Nathan Sommer

Nissan Z Pete Evanow,2021-07-20 Nissan Z is the officially licensed 50th anniversary history of Nissan's legendary Z family of sports cars.

Nissan Skyline GT-R Ultimate Portfolio 1969-2010 R.M. Clarke,2010-12-01 The Skyline first appeared at the 15th Tokyo Motor Show, and went on sale in February 1969. New models appeared in 1972, 1989 and 1995. January 1999 saw the arrival of the R34 Skyline GT-R and GT-R V models and when production finished in 2002, over 11,300 cars had been built and Nissan announced plans to separate the GT-R model from the Skyline name. The latest generation GT-R car appeared in the US in 2008 and had its European debut in 2009.

*Nissan 300ZX and 350Z* Brian Long,2004-05 The Datsun 240Z was a landmark in automotive history--some say the Japanese E-type Jaguar--and by the time the first generation of Z--cars came to an end in 1978, everyone around the world knew the name Datsun and that the company was serious about sports cars.

**Datsun Fairlady Roadster To 280ZX** Brian Long,2006-04 The Datsun 240Z inspired a generation of enthusiasts, outselling and outperforming almost all of its contemporaries. This book covers the full story of the Datsun sports cars, from the Fairlady roadsters through to the final 280ZX production model, illustrated throughout with contemporary material.

**Nissan GT-R** Nathan Sommer,2019-08-01 Nissan has engineered a lot of vehicles, from the Frontier truck to the electric Leaf, but perhaps its crowning achievement is the sleek GT-R. Reluctant readers can follow Nissan's history and learn about all the features that make this supercar stand out. With sidebars outlining specifications and showing off identifying qualities, this high-interest title is an exciting ride!

**Datsun/Nissan 280X & 300ZX** Brian Long,2018-10-12 The 240Z was a landmark in automotive history. By the time the first generation Z-cars came to an end in 1978, everyone around the world knew the name Datsun. Here is the full story of the ZX series from the 280ZX – introduced as the second generation Z-car in 1978 – through to the 300ZX of 1999. The 240Z and 260Z were pure

sports cars, but the 280ZX represented the evolution of the Z-car into a Grand Tourer. This evolution continued through two generations of 300ZX and the Z became a true supercar with state-of-the-art engineering features. This book contains a great deal of new information for enthusiasts in the West, as Japanese models have been covered in detail for the first time. Photographs and other illustrations have been sourced almost exclusively from the factory and therefore illustrate the cars in original detail. Datsun Z, also by Brian Long and Veloce, is a complementary book.

Z Pete Evanow, 2005 Some 35 years ago Datsun (now Nissan) introduced the 1970 Datsun 240Z sports car, emphatically disproving the perception that Japanese automakers could only produce economy cars. Designed specifically to appeal to the American market, the Z car has enjoyed long-term popularity with its sporty styling and impressive performance. Z car fans are loyal and numerous. Over 1.4 million Z cars have been sold worldwide, including 1 million-plus in the U.S. The five generations of Z cars include the latest version, the 350Z introduced in 2003, which has refueled interest in Z cars. This book will thoroughly cover the history of this breakthrough Japanese sports car,

and will include official Datsun/Nissan photography and memorabilia such as advertising and international marketing materials.

**Datsun 280Z & 280ZX** R.M Clarke,2011-10-01 Datsun's initial offerings were fairly conventional family cars, but with the introduction of the 240Z in 1969 the marque's image received a massive boost. It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.
