**Nosferatu** Christopher Wolf,2010-10-15 Nosferatu is a dark, edgy tale inspired by the film of the same name. This modern spin on the timeless horror story follows Tommy and her roommate Elle as the nefarious vampire Count Orlok draws them into his obsession with death and disease. Old-world magic combines with technology and terror alerts when Orlok, the Nosferatu, pays our shores a visit.

Weimar Cinema Noah William Isenberg,2009 In this comprehensive companion to Weimar cinema, chapters address the technological advancements of each film, their production and place within the larger history of German cinema, the style of the director, the actors and the rise of the German star, and the critical reception of the film.

Vampire Legends in Contemporary American Culture William Patrick Day,2014-07-11 While vampire stories have been part of popular culture since the beginning of the nineteenth century, it has been in recent decades that they have become a central part of American culture. Vampire Legends in Contemporary American Culture looks at how vampire stories -- from Bram Stoker's Dracula to Blacula, from Bela Lugosi's films to Love at First Bite -- have become part of our ongoing debate about what it means to be human. William Patrick Day looks at how writers and filmmakers as diverse as Anne Rice and Andy Warhol present the vampire as an archetype of human identity, as well as how many post-modern vampire stories reflect our fear and attraction to stories of addiction and violence. He argues that contemporary stories use the character of Dracula to explore modern values, and that stories of vampire slayers, such as the popular television series Buffy the Vampire Slayer, integrate current feminist ideas and the image of the Vietnam veteran into a new heroic version of the vampire story.

**Reading the Vampire** Ken Gelder,2002-08-27 Insatiable bloodlust, dangerous sexualities, the horror of the undead, uncharted Transylvanian wildernesses, and a morbid fascination with the 'other': the legend of the vampire continues to haunt popular imagination. Reading the Vampire examines the vampire in all its various manifestations and cultural meanings. Ken Gelder investigates vampire narratives in literature and in film, from early vampire stories like Sheridan Le Fanu's 'lesbian vampire' tale Carmilla and Bram Stoker's Dracula, the most famous vampire narrative of all, to contemporary American vampire blockbusters by Stephen King and others, the vampire chronicles of Anne Rice, 'post-Ceausescu' vampire narratives, and films such as FW Murnau's Nosferatu and Bram Stoker's Dracula. Reading the Vampire embeds vampires in their cultural contexts, showing vampire narratives feeding off the anxieties and fascinations of their times: from the nineteenth century perils of tourism, issues of colonialism and national identity, and obsessions with sex and death, to the 'queer' identity of the vampire or current vampiric metaphors for dangerous exchanges of bodily fluids and AIDS.

**Dracula** Bram Stoker,1982-04-12 String garlic by the window and hang a cross around your neck! The most powerful vampire of all time returns in our Stepping Stone Classic adaption of the original tale by Bran Stoker. Follow Johnathan Harker, Mina Harker, and Dr. Abraham van Helsing as they discover the true nature of evil. Their battle to destroy Count Dracula takes them from the crags of his castle to the streets of London... and back again.

Deleuze and Cinema Felicity Colman,2011-06-01 Gilles Deleuze published two radical books on film: Cinema 1: The Movement-Image and Cinema 2: The Time-Image. Engaging with a wide range of film styles, histories and theories, Deleuze's writings treat film as a new form of philosophy. This ciné-philosophy offers a startling new way of understanding the complexities of the moving image, its technical concerns and constraints as well as its psychological and political outcomes. Deleuze and Cinema presents a step-by-step guide to the key concepts behind Deleuze's revolutionary theory of the cinema. Exploring ideas through key directors and genres, Deleuze's method is illustrated with examples drawn from American, British, continental European, Russian and Asian cinema. Deleuze and Cinema provides the first introductory guide to Deleuze's radical methodology for screen analysis. It will be invaluable for students and teachers of Film, Media and Philosophy.

**Gender and Sexuality in Latin American Horror Cinema** Gustavo Subero,2016-05-20 Gender and Sexuality in Latin American Horror Cinema explores the different mechanisms and strategies through which horror films attempt to reinforce or contest gender relations and issues of sexual identity in the continent. The book explores issues of machismo, marianismo, homosociality, bromance, among others through the lens of horror narratives and, especially, it offers an analysis of monstrosity and the figure of the monster as an outlet to play out socio-sexual anxieties in different societies or gender groups. The author looks at a wide range of films from countries such as Cuba, Peru, Mexico and Argentina and draws points of commonality, as well as comparing essential differences, between the way that horror fictions – considered by many as low-brow cinema – can be effective to delve into the way that sexuality and gender operates and circulates in the popular imaginary in these regions.

*Weimar Cinema and After* Thomas Elsaesser,2013-04-15 German cinema of the 1920s is still regarded as one of the 'golden ages' of world cinema. Films such as The Cabinet of Dr Caligari, Dr Mabuse the Gambler, Nosferatu, Metropolis, Pandora's Box and The Blue Angel have long been canonised as classics, but they are also among the key films defining an image of Germany as a nation uneasy with itself. The work of directors like Fritz Lang, F.W. Murnau and G.W. Pabst, which having apparently announced the horrors of fascism, while testifying to the traumas of a defeated nation, still casts a long shadow over cinema in Germany, leaving film history and political history permanently intertwined. Weimar Cinema and After offers a fresh perspective on this most 'national' of national cinemas, re-evaluating the arguments which view genres and movements such as 'films of the fantastic', 'Nazi Cinema', 'film noir' and 'New German Cinema' as typically German contributions to twentieth century visual culture. Thomas Elsaesser questions conventional readings which link these genres to romanticism and expressionism, and offers new approaches to analysing the function of national cinema in an advanced 'culture industry' and in a Germany constantly reinventing itself both geographically and politically. Elsaesser argues that German cinema's significance lies less in its ability to promote democracy or predict fascism than in its contribution to the creation of a community sharing a 'historical imaginary' rather than a 'national identity'. In this respect, he argues, German cinema anticipated some of the problems facing contemporary nations in reconstituting their identities by means of media images, memory, and invented traditions.

**The Art of Watching Films** Joseph M. Boggs,Dennis W. Petrie,2008 Accompanying CD-ROM provides short film clips that reinforce the key concepts and topics in each chapter.

**Dracula in Visual Media** John Edgar Browning,Caroline Joan (Kay) Picart,2014-01-10 This is a comprehensive sourcebook on the world's most famous vampire, with more than 700 citations of domestic and international Dracula films, television programs, documentaries, adult features, animated works, and video games, as well as nearly a thousand comic books and stage adaptations. The book includes contributions from Dacre Stoker, David J. Skal, Laura Helen Marks, Dodd Alley, Mitch Frye, Ian Holt, Robert Eighteen-Bisang, and J. Gordon Melton.

**The Horror Sensorium** Angela Ndalianis,2012-09-19 Horror films, books and video games engage their audiences through combinations of storytelling practices, emotional experiences, cognitive responses and physicality that ignite the sensorium--the sensory mechanics of the body and the intellectual and cognitive functions connected to them. Through analyses of various mediums, this volume explores how the horror genre affects the mind and body of the spectator. Works explored include the films 28 Days Later and Death Proof, the video games Resident Evil 4 and Doom 3, the theme park ride The Revenge of the Mummy, transmedia

experiences associated with *The Dark Knight* and *True Blood*, and paranormal romance novels featuring Anita Blake and Sookie Stackhouse. By examining how these diverse media generate medium-specific corporeal and sensory responses, it reveals how the sensorium interweaves sensory and intellectual encounters to produce powerful systems of perception.

**Shell Shock Cinema** Anton Kaes, 2009-08-24 *Shell Shock Cinema* explores how the classical German cinema of the Weimar Republic was haunted by the horrors of World War I and the devastating effects of the nation's defeat. In this exciting new book, Anton Kaes argues that masterworks such as *The Cabinet of Dr. Caligari*, *Nosferatu*, *The Nibelungen*, and *Metropolis*, even though they do not depict battle scenes or soldiers in combat, engaged the war and registered its tragic aftermath. These films reveal a wounded nation in post-traumatic shock, reeling from a devastating defeat that it never officially acknowledged, let alone accepted. Kaes uses the term shell shock--coined during World War I to describe soldiers suffering from nervous breakdowns--as a metaphor for the psychological wounds that found expression in Weimar cinema. Directors like Robert Wiene, F. W. Murnau, and Fritz Lang portrayed paranoia, panic, and fear of invasion in films peopled with serial killers, mad scientists, and troubled young men. Combining original close textual analysis with extensive archival research, Kaes shows how this post-traumatic cinema of shell shock transformed extreme psychological states into visual expression; how it pushed the limits of cinematic representation with its fragmented story lines, distorted perspectives, and stark lighting; and how it helped create a modernist film language that anticipated film noir and remains incredibly influential today. A compelling contribution to the cultural history of trauma, *Shell Shock Cinema* exposes how German film gave expression to the loss and acute grief that lay behind Weimar's sleek façade.

**Dark Places** Barry Curtis, 2009-02-15 Horror films revel in taking viewers into shadowy places where the evil resides, whether it is a house, a graveyard or a dark forest. These mysterious spaces foment the terror at the heart of horror movies, empowering the ghastly creatures that emerge to kill and torment. With *Dark Places*, Barry Curtis leads us deep inside these haunted spaces to explore them – and the monstrous antagonists who dwell there. In this wide-ranging and compelling study, Curtis demonstrates how the claustrophobic interiors of haunted spaces in films connect to the ‘dark places’ of the human psyche. He examines diverse topics such as the special effects – ranging from crude to state-of-the-art – used in movies to evoke supernatural creatures; the structures, projections and architecture of horror movie sets; and ghosts as symbols of loss, amnesia, injustice and vengeance. *Dark Places* also examines the reconfiguration of the haunted house in film as a motel, an apartment, a road or a spaceship, and how these re-imagined spaces thematically connect to Gothic fictions. Curtis draws his examples from numerous iconic films – including *Nosferatu*, *Psycho*, *The Texas Chainsaw Massacre* and *The Shining* – as well as lesser-known international works, which allow him to consider different cultural ideas of ‘haunting’. Japanese horror films and their Hollywood remakes – such as *Ringu* and *The Ring*, or *Juon* and *The Grudge* – come under particular scrutiny, as he explores Japanese cinema’s preoccupation with malevolent forces from the past. Whether you love the splatter of blood or prefer to hide under the couch, *Dark Places* cuts to the heart of why we are drawn to carnage.

**German Film & Literature** Eric Rentschler, 2013-10-15 First Published in 1986. This collection of essays by an international team of scholars is the first sustained investigation in any language of the historical interactions between German film and literature. It is a book about adaptations and transformations, about why filmmakers adapt certain material at certain times. The major impetus at work is the desire to expand the field of adaptation study to include sociological, theoretical and historical dimensions, and to bring a livelier regard for intertextuality to the studies of German film and literature. It is concerned with the ways in which filmmakers in Germany- from Pabst and von Sternberg to Fassbinder, Herzog and Sanders-Brahms- have engaged and been engaged by, literary history.

**Guide to the Sabbat** Justin Achilli, Jess Heinig, 1999-03 What are we? The Damned childer of caine? The grotesque lords of humanity? The pitiful wretches of eternal hell? We are vampires, and that is enough. I am a vampire, and that is far more than enough. I am that which must be feared, worshipped and adored. The world is mine -- now and forever. No one holds command over me. No man. No god. No prince. What is a claim of age for ones who are immortal? What is a claim of power for ones who defy death? Call your damnable hunt. We shall see whom I drag screaming to hell with me. The *Guide to the Sabbat* examines the Sabbat exhaustively from the antitribu, or anti-clans, that populate its ranks, to the terrifying Disciplines they use, to their methods of waging war on the Camarilla and Antediluvians alike. This book also explores the Sabbat's progress in its war effort, chronicling the Cainites' inexorable spread across the East Coast and back to their usurped territories in the Old World.
