**The Complete Story of Sadako Sasaki** Masahiro Sasaki,Sue DiCicco,2020-04-07 \*\*Independent Publisher Book Award (IPPY) Winner\*\* \*\*Middle School Book of the Year-- Northern Lights Book Awards\*\* \*\*Skipping Stones Honor Award Winner\*\* For the first time, middle readers can learn the complete story of the courageous girl whose life, which ended through the effects of war, inspired a worldwide call for peace. In this book, author Sue DiCicco and Sadako's older brother Masahiro tell her complete story in English for the first time--how Sadako's courage throughout her illness inspired family and friends, and how she became a symbol of all people, especially children, who suffer from the impact of war. Her life and her death carry a message: we must have a wholehearted desire for peace and be willing to work together to achieve it. Sadako Sasaki was two years old when the atomic bomb was dropped on her city of Hiroshima at the end of World War II. Ten years later, just as life was starting to feel almost normal again, this athletic and enthusiastic girl was fighting a war of a different kind. One of many children affected by the bomb, she had contracted leukemia. Patient and determined, Sadako set herself the task of folding 1000 paper cranes in the hope that her wish to be made well again would be granted. Illustrations and personal family photos give a glimpse into Sadako's life and the horrors of war. Proceeds from this book are shared equally between The Sadako Legacy NPO and The Peace Crane Project.

**Sadako and the Thousand Paper Cranes (Puffin Modern Classics)** Eleanor Coerr,2004-04-12 "An extraordinary book, one no reader will fail to find compelling and unforgettable." —Booklist, starred review The star of her school's running team, Sadako is lively and athletic...until the dizzy spells start. Then she must face the hardest race of her life—the race against time. Based on a true story, Sadako and the Thousand Paper Cranes celebrates the courage that makes one young woman a heroine in Japan. [The] story speaks directly to young readers of the tragedy of Sadako's death and, in its simplicity, makes a universal statement for 'peace in the world.' —The Horn Book The story is told tenderly but with neither a morbid nor a sentimental tone: it is direct and touching. —BCCB

**Introductory Grammar of Amharic** Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as

for the general linguist.

**Profiles in Operations Research** Arjang A. Assad, Saul I. Gass, 2011-06-28 Profiles in Operations Research: Pioneers and Innovators recounts the development of the field of Operations Research (OR), the science of decision making. The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations. Over the past six decades, OR analyses have impacted our daily lives: when making an airline or hotel reservation, waiting in line at a bank, getting the correctly blended fuel at the gas station, and ensuring that the book you are holding arrived at its destination on time. OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft. During World War II, similar applied research groups were formed to study, test, and evaluate military operations on both sides of the Atlantic. Their work resulted in great improvements—OR helped the Allies win the war. The scientific field that emerged from these studies was

called operational research in the U.K. and operations research in the U.S. Today, OR provides a broad and powerful science to aid decision making. Profiles describes the lives and contributions of 43 OR pioneers and innovators and relates how these individuals, with varying backgrounds and diverse interests, were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals—interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines. The Editors: Arjang A. Assad is Dean of the School of Management, University at Buffalo, State University of New York. Saul I. Gass is Professor Emeritus, Department of Decision, Operations & Information Technologies, Smith School of Business, University of Maryland, College Park. From the Reviews Profiles In Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings: U.K. OR Society's e-journal, Inside OR., Sept 2011. I can thoroughly recommend this book. I found it both enlightening and undeniably gripping, so much so in fact, you may find it difficult to put it down once you have commenced reading it. Arjang A. Assad and Saul I. Gass have created a masterwork which will serve to immortalise [sic] the pioneers of O.R. for many years to come. \*For a list of all known typos, plus further discussion on the book, please visit <http://profilesinoperationsresearch.com>.

Includes a comprehensive list of 5th RCT unit casualties and Korean Ex-Prisoners of War. Indexed for easy referencing. Foreword written by Ltgen Alpha Bowser, G-3, 1st Marine Division, Korea 1950-1951. Much of the information in this book about the Korean War has never before been published. Hills of Sacrifice is a magnificent history of 'Hawaii's own', the 5th RCT during the Korean War. It will be widely read, and deserves to be. -- Governor Benjamin J. Cayetano, State of Hawaii At last, after 49 years, the best and most definitive book on infantry combat at the bayonet level in Korea. It grips the reader into the firestorm, fury, terror and grief of it all. Hills of Sacrifice is deeply researched, grimly detailed, personalized historiography of battlefield infantry action by American 'grunts' fighting

determined North Korean and Chinese soldiers. This superb book is not for the faint-hearted. Graphic descriptions of the bloody details of close-in grunt infantry battle and the love of soldiers for one another. -- LTGEN Harold G. Moore A hell of a read! Hills of Sacrifice explodes like a hand grenade and is riveting combat reportage. It's the most detailed account of the bloody Korean War that I have read. The reader is there in the trenches, with the Grunts, stopping massed attacks or storming enemy held hills. The 5th RCT was a great regiment, with top leaders, brave warriors, and this remarkable book captures their gallantry and sacrifice dead on target. A must read for anyone wanting to know the Grunt's heroic story from the Korean War and how a gallant regiment became the Fire Brigad of the KoreanWar. -- COL David H. Hackworth
