We Two Alone Sara Teasdale,2019-09-17 Sara Teasdale's dreamy, amorous walk, visually reimagined. This fully illustrated book brings Teasdale's exquisite words to life, following the unbroken line of lights that lead the narrator through an evening where everything is made magical by her romantic mood. Although Teasdale is less well-known today, her 1917 collection *Love Songs* won the award that would later become the Pulitzer Prize for poetry. Printed on beautiful matte paper, this petite gift book is perfect for poetry and art lovers alike. The Obvious State Classics Collection is an evolving series of visually reimagined beloved works that speaks to contemporary readers. The pocket-sized, collectable editions feature the selected works of celebrated authors such as T. S. Eliot, Edgar Allan Poe, Walt Whitman, Sara Teasdale and Henry David Thoreau.

Life with Picasso Françoise Gilot,Carlton Lake,2019-06-11 Françoise Gilot's candid memoir remains the most revealing portrait of Picasso written, and gives fascinating insight into the intense and creative life shared by two modern artists. Françoise Gilot was in her early twenties when she met the sixty-one-year-old Pablo Picasso in 1943. Brought up in a well-to-do upper-middle-class family, who had sent her to Cambridge and the Sorbonne and hoped that she would go into law, the young woman defied their wishes and set her sights on being an artist. Her introduction to Picasso led to a friendship, a love affair, and a relationship of ten years, during which Gilot gave birth to Picasso's two children, Paloma and Claude. Gilot was one of Picasso's muses; she was also very much her own woman, determined to make herself into the remarkable painter she did indeed become. *Life with Picasso*, written with Carlton Lake and published in 1961, is about Picasso the artist and Picasso the

man. We hear him talking about painting and sculpture, his life, his career, as well as other artists, both contemporaries and old masters. We glimpse Picasso in his many and volatile moods, dismissing his work, exultant over his work, entertaining his various superstitions, being an anxious father. But *Life with Picasso* is not only a portrait of a great artist at the height of his fame; it is also a picture of a talented young woman of exacting intelligence at the outset of her own notable career.

Meaningful Making 2 Paulo Blikstein, Sylvia Libow Martinez, Heather Allen Pang, 2019-03-08

Meaningful Making 2 is a second volume of projects and strategies from the Columbia University FabLearn Fellows. This diverse group of leading K-12 educators teach in Fab Labs, makerspaces, classrooms, libraries, community centers, and museums--all with the goal of making learning more meaningful for every child. A learning revolution is in the making around the world. Enthusiastic educators are using the new tools and technology of the maker movement to give children authentic learning experiences beyond textbooks and tests. The FabLearn Fellows work at the forefront of this movement in all corners of the globe. In this book, the FabLearn Fellows share all new inspirational lesson ideas, strategies, and recommended projects across a broad range of age levels. Illustrated with color photos of real student work, the Fellows take you on a tour of the future of learning, where children make sense of the world by making things that matter to them and their communities. To read this book is to rediscover learning as it could be and should be--a joyous, mindful exploration of the world, where the ultimate discovery is the potential of every child.

Recovery Through Activity Sue Parkinson, 2017-07-05 *Recovery Through Activity* is underpinned by the conceptual framework of the Model of Human Occupation. The introduction of this treatment handbook will provide an invaluable tool to practitioners and also create a platform for research. *Recovery Through Activity*: enables service users to recognise the long-term benefits of occupational participation by exploring the value of a range of activities; provides occupational therapists with a valuable tool to support the use of their core skills; provides comprehensive evidence regarding the value of activity along with a wealth of resources to support implementation of an occupation focused intervention; helps to refocus the practice of occupational therapy in mental health on occupation; and supports occupational therapy practitioners to engage in their core skills and enhance the quality of service user care in mental health. This handbook will be of interest to occupational therapy practitioners and students as well as occupational therapy managers who are seeking to introduce time-limited, occupation-focused interventions into clinical pathways.

Picasso Posters Pablo Picasso,Maria Costantino,1999 Pablo Picasso is the artistic giant of the twentieth century, and perhaps only Leonardo da Vinci rivals his fame throughout the history of art. In working life that spanned nearly eighty years, Picasso painted some of the archetypal images of modern art, including Les Femmes d'Alger (O.J. 1965) and Guernica. But he did more than create individual works of originality and genius. Picasso invented, and inspired others to invent, a whole new vocabulary and way of thinking about art which have shaped the progress of modernism throughout the twentieth century. Picasso's fame is indisputable but rests largely on his oil paintings. A lesser-known but crucially important part of Picasso's oeuvre is his graphic work, in particular his poster designs. From the 1940s to the 1960s Picasso produced hundreds of designs for posters, many advertising exhibitions of his work. They are interesting and important not only for their striking simplicity and bold color, but also because they sum up many of the expressionist ideas he had developed from Guernica onward. Themes and images from his paintings and ceramics such as bulls and goats, faces and the dove of peace recur and give remarkable coherence to this body of work. Picasso Posters presents a comprehensive panorama of Picasso's poster art. An illustrated introduction tells the story of Picasso's long life and career, and sets his poster work in the context of the genre's history and of his paintings, drawings, and sculpture. Sixty of Picasso's finest posters are reproduced in large-scale color plates, making Picasso Posters a sumptuous, informative, and much-needed study of this little-known aspect of the master's work.--Publisher's description

From Cave Man to Cave Martian Manfred "Dutch" von Ehrenfried, 2019-04-05 This book explores the practicality of using the existing subsurface geology on the Moon and Mars for protection against radiation, thermal extremes, micrometeorites and dust storms rather than building surface habitats at great expense at least for those first few missions. It encourages NASA to plan a precursor mission using this concept and employ a "Short Stay" Opposition Class mission to Mars as the first mission rather than the "Long Stay" concept requiring a mission that is too long, too dangerous and too costly for man's first missions to Mars. Included in these pages is a short history on the uses of caves by early humans over great periods of time. It then describes the ongoing efforts to research caves, pits, tunnels, lava tubes, skylights and the associated technologies that pertain to potential lunar and Mars exploration and habitation. It describes evidence for existing caves and lava tubes on both the Moon and Mars. The work of noted scientists, technologists and roboticists are referenced and described. This ongoing work is more extensive than one would think and is directly applicable to longer term habitation and exploration of the Moon and Mars. Emphasis is also given to the operational aspects of working and living in lunar and Martian caves and lava tubes.

If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from "above" as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose's soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat,

Rose is able to introduce healing into the lives of the people she left behind. If Anything Happens I Love You may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

The Book as Art Krystyna Wasserman, Breslauer Professor of Bibliographical Studies at the Graduate School of Education & Information Studies Johanna Drucker, Johanna Drucker, National Museum of Women in the Arts (U.S.), 2007 Artists' books have emerged over the last 25 years as the quintessential contemporary art form, addressing subjects as diverse as poetry and politics, incorporating a full spectrum of artistic media and bookmaking methods, and taking every conceivable form. Female painters, sculptors, calligraphers, and printmakers, as well a growing community of hobbyists, have played a primary role in developing this new mode of artistic expression. The Book as Art presents more than 100 of the most engaging women's artist books created by major fine artists such as Meret Oppenheim, May Stevens, Kara Walker, and Renee Stout and distinguished book artists such as Susan King, Ruth Laxson, Claire Van Vliet, and Julie Chen. Culled from over 800 unique or limited-edition volumes held by the National Museum of Women in the Arts, these books explore the form as a container for ideas. Descriptions of the works are accompanied by colorful illustrations and reflections by their makers, along with essays by leading scholars and a lively introduction by the most famous book artist in our culture, best-selling author Audrey Niffenegger. The exquisitely crafted objects in the The Book as Art are sure to provoke unexpected and surprising conclusions about what constitutes a book. The Book as Art accompanies the exhibition of the same name at the Museum of Women in the Arts in Washington, D.C., beginning in October 2006.
