Brave Little Owl Penny Little,2018-01-04 Little Owl is teased by her brothers when her every attempt at flying ends in disaster. And all she wants is to make her Grandma's birthday perfect by showing her how brave she is. Her friends try to explain that lots of things can seem scary at first. But it takes some kind words from Grandpa to really help Little Owl face her fears. Eventually Little Owl manages to soar up into the sky under a gorgeous glittery moon, giving Grandma the best birthday present ever! Sean Julian's warm, detailed illustrations bring this sweet, atmospheric story to life with real feeling.

Goodnight Moon Margaret Wise Brown,2016-11-08 In this classic of children's literature, beloved by generations of readers and listeners, the quiet poetry of the words and the gentle, lulling illustrations combine to make a perfect book for the end of the day. In a great green room, tucked away in bed, is a little bunny. Goodnight room, goodnight moon. And to all the familiar things in the softly lit room—to the picture of the three little bears sitting on chairs, to the clocks and his socks, to the mittens and the kittens, to everything one by one—the little bunny says goodnight. One of the most beloved books of all time, Goodnight Moon is a must for every bookshelf and a time-honored gift for baby showers and other special events.

We Are Not Free Traci Chee, 2020 A beautiful, painful, and necessary work of historical fiction. --Veera Hiranandani, Newbery Honor winning author of *The Night Diary*

Schubert's Winter Journey Ian Bostridge, 2015-01-27 An exploration of the world's most famous and challenging song cycle, *Schubert's Winter Journey* (*Winterreise*), by a leading interpreter of the work, who teases out the themes—literary, historical, psychological—that weave through the twenty-four songs that make up this legendary masterpiece. Completed in the last months of the young Schubert's life, *Winterreise* has come to be considered the single greatest piece of music in the history of *Lieder*. Deceptively laconic—these twenty-four short poems set to music for voice and piano are performed uninterrupted in little more than an hour—it nonetheless has an emotional depth and power that no music of its kind has ever equaled. A young man, rejected by his beloved, leaves the house where he has been living and walks out into snow and darkness. As he wanders away from the village and into the empty countryside, he experiences a cascade of emotions—loss, grief, anger, and acute loneliness, shot through with only fleeting moments of hope—until the landscape he inhabits becomes one of alienation and despair. Originally intended to be sung to an intimate gathering, performances of

Winterreise now pack the greatest concert halls around the world. Drawing equally on his vast experience performing this work (he has sung it more than one hundred times), on his musical knowledge, and on his training as a scholar, Bostridge teases out the enigmas and subtle meanings of each of the twenty-four lyrics to explore for us the world Schubert inhabited, his biography and psychological makeup, the historical and political pressures within which he became one of the world's greatest composers, and the continuing resonances and affinities that our ears still detect today, making Schubert's wanderer our mirror.

The Strange Case of Origami Yoda (Origami Yoda #1) Tom Angleberger, 2012-08-07 In this funny, uncannily wise portrait of the dynamics of a sixth-grade class and of the greatness that sometimes comes in unlikely packages, Dwight, a loser, talks to his classmates via an origami finger puppet of Yoda. If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of *Star Wars: Return of the Jedi: Beware the Power of the Dark Side*, and hailed by *School Library Journal* as "honest, funny, and immensely entertaining." Mastering The Market Cycle Howard Marks, 2018-10-02 A NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY

BESTSELLER The legendary investor shows how to identify and master the cycles that govern the markets. We all know markets rise and fall, but when should you pull out, and when should you stay in? The answer is never black or white, but is best reached through a keen understanding of the reasons behind the rhythm of cycles. Confidence about where we are in a cycle comes when you learn the patterns of ups and downs that influence not just economics, markets, and companies, but also human psychology and the investing behaviors that result. If you study past cycles, understand their origins and remain alert for the next one, you will become keenly attuned to the investment environment as it changes. You'll be aware and prepared while others get blindsided by unexpected events or fall victim to emotions like fear and greed. By following Marks's insights—drawn in part from his iconic memos over the years to Oaktree's clients—you can master these recurring patterns to have the opportunity to improve your results.
