Hokusai Seiji Nagata, Hokusai Katsushika, 1999 An introduction to the life and art of Japan's famous artist export, Hokusai, written by the curator of the Ota Memorial Museum in Tokyo. The book contains a commentary on the artist's life and work, and details outlining composition and technique. Hokusai is perhaps the Asian artist best known in the West. His influence has extended from the Impressionists to later modern art and even to commercial design. A few of his works are so frequently reproduced that they are almost as familiar as the face of the Mona Lisa. Yet the Great Wave' and the 'Red Fuji' from the'

City of Ulysses Teolinda Gersão, 2017-06-23 A man and a woman meet in Lisbon and fall in love. City of Ulysses is their story, and the city's love story besides. It is a story

that leads readers down multiple paths, through myth and history, reality and fantasy, literature and the visual arts, the past and the present, male and female relations, the crisis of civilisation and the need to reimagine the world.

Destruction and Conservation of Cultural Property R Layton, P Stone, J Thomas, 2003-09-02 In 1991 the mosque at Ayodhya in India was demolished by Hindu fundamentalists who claim that it stood on the birthplace of a legendary Hindu hero. During recent conflicts in former Yugoslavia, ethnic groups destroyed mosques and churches to eliminate evidence of long-term settlement by other communities. Over successive centuries, however, a single building in Cordoba functioned as a mosque, a church and a synagogue. The Roman Emperor Diocletian's Palace in Split is occupied today by shops and residential apartments. What circumstances have led to the survival and reinterpretation of some monuments, but the destruction of others? This work asks whether the idea of world heritage is an essential mechanism for the protection of the world's cultural and natural heritage, or whether it subjugates a diversity of cultural traditions to specifically Western ideas. How far is it acceptable for one group of people to comment upon, or intercede in, the way in which another community treats the remains which it claims as its own? What are the responsibilities of multinational corporations and non-governmental organisations operating in the Developing World? Who actually owns the past: the landowner, indigenous people, the State or humankind?

Mighty Fitz Michael Schumacher, 2008-12-01 The disappearance of the Edmund Fitzgerald remains one of the great unsolved mysteries in maritime history. Michael Schumacher relays in vivid detail the story of the Edmund Fitzgerald, its many productive years on the waters of the

Great Lakes, its tragic demise, the search effort and investigation, as well as the speculation and the controversy that followed in the wake of the disaster. Michael Schumacher is the author of six books. He has written 25 documentaries on Great Lakes shipwrecks, including three about the Edmund Fitzgerald. In his ballad, Mr. Lightfoot sang about the Fitz's final tense moments, when the waves turn minutes to hours: Now the hours have lengthened into years and years into decades-but the allure of this doomed ship and its missing men remains as strong as ever.-Wall Street Journal

Museum Theory Andrea Witcomb, Kylie Message, 2020-04-06 MUSEUM THEORY EDITED BY ANDREA WITCOMB AND KYLIE MESSAGE Museum Theory offers critical perspectives drawn from a broad range of disciplinary and intellectual traditions. This volume describes and challenges previous ways of understanding museums and their relationship to society. Essays written by scholars from museology and other disciplines address theoretical reflexivity in the museum, exploring the contextual, theoretical, and pragmatic ways museums work, are understood, and are experienced. Organized around three themes—Thinking about Museums, Disciplines and Politics, and Theory from Practice/Practicing Theory—the text includes discussion and analysis of different kinds of museums from various, primarily contemporary, national and local contexts. Essays consider subjects including the nature of museums as institutions and their role in the public sphere, cutting-edge museum practice and their connections with current global concerns, and the links between museum studies

and disciplines such as cultural studies, anthropology, and history.

How Language Began David McNeill, 2012-08-30

Human language is not the same as human speech. We use gestures and signs to communicate alongside, or instead of, speaking. Yet gestures and speech are processed in the same areas of the human brain, and the study of how both have evolved is central to research on the origins of human communication. Written by one of the pioneers of the field, this is the first book to explain how speech and gesture evolved together into a system that all humans possess. Nearly all theorizing about the origins of language either ignores gesture, views it as an add-on or supposes that language began in gesture and was later replaced by speech. David McNeill challenges the popular 'gesture-first' theory that language first emerged in a gesture-only form and proposes a groundbreaking theory of the evolution of language which explains how speech and gesture became unified.

An Archaeology of Greece Anthony M.

Snodgrass, 2023-11-10 Classical archaeology probably enjoys a wider appeal than any other branch of classical or archaeological studies. As an intellectual and academic discipline, however, its esteem has not matched its popularity. Here, Anthony Snodgrass argues that classical archaeology has a rare potential in the whole field of the study of the past to make innovative discoveries and apply

modern approaches by widening the aims of the discipline.

A Voyage to India Goncalo M. Tavares, 2016-12-09 A Voyage to India is the story of Bloom, our hero, as he makes his way from Lisbon to India in a decidedly non-heroic age. Gone are the galleons, gone is god; so too the swords of the swashbuckler and sacerdotal certainty. In such an era, where is wisdom to be found? Bloom—ever deliberate, ever longwinded—takes his time getting to India, stopping first in London, then Paris and elsewhere in Europe, making friends, encountering enemies, recounting his life story, revealing the reasons for his flight from Lisbon and his vague hopes for and nagging fears about what he might find in India. Or within himself. His is a melancholic itinerary, an attempt to learn and forget. As our narrator flatly declares: “Life proceeds and is monstrous.” Parodying *The Lusiads*, Luis de Camões’s sixteenth-century Portuguese epic of seafaring exploration and naval prowess, Tavares’s poem is a solemn requiem of sorts, an investigation into the psyche of humankind in a world where the advance of technology outpaces our ability (or desire) to theorize it, the search for wisdom has been abandoned, and old imperialist dreams have revealed themselves to be a postcolonial nightmare.

Price Index Concepts and Measurement W. Erwin Diewert, John Greenlees, Charles R. Hulten, 2010-02-15 Although inflation is much feared for its negative effects on the economy, how to measure it is a matter of considerable debate that has important implications for interest rates, monetary supply, and investment and spending decisions. Underlying many of these issues is the concept of the Cost-of-Living Index (COLI) and its controversial role as the methodological foundation for the Consumer Price Index (CPI). *Price Index Concepts and Measurements* brings together leading experts to address the many questions

involved in conceptualizing and measuring inflation. They evaluate the accuracy of COLI, a Cost-of-Goods Index, and a variety of other methodological frameworks as the bases for consumer price construction.

Archaeology Yesterday and Today Jaroslav

Malina,Zdeněk Vašíček,1990-11-30 This book, first published in 1990, presents a radical interpretation by Czech philosophers of science of the philosophical, social and political forces shaping archaeology from antiquity onwards. It provides a theoretically sophisticated and cosmopolitan overview of modern archaeology, treating the history of both traditions in a single framework.

Industrial Archaeology Kenneth Hudson,2014-10-30

Industrial archaeology is the study of early industrial buildings and machinery, particularly of the eighteenth and nineteenth centuries. When this book was originally published in 1963, this was becoming a topic of lively interest and controversy among archaeologists, historians, architects and engineers. This book discusses the aims and methods of the science, giving examples of the contribution which different kinds of specialists can make. This shows a fascinating slice of the history of the discipline of archaeology as well as offering insights into industrial archaeology when the term was first being used. As the first text on the subject, this book also lead to the start of the industrial archaeology movement in the USA.

The Return of the Mother Andrew Harvey, 2013-08-20

Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. *The Return of the Mother* is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.
