The Brazilian Jiu Jitsu Globetrotter Christian Graugart, 2012-11-13 I didn't care about what would happen. He might win the match, but he could never beat me. I was living my dream, traveling the world with complete freedom. Nothing could put me down. The play button was pressed again. My opponent took my back and I tapped to a bow and arrow choke. I laughed and shook his hand, as I stood back up. I was out of the competition. Everything was perfect. Life couldn't be better. After a training partner commits suicide, Christian Graugart feels obliged to do something with his life. Starting his own gym, dedicating almost all his time to the art of BJJ, alters everything, including the way he sees himself. The Brazilian Jiu Jitsu Globetrotter is not only a story about traveling and training in martial arts. It's about all the things that can happen to you if you choose to truly stay alive until you actually die.

Nuaulu Religious Practices Roy F. Ellen, 2012-01-01 How religious practices are reproduced has become a major theoretical issue. This work examines data on Nuaulu ritual performances collected over a 30 year period, comparing different categories of event in terms of frequency and periodicity. It seeks to identify the influencing factors and the consequences for continuity. Such an approach enables a focus on related issues: variation in performance, how rituals change in relation to material and social conditions, the connections between different ritual types, the way these interact as cycles, and the extent to which fidelity of transmission is underpinned by a common model or repertoire of elements. This monograph brings to completion a long-term study of the religious behaviour of the Nuaulu, a people of the island of Seram in the Indonesian province of Maluku. Ethnographically, it is important for several reasons: the Nuaulu are one of the few animist societies remaining on Seram; the data emphasize patterns of practices in a part of Indonesia where studies have hitherto been more concerned with meaning and symbolic classification; and because Nuaulu live in an area where recent political tension has been between Christians and Muslims. Nuaulu are, paradoxically, both caught between these two groups, and apart from them.

A Grammar of the Hittite Language Harry A. Hoffner Jr.,H. Craig Melchert,2008-06-23 Hoffner and Melchert's long-awaited work is sure to become both the standard reference grammar and the main teaching tool for the Hittite language. The first volume includes a thorough description of Hittite grammar, grounded in an abundance of textual examples. Moreover, the authors take into account a vast array of studies on all aspects of the Hittite language. In the five decades since the publication of the second edition of Johannes Friedrich's Hethitisches Elementarbuch (1960), our knowledge of Hittite grammar has become more detailed and nuanced, especially because of the number of new texts available and the growing body of secondary literature. This first volume in the LANE series fills a serious gap and offers a comprehensive reference for decades to come. The second volume is a tutorial that consists of a series of graded lessons with illustrative sentences for the student to translate. The tutorial is keyed to the reference grammar and provides extensive notes. The printed grammar volume is accompanied by a CD-ROM that contains the entire text of the grammar and tutorial in searchable, cross-referenced, and hyperlinked form.

Food Safety and Informal Markets Kristina Roesel,Delia Grace,2014-10-03 Animal products are vital components of the diets and livelihoods of people across sub-Saharan Africa. They are frequently traded in local, unregulated markets and this can pose significant health risks. This volume presents an accessible overview of these issues in the context of food safety, zoonoses and public health, while at the same time maintaining fair and equitable livelihoods for poorer people across the continent. The book includes a review of the key issues and 25 case studies of the meat, milk, egg and fish food sectors drawn from a wide range of countries in East, West and Southern Africa, as part of the Safe Food, Fair Food project. It describes a realistic analysis of food safety risk by developing a methodology of 'participatory food safety risk assessment', involving small-scale producers and consumers in the process of data collection in a data-poor environment often found in developing countries. This approach aims to ensure market access for poor producers, while adopting a realistic and pragmatic strategy for reducing the risk of food-borne diseases for consumers.

The Childes Project Brian MacWhinney,1995-02-01 Language research thrives on data collected from spontaneous interactions in naturally occurring situations. However, the process of collecting, transcribing, and analyzing naturalistic data can be extremely time-consuming and often unreliable. This book describes three basic tools for language analysis of transcript data by computer that have been developed in the context of the Child Language Data Exchange System (CHILDES) project. These are: the CHAT transcription and coding format, the CLAN package of analysis programs, and the CHILDES database. These tools have brought about significant changes in the way research is conducted in the child language field. They are being used with great success by researchers working with second language learning, adult conversational interactions, sociological content analyses, and language recovery in aphasia, as well as by students of child language development. The tools are widely applicable, although this book concentrates on their use in the child language field, believing

that researchers from other areas can make the necessary analogies to their own topics. This thoroughly revised 2nd edition includes documentation on a dozen new computer programs that have been added to the basic system for transcript analysis. The most important of these new programs is the CHILDES Text Editor (CED) which can be used for a wide variety of purposes, including editing non-Roman orthographies, systematically adding codes to transcripts, checking the files for correct use of CHAT, and linking the files to digitized audio and videotape. In addition to information on the new computer programs, the manual documents changed the shape of the CHILDES/BIB system--given a major update in 1994--which now uses a new computer database system. The documentation for the CHILDES transcript database has been updated to include new information on old corpora and information on more than a dozen new corpora from many different languages. Finally, the system of CHAT notations for file transcript have been clarified to emphasize the ways in which the codes are used by particular CLAN programs. The new edition concludes with a discussion of new directions in transcript analysis and links between the CHILDES database and other developments in multimedia computing and global networking. It also includes complete references organized by research topic area for the more than 300 published articles that have made use of the CHILDES database and/or the CLAN programs. LEA also distributes the CLAN programs and the complete CHILDES Database--including corpora from several languages and discourse situations--described in The CHILDES Project. Be sure to choose the correct platform (IBM or Macintosh) for the CLAN programs; the CHILDES Database CD-ROM runs on both platforms.

Ways of Baloma Mark S. Mosko, 2017 Bronislaw Malinowski's path-breaking research in the Trobriand Islands shaped much of modern anthropology's disciplinary paradigm. Yet many conundrums remain. For example, Malinowski asserted that baloma spirits of the dead were responsible for procreation but had limited influence on their living descendants in magic and other matters, claims largely unchallenged by subsequent field investigators, until now. Based on extended fieldwork at Omarakana village--home of the Tabalu Paramount Chief--Mark S. Mosko argues instead that these and virtually all contexts of indigenous sociality are conceived as sacrificial reciprocities between the mirror worlds that baloma and humans inhabit. Informed by a synthesis of Strathern's model of dividual personhood and L vy-Bruhl's theory of participation, Mosko upends a century of discussion and debate extending from Malinowski to anthropology's other leading thinkers. His account of the intimate interdependencies of humans and spirits in the cosmic generation and coordination of life (momova) and death (kaliga) strikes at the nexus of anthropology's received wisdom, and *Ways of Baloma* will inevitably lead practitioners and students to reflect anew on the discipline's multifold theories of personhood, ritual agency, and sociality.
