We Spoke Out: Comic Books and the Holocaust Rafael Medoff, Neal Adams, 2018-04-17 Crucial comic book stories about the Holocaust and interviews with their artists and writers, with a cover drawn especially for this book by Neal Adams. An amazing but forgotten chapter in comics history. Long before the Holocaust was taught in schools or presented in films such as *Schindler's List*, the youth of America was learning about the Nazi genocide from Batman, the X-Men, Captain America, and Sgt. Rock. Comics legend Neal Adams, Holocaust scholar Rafael Medoff, and comics historian Craig Yoe bring together a remarkable collection of comic book stories that introduced an entire generation to an engaging and important subject. *We Spoke Out* is an extraordinary journey into a compelling and essential topic.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Judenhass Dave Sim, 2014-12-02 I decided some time ago that the term anti-Semitism (a 'coined' term of late nineteenth century origin) is completely inadequate to the abhorrent cultural phenomenon which it attempts to describe. For one thing, Arabs are Semites as well and the prejudice as it generally understood certainly doesn't apply equally to Arabs and Jews. It was in the early stages of researching this graphic narrative that I first encountered the German term *Judenhass*. Literally, Jew-Hatred. It seemed to me that the term served to distill the ancient problem to its essence, and in such a way as to hopefully allow other non-Jews (like myself) to see the

problem 'unlaundered' and through fresh eyes. Europe and various other jurisdictions aren't experiencing a sudden upsurge in 'anti-Semitism'. What they are experiencing is an upsurge in Judenhass -- Jew-Hatred. So that's what I've chosen to call this story. - Dave Sim, Writer/Artist/Publisher

Transtopia in the Sinophone Pacific Howard Chiang, 2021-04-06 As a broad category of identity, "transgender" has given life to a vibrant field of academic research since the 1990s. Yet the Western origins of the field have tended to limit its cross-cultural scope. Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance. Defined as the antidote to transphobia, transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum. Against the backdrop of the Sinophone Pacific, Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame. At the same time, he challenges China-centrism in the study of East Asian gender and sexual configurations. Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another. Grounded in an eclectic range of sources—from the archives of sexology to press reports of intersexuality, films about castration, and records of social activism—this book reorients

anti-transphobic inquiry at the crossroads of area studies, medical humanities, and queer theory. Timely and provocative, *Transtopia in the Sinophone Pacific* highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity.
