Mark Tufo

Zombie Fallout 14: The Trembling Path Mark Tufo, 2020-04-09 Control of Etna Station is balanced on a knife's edge. A daring mission to rescue a hostage will shake the foundations of the already crumbling command structure, making way for enemies to emerge from outside, and from within. Dewey, the advanced zombies, begins to assert his dominance and reveals his ploy to master all humankind, while Vivian Deneaux shows her hand, rigging the complex to blow if she's not given the keys to the city. Alliances will be strained and loyalties tested as lines drawn in the sand become blurred and must be remade. Events are set in motion that will forever alter the course of the base and the lives of its inhabitants. It's a race for control, and with Mike and his company stuck in jail, they are quickly losing precious ground and must discover who their true allies are. Can the base be saved, or will the human oasis amid the sea of death finally succumb to evil and corruption?

Atlas of Imagined Places Matt Brown, Rhys B. Davies, 2021-09-28 WINNER, Edward Stanford Travel Writing Awards 2022: Illustrated Travel Book of the Year. HIGHLY COMMENDED, British Cartographic Society Awards 2022. From Stephen King's Salem's Lot to the superhero land of Wakanda, from Lilliput of Gulliver's Travels to Springfield in The Simpsons, this is a wondrous atlas of imagined places around the world. Locations from film, tv, literature, myths, comics and video games are plotted in a series of beautiful vintage-looking maps. The maps feature fictional buildings, towns, cities and countries plus mountains and rivers, oceans and seas. Ever wondered where the Bates Motel was based? Or Bedford Falls in It's a Wonderful Life? The authors have taken years to research the likely geography of thousands of popular

culture locations that have become almost real to us. Sometimes these are easy to work out, but other times a bit of detective work is needed and the authors have been those detectives. By looking at the maps, you'll find that the revolution at Animal Farm happened next to Winnie the Pooh's home. Each location has an extended index entry plus coordinates so you can find it on the maps. Illuminating essays accompanying the maps give a great insight into the stories behind the imaginary places, from Harry Potter's wizardry to Stone Age Bedrock in the Flintstones. A stunning map collection of invented geography and topography drawn from the world's imagination. Fascinating and beautiful, this is an essential book for any popular culture fan and map enthusiast.

Downwind of the Atomic State James C. Rice,2023-03-07 How the scientific community overlooked, ignored, and denied the catastrophic fallout of decades of nuclear testing in the American West In December of 1950, President Harry Truman gave authorization for the Atomic Energy Commission to conduct weapons tests and experiments on a section of a Nevada gunnery range. Over the next eleven years, more than a hundred detonations were conducted at the Nevada Test Site, and radioactive debris dispersed across the communities just downwind and through much of the country. In this important work, James C. Rice tells the hidden story of nuclear weapons testing and the negligence of the US government in protecting public health. Downwind of the Atomic State focuses on the key decisions and events shaping the Commission's mismanagement of radiological contamination in the region, specifically on how the risks of fallout were defined and redefined, or, importantly, not defined at all, owing to organizational mistakes and the impetus to keep atomic testing going at all costs. Rice shows that although Atomic Energy Commission officials understood open-air detonations injected radioactive

debris into the atmosphere, they did not understand, or seem to care, that the radioactivity would irrevocably contaminate these communities. The history of the atomic Southwest should be a wake-up call to everyone living in a world replete with large, complex organizations managing risky technological systems. The legacy of open-air detonations in Nevada pushes us to ask about the kinds of risks we are unwittingly living under today. What risks are we being exposed to by large organizations under the guise of security and science?

Hearing God's Voice: Towards a Theology of Contemporary Pentecostal Revelatory Experience Tania M. Harris, 2023-09-25 The revelatory experience or in common parlance, "hearing God's voice," is prized by Pentecostal-Charismatic Christians for its contribution to spirituality, yet remains one of the most problematic areas of church life. Theological tensions and pastoral fallout have plagued the experience since the time of the New Testament. Drawing on the tools of practical theology, this book presents the findings of a unique and ground-breaking study among Australian Pentecostals. With a theological framework modelled on New Testament practice and undergirded by the accountability of the local church, many of the problems associated with revelatory experience can be addressed and the experience fully harnessed for kingdom purpose.
