How Do I Feel? Rebekah Lipp,2023-05-18 (PAPERBACK VERSION) Finalist in the New Zealand Children & Young Adults Books Awards 2022

Storylines Notable Books 2021 - Non-Fiction Winner #1 NZ Bestseller With 60+ definitions to help improve emotional literacy, *How Do I Feel?*, is all about helping our children learn to recognise and label emotions and feelings. Join Aroha and her friends as they share how different emotions might feel in the body and how each emotion might be helpful. This emotions dictionary is all about helping children find the words for how they truly feel. Learning to recognise and label our emotions correctly is such an important skill for life. Giving our children this language helps to build emotional literacy. It is a gift to give children the tools to know how to recognise what they truly feel and that it is okay to feel all emotions. When they know that no emotion is 'good' or 'bad' and that all emotions provide messages, then it takes away any attachment to that emotion being part of who they are. We may have experienced this ourselves being labelled 'naughty' or 'out of control' due to feeling angry a lot. However, this behaviour is just a way for a child to communicate. Diving deeper into why they are acting that way, why they may be feeling the things they are, can help us find some answers with our child. It can also help us find ways to help them empower themselves with tools to feel better. Use this book to start conversations about different emotions. If you can, give examples of things you have experienced. When you see a child experiencing an emotion, help your child label it. Are you feeling ... right now? This book can be used with children from 5 years of age up to 100+ as everyone might get something from the book. There are over 200 emotions and so we couldn't include them all in just one book, however, this book is the most extensive book about emotions for children. Paperback - full colour Pages - 142 Size - 216mm x 280mm (Landscape) Recommended Age - 5 years - 100 years+

The Lean Forward Moment Norman Hollyn,2008-12-23 In this groundbreaking book Norman Hollyn outlines his 'Lean Forward Moment Method' of storytelling that applies to all aspects of the film-making process and media production. Whether you are an editor, producer, director, cinematographer or visual effects pro, this book will provide the essential techniques you need to create engaging content that emotionally connects with your audience. The core storytelling techniques in this book, apply equally to all levels and types of film and media projects: feature films, television documentaries, fiction, web-based video games, commercials, event films and much more. As an Associate Professor at the School of

Cinematic Arts at USC and having worked on movie projects with such Hollywood greats as Alan J Pakula, Sidney Lumet and Francis Ford Coppola, Norman Hollyn is uniquely qualified to provide you with the conceptual and practical tools to tell your story effectively. After the initial formative chapters, Norman examines the filmmaking process in its three main areas - preproduction, production and postproduction. Within each area he describes how the Lean Forward method can help with every step of the creative process (setup, scene description, the script, production design, direction, cinematography, editing, opticals and special effects, music and sound). He then brings together the concepts he discusses by providing real world examples from a drama, an action film, a documentary and a commercial. Norman Hollyn uses the ancient magic of alchemy to reveal the art of making a great film. Writing an outstanding primer on filmmaking, he provides an historical perspective from several iconic movies, revealing the innermost secrets of successful filmmakers. If you want to construct a film, you need this book! - MARTIN COHEN, President of Post Production, Paramount Pictures. Norman Hollyn's *The Lean Forward Moment* speaks volumes about the art and craft of filmmaking. His elegant explanations of editorial choices and creative decisions tell the full story. It is a serious work and it will be a resource for every emerging filmmaker - IAN CALDERON, Director of Digital Initiatives, Sundance Institute. Only a film editor, with a career of experience in the cockpit of the cutting room, could so clearly and completely explain how some storytelling efforts succeed and others fail. Fortunately, Norman Hollyn is such an editor, and he has given us the gift of explanation in the richly illustrated *The Lean Forward Moment*. - BILL KINDER, Editorial and Post Production Director.
