill Clinton and George W. Bush.

On the Rocks Eric Walters, 2020-01-28 An inspiring story about the ups and downs of family. Fourteen-year-old Dylan is sent to live with his estranged grandfather, Angus. Basically strangers, the two avoid each other as best they can. One day Dylan discovers a young orca stranded high up on the rocky beach. Dylan runs to tell his grandfather. There's nothing that can be done, says Angus.

The sun is coming up, and soon the orca will die of exposure. But Dylan knows he has to try to save the whale. He collects towels to cover the delicate skin of the orca and begins transporting buckets of water from the ocean below to keep it hydrated. It's grueling work, and it will be hours before the tide comes back in and the water is high enough for the orca to swim free. Angus is moved by his grandson's determination and helps as best he can. They both desperately hope that soon the orca will be able to join its family, who have been calling out to it just offshore.

Walking with Eve in the Loved City Roy Bentley, 2018-03-01
Finalist, 2018 Miller Williams Poetry Prize Walking with Eve in the

Loved City is an ambitious collection. Using a variety of male figures—Jeff Goldblum, Ringo Starr, the poet’s uncle Billy, to name a few—these poems skillfully interrogate masculinity and its cultural artifacts, searching for a way to reconcile reverence for the father figure with a crisis of faith about the world as run by men. And yet, despite the gravity of the subjects these poems engage, this is a hopeful, frequently funny book that encourages the reader to look deeply at the world, and then to laugh if she can. Roy Bentley often accomplishes this work through a careful balancing of honesty and misdirection, as when in the poem “Can’t Help Falling in Love” the real drama of the narrative—the appearance of an affair between the speaker’s father and a drive-in restaurant carhop—operates as a backdrop for the eight-year-old speaker’s puerile attraction to the woman; or when the vampire Nosferatu (a frequent figure in the poems) materializes in a trailer park, his immortality becoming a lens through which to process the speaker’s righteous anger about wealth and poverty. God too features prominently—as does doubt. Drawing from the vernacular of his childhood, Bentley accesses the simultaneous austerity and lyrical opulence of the King James Bible to invent stories in which the last note struck is often a call to pay kinder attention. More

than anything, these poems serve as humanistic advocates, using the power of narrative—film, interview, imagination, memoir—to highlight how people matter. *Walking with Eve in the Loved City* invites the reader to join in this watching and witnessing, to take part in renewing how we see.
