**On Becoming a Leader** Warren Bennis,2009-03-03 A timeless classic from a pioneer in the field of leadership studies-the only book you need to read on becoming an effective leader. Warren Bennis (1925-2014) was a pioneer in leadership studies, a scholar who advised presidents and business executives alike on how to become successful leaders. *On Becoming a Leader* is his seminal work, exemplifying Bennis's core belief that leaders are not born-they are made. In a world increasingly defined by turbulence and uncertainty, the call to leadership is more urgent than ever. Providing essential and timeless insights for generations of readers, *On Becoming a Leader* delves into the qualities that define leadership, the people who exemplify it, and the strategies that anyone can apply to achieve it. Fundamentals of Spacecraft Attitude Determination and Control F. Landis Markley, John L. Crassidis, 2014-05-31 This book explores topics that are central to the field of spacecraft attitude determination and control. The authors provide rigorous theoretical derivations of significant algorithms accompanied by a generous amount of qualitative discussions of the subject matter. The book documents the development of the important concepts and methods in a manner accessible to practicing engineers, graduate-level engineering students and applied mathematicians. It includes detailed examples from actual mission designs to help ease the transition from theory to practice and also provides prototype algorithms that are readily available on the author's website. Subject matter includes both theoretical derivations and practical implementation of spacecraft attitude determination and control systems. It provides detailed derivations for attitude kinematics and dynamics and provides detailed description of the most widely used attitude parameterization, the quaternion. This title also provides a thorough treatise of attitude dynamics including Jacobian elliptical functions. It is the first known book to provide detailed derivations and explanations of state attitude determination and gives readers real-world examples from actual working spacecraft missions. The subject matter is chosen to fill the void of existing textbooks and treatises, especially in state and dynamics attitude determination. MATLAB code of all examples will be provided through an external website.

**Reel Time** Robert Morris Seiler, Tamara Palmer Seiler, 2013 In this authoritative work, Seiler and Seiler argues that the establishment and development of moviegoing and movie exhibition in Prairie Canada is best understood in the context of changing late-nineteenth-century and early-twentieth-century social, economic, and technological developments. From the first entrepreneurs who attempted to lure customers in to movie exhibition halls, to the digital revolution and its impact on moviegoing, *Reel Time* highlights the pivotal role of amusement venues in shaping the leisure activities of working- and middle-class people across North America. As marketing efforts, the lavish interiors of the movie palace and the romantic view of the local movie theatre concealed a competitive environment in which producers, exhibitors, and distributors tried to monopolize the industry and drive their rivals out of business. The pitched battles and power struggles between national movie theatre chains took place at the same time that movie exhibitors launched campaigns to reassure moviegoers that theatres were no longer the unclean and immoral places of amusement of yesteryear. Under the leadership of impresarios, the movie theatre rose up from these attacks to become an important social and cultural centre - one deemed suitable for women and children. An innovative examination of moviegoing as a social practice and movie exhibition as a commercial enterprise, *Reel Time* depicts how the industry shaped the development of the Canadian Prairie West and propelled the region into the modern era. Robert M. Seiler is associate professor emeritus in communication and culture at the University of Calgary. Tamara P. Seiler is professor emeritus of Canadian studies at the University of Calgary. *Reel Time* is their

second joint publication.

**A Study of Jewish Refugees in China (1933-1945)** Guang Pan, 2019-09-12 This book comprehensively discusses the topic of Jews fleeing the Holocaust to China. It is divided into three parts: historical facts; theories; and the Chinese model. The first part addresses the formation, development and end of the Jewish refugee community in China, offering a systematic review of the history of Jewish Diaspora, including historical and recent events bringing European Jews to China; Jewish refugees arriving in China: route, time, number and settlement; the Jewish refugee community in Shanghai; Jewish refugees in other Chinese cities; the Final Solution for Jewish refugees in Shanghai and the “Designated Area for Stateless Refugees”; friendship between the Jewish refugees and the local Chinese people; the departure of Jews and the end of the Jewish refugee community in China. The second part provides deeper perspectives on the Jewish refugees in China and the relationship between Jews and the Chinese. The third part explores the Chinese model in the history of Jewish Diaspora, focusing on the Jews fleeing the Holocaust to China and compares the Jewish refugees in China with those in other parts of the world. It also introduces the Chinese model concept and presents the five features of the model.

**Maritime Cybersecurity** Steven D Shepard, PhD, Gary C Kessler, PhD, 2020-09-02 The maritime industry is thousands of years old. The shipping industry, which includes both ships and ports, follows practices that are as old as the industry itself, yet relies on decades-old information technologies to protect its assets. Computers have only existed for the last 60 years and computer networks for 40. Today, we find an industry with rich tradition, colliding with new types of threats, vulnerabilities, and exposures. This book explores cybersecurity aspects of the maritime transportation sector and the threat landscape that seeks to do it harm.

Managing People is Like Herding Cats Warren Bennis, 1999 Cats of course, won't be herded. And the most successful organizations in the 21st Century won't be managed -- they'll be led. The answer to America's current leadership crisis is leaders (not managers) who recognize that the only capital that really counts is human capital And whether readers are looking for a leader or looking to be a better one, Warren knows what it takes.

In answer to the leadership crisis, Bennis offers insight into developing leaders and their competencies, by explaining ten traits of dynamic leaders, and how these leaders constantly reinvent themselves. The 21st century will require leaders who can inspire and orchestrate change rather than impose it or simply react to it. The section on Leading Change will, in itself, make this a must-have book.

**The Ancient Egyptian Language** James P. Allen, 2013-07-11  
The first comprehensive study of how the phonology and grammar of ancient Egyptian changed over four millennia of language history.

*Greater Syria* Daniel Pipes, 1992-03-26 While for many years scholars and journalists have focused on the more obvious manifestations of political life in the Middle East, one major theme has been consistently neglected. This is Pan-Syrian nationalism--the dream of creating a Greater Syria out of an area now governed by Syria, Lebanon, Israel, Jordan, and Turkey. Though not nearly as well known as Arab or Palestinian nationalism and hardly studied in depth, Pan-Syrianism has had a profound effect on Middle Eastern politics since the end of World War I. In *Greater Syria*, the noted Middle East scholar Daniel Pipes provides the first comprehensive account of this intriguing, important, and little understood ideology.

*Spacecraft Attitude Determination and Control* J.R. Wertz, 2012-12-06 Roger D. Werking Head, Attitude Determination and Control Section National Aeronautics and Space Administration/ Goddard Space Flight Center Extensive work has been done for many years in the areas of attitude determination, attitude prediction, and attitude control. During this time, it has been difficult to obtain reference material that provided a comprehensive overview of attitude support activities. This lack of reference material has made it difficult for those not intimately involved in attitude functions to become acquainted with the ideas and activities which are essential to understanding the various

aspects of spacecraft attitude support. As a result, I felt the need for a document which could be used by a variety of persons to obtain an understanding of the work which has been done in support of spacecraft attitude objectives. It is believed that this book, prepared by the Computer Sciences Corporation under the able direction of Dr. James Wertz, provides this type of reference. This book can serve as a reference for individuals involved in mission planning, attitude determination, and attitude dynamics; an introductory textbook for students and professionals starting in this field; an information source for experimenters or others involved in spacecraft-related work who need information on spacecraft orientation and how it is determined, but who have neither the time nor the resources to pursue the varied literature on this subject; and a tool for encouraging those who could expand this discipline to do so, because much remains to be done to satisfy future needs.

**A Manual of Pahlavi** Henrik Samuel Nyberg, 1964

**Ukrainian Nationalists and the Holocaust** John-Paul

Himka, 2021-09-21 One quarter of all Holocaust victims lived on the territory that now forms Ukraine, yet the Holocaust there has not received due attention. This book delineates the participation of the Organization of Ukrainian Nationalists (OUN) and its armed force, the Ukrainian Insurgent Army (Ukrainska povstanska armia—UPA), in the destruction of the Jewish population of Ukraine under German occupation in 1941–44. The extent of OUN and UPA's culpability in the Holocaust has been a controversial issue in Ukraine and within the Ukrainian diaspora as well as in Jewish communities and Israel. Occasionally, the controversy has broken into the press of North America, the EU, and Israel. Triangulating sources from Jewish survivors, Soviet investigations, German documentation, documents produced by OUN itself, and memoirs of OUN activists, it has been possible to establish that: OUN militias were key actors in the anti-Jewish violence of summer 1941; OUN recruited for and infiltrated police formations that provided indispensable manpower for the Germans' mobile killing units; and in 1943, thousands of these policemen deserted from German service to join the OUN-led nationalist insurgency, during which UPA killed Jews who had managed to survive the major liquidations of 1942.
