**Manga's Cultural Crossroads** Jaqueline Berndt,Bettina Kümmerling-Meibauer,2014-03-14 Focusing on the art and literary form of manga, this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga's culturalization is related to its globalization. Through contributions from leading scholars in the fields of comics and Japanese culture, it describes manga culture in two ways: as a fundamentally hybrid culture comprised of both subcultures and transcultures, and as an aesthetic culture which has eluded modernist notions of art, originality, and authorship. The latter is demonstrated in a special focus on the best-selling manga franchise, NARUTO.

*Homo Narrans* John D. Niles,2010-08-03 It would be difficult to imagine what human life would be like without stories—from myths recited by Pueblo Indian healers in the kiva, ballads sung in Slovenian market squares, folktales and legends told by the fireside in Italy, to jokes told at a dinner table in Des Moines—for it is chiefly through storytelling that people possess a past. In *Homo Narrans* John D. Niles explores how human beings shape their world through the stories they tell. The book vividly weaves together the study of Anglo-Saxon literature and culture with the author's own engagements in the field with some of the greatest twentieth-century singers and storytellers in the Scottish tradition. Niles ponders the nature of the storytelling impulse, the social function of narrative, and the role of individual talent in oral tradition. His investigation of the poetics of oral narrative encompasses literary works, such as the epic poems and hymns of early Greece and the Anglo-Saxon *Beowulf*, texts that we know only through written versions but that are grounded in oral technique. That all forms of narrative, even the most sophisticated genres of contemporary fiction, have their ultimate origin in storytelling is a point that scarcely needs to be argued. Niles's claims here are more ambitious: that oral narrative is and has long been the chief basis of culture itself, that the need to tell stories is what distinguishes humans from all other living creatures.

An army of super-powered Jamie Madroxes and the return of the volatile Legion complicate matters further -- and then come the Four Horsemen of Salvation! But why do they look so familiar? For whom do they ride? And do they herald a fresh apocalypse -- or a very different new age for the X-Men? -- Back cover.
