*Twelve Years a Slave* Solomon Northup,2024-01-04 Filmatized  
in 2013 and the official recipient of three Oscars, Solomon  
Northup's powerful slave narrative 'Twelve Years a Slave' depicts  
Nortup's life as he is sold into slavery after having spent 32 years  
of his life living as a free man in New York. Working as a travelling  
musician, Northup goes to Washington D.C, where he is  
kidnapped, sent to New Orleans, and sold to a planter to suffer the  
relentless and brutal life of a slave. After a dozen years, Northup  
escapes to return to his family and pulls no punches, as he  
describes his fate and that of so many other black people at the  
time. It is a harrowing but vitally important book, even today. For  
further reading on this subject, try 'Uncle Tom's Cabin' by Harriet  
Beecher Stowe. Solomon Northup (c.1807-c.1875) was an  
American abolitionist and writer, best remembered for his powerful  
race memoir 'Twelve Years a Slave'. At the age of 32, when he  
was a married farmer, father-of-three, violinist and free-born man,  
he was kidnapped in Washington D.C and shipped to New  
Orleans, sold to a planter and enslaved for a dozen years. When  
he gained his freedom, he wrote his famous memoir and spent

some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

#### Review of Maritime Transport 2018 United Nations, 2019-01-31

The Review of Maritime Transport is an UNCTAD flagship publication, published annually since 1968 with 2018 marking the 50 year anniversary. Around 80 per cent of the volume of international trade in goods is carried by sea, and the percentage is even higher for most developing countries. The Review of Maritime Transport provides an analysis of structural and cyclical changes affecting seaborne trade, ports and shipping, as well as an extensive collection of statistical information.

#### **Report on Caffeine** United States. Food and Drug

Administration, 1980 Abstract: Recent research on caffeine--its metabolism, teratogenic properties, and relationship to problems in pregnancy--are presented in a report to the Food and Drug Administration. Animal studies demonstrate the health implications of excessive caffeine consumption during gestation. Human

epidemiologic data is extensively reviewed and found inadequate in assessing and association between caffeine exposure and fetal abnormalities. Further studies of the biologic effects of caffeine in humans are recommended.
