Acting Out Bernard Stiegler,2009 Acting Out brings together two short books (the autobiographical I>How I Became a Philosopher and To Love, To Love Me, To Love Us) by Bernard Stiegler, the fruit of the discipline he developed in prison and of the passion he brings to his political, philosophical, and technical diagnoses of contemporary life.

The Political Economy of Israel's Occupation Shir Hever,2010-09-15 The Israeli occupation of the Palestinian territories since 1967 has many important economic aspects that are often overlooked. In this highly original book, Shir Hever shows that both sides need to address the economic dimension if progress is to be made. Hever rejects the premise that Israel keeps control over Palestinian territories for material gain, and also the premise that Israel is merely defending itself from Palestinian aggression. Instead, he argues that the occupation has reached an impasse, with the Palestinian resistance making exploitation of the Palestinians by Israeli business interests difficult, and the Israeli authorities reluctant to give up control. With traditional economic analysis failing to explain this turn of events, this book will be invaluable for students, activists and journalists struggling to make sense of the complex issues surrounding Israel's occupation.
