Contemporary Native American Architecture Carol Herselle Krinsky,1996 Why, during the past thirty years, has there been a dramatic change in architecture by and for Native Americans? How does it reflect the revival of language and the renewal and invention of dance, music, and other performance, and the remarkable burst of creativity in Native American novels and poetry? And since architecture requires technical expertise and money, how does this change reflect alterations in the economic, legal, and political situation of American Indians in the past decades? At no other time since the European invasions have the Native nations been as determined to set their own agendas for building or been as successful in reaching their architectural goals. They now claim authority in planning what they need for modern life - office buildings, schools, clinics, religious and community structures, urban cultural centers, houses, and museums, even commercial buildings and casinos. Those agendas often include strategies for making sure that the buildings are culturally appropriate or focus on collective decisions that embody community values brought from the past to the present. In *Contemporary Native American Architecture*, Carol Herselle Krinsky examines the historical and legal background of this movement of cultural regeneration through the medium of architecture, and records responses of Native Americans to ever-changing cultural situations.

From Hobbits to Hollywood , 2006-01-01 Peter Jackson's film version of The Lord of the Rings (2001-2003) is the grandest achievement of 21st century cinema so far. But it is also linked to topical and social concerns including war, terrorism, and cultural imperialism. Its style, symbols, narrative, and structure seem always already linked to politics, cultural definition, problems of cinematic style, and the elemental mythologies that most profoundly capture our imaginations. From Hobbits to Hollywood: Essays on Peter Jackson's Lord of the Rings treats Jackson's trilogy as having two conditions of existence: an aesthetic and a political. Like other cultural artefacts, it leads a double life as objet d'art and public statement about the world, so that nothing in it is ever just cinematically beautiful or tasteful, and nothing is ever just a message or an opinion. Written by leading scholars in the study of cinema and culture From Hobbits to Hollywood gives Jackson's trilogy the fullest scholarly interrogation to date. Ranging from interpretations of The Lord of the Rings' ideological and philosophical implications, through discussions of its changing fandoms and its incorporation into the Hollywood industry of stars, technology, genre, and merchandising, to considerations of CGI effects, acting, architecture and style, the essays contained here open a new vista of criticism and light, for ardent fans of J.R.R. Tolkien, followers of Jackson, and all those who yearn for a deeper appreciation of cinema and its relation to culture.

L'Unité D'habitation David Jenkins,1993-01 The Unite d'Habitation at Marseilles is a key building of the twentieth century, and a seminal work in Le Corbusier's oeuvre. A precursor of buildings in Nantes, Berlin, Briey-en-Forêt and Firminy, it established, in built form, Le Corbusier's ideas of public housing that had existed only on paper for more than twenty-five years. David Jenkins argues that the Marseilles Unite stands out as a powerful and convincing testament of Le Corbusier's fundamental humanism and his faith in the principles of the Ville Radieuse and the Brutalist medium of rough cast concrete which in other, less able hands, have since been called into question.

The Book of Camp-Lore and Woodcraft Daniel Carter Beard,2020-09-28 ÊAs a boy, the author dreamed of wonderful municipal playgrounds, of organizations giving the boys opportunity to camp in the open, of zoological and botanical gardens planned and adapted to the understanding of youth. His busy life as a civil engineer, surveyor, and work in the open gave him no opportunity to develop his dreams, but at the end of a five year tour of the United States and Canada, made over fifty years ago, he drifted into New York City and was shocked beyond expression by the almost total lack of breathing spaces for our boys, in the greatest of American cities. True, it then had Central Park; but fifty years ago Central Park was out among the goats, only to be reached by a long and tiresome horse car journey. This lamentable state of affairs caused the writer so much real pain and concern that he then and there inaugurated a personal crusade for the benefit of the boys, a crusade with the avowed object of winning for them the peoples' interest in the big outdoors. The most difficult part of his task was to convince the men of the swivel chairs that boys' leisure should be spent in the open; that the blue sky is the only proper roof for a normal boy's playground; also that the open spaces are the places where God intended young people to live, work and play. No great crusade, no great movement of any kind is one man's work, nevertheless, every successful movement must have one enthusiast in the front rank, one who knows the trail and comprehensively envisions the objectiveÑobjectum quod complexum. Others may and will join him, and occasionally spurt ahead of the leader, like the hare in the fable, but the enthusiast keeps right on just the same. Pray do not understand by this that the writer claims that he alone is responsible for this bloodless revolution. No, no, his propaganda work did however win for him the moral support of the editorial staff of St. Nicholas, Youth's Companion and Harpers. Later he was openly backed and encouraged by such distinguished sportsmen as President Roosevelt, his chief forester Governor Pinchot, and his Chief of Staff Major General Bell. While the stalwart men of the Camp Fire Club of America worked hand and glove with him, all similar organizations failed not in voicing their approval. Furthermore he was always helped by his loyal friends of the daily press. Many famous writers lent their influence, all working consciously or unconsciously to help the great cause of boyhood.
