The Death of Expertise Tom Nichols, 2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission--

Islam in International Relations Nassef Manabilang Adiong, Raffaele Mauriello, Deina Abdelkader, 2018-11-02 *Islam in International Relations: Politics and Paradigms* analyses the interaction between Islam and IR. It shows how Islam is a conceptualization of ideas that affect people's thinking and behaviour in their capacity to relate with IR as both discipline and practice. This approach challenges Western-based and defined epistemological and ontological foundations of the discipline, and by doing so contributes to worlding IR as a field of study and practice by presenting and discussing a broad range of standpoints from within Islamic civilization. The volume opens with the presentation and discussion of the international thought of a major Muslim leader, followed by a chapter that addresses the ethical practice of IR, from traditional pacifism to modern Arab political philosophy. It then switches to applying constructivism as a tool to understand Islam in world affairs and proceeds to address the issue of how the ethnocentric approach of Western academia has hindered our understanding of world affairs. The volume moves on to address the ISIS phenomenon, a current urgent issue in world affairs, and closes with a look at Islamic geopolitics. This comprehensive collection will be of great interest to students, scholars and policy-makers with a focus on the Muslim world.

Culture and Imperialism Edward W. Said, 2012-10-24 A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

Cars, Conduits, and Kampongs, 2014-10-16 *Cars, Conduits and Kampongs* offers a wide panorama of the modernization of Indonesian cities between 1920 and 1960. In examining the multiple responses to innovations introduced by Western colonialism, the contributors demonstrate how modernization, urbanization, and decolonization were intrinsically linked. A full text Open Access version will also become available.

Go Back to Where You Came From: And Other Helpful Recommendations on How to Become American Wajahat Ali, 2022-01-25 “Go back to where you came from, you terrorist!” This is just one of the many warm, lovely, and helpful tips that Wajahat Ali and other children of immigrants receive on a daily basis. Go back where, exactly? Fremont, California, where he grew up, but is now an unaffordable place to live? Or Pakistan, the country his parents left behind a half-century ago? Growing up living the suburban American dream, young Wajahat devoured comic books (devoid of brown superheroes) and fielded well-intentioned advice from uncles and aunties. (“Become a doctor!”) He had turmeric stains under his fingernails, was accident-prone, suffered from OCD, and wore Husky pants, but he was as American as his neighbors, with roots all over the world. Then, while Ali was studying at University of California, Berkeley, 9/11 happened. Muslims replaced communists as America’s enemy #1, and he became an accidental spokesman and ambassador of all ordinary, unthreatening things Muslim-y. Now a middle-aged dad, Ali has become one of the foremost and funniest public intellectuals in America. In *Go Back to Where You Came From*, he tackles the dangers of Islamophobia, white supremacy, and chocolate hummus, peppering personal stories with astute insights into national security, immigration, and pop culture. In this refreshingly bold, hopeful, and uproarious memoir, Ali offers indispensable lessons for cultivating a more compassionate, inclusive, and delicious America.

Colonial Legacies Anne E. Booth, 2018-03-31 It is well known that Taiwan and South Korea, both former Japanese colonies, achieved rapid growth and industrialization after 1960. The performance of former European and American colonies (Malaysia, Singapore, Burma, Vietnam, Laos, Cambodia, Indonesia, and the Philippines) has been less impressive. Some scholars have attributed the difference to better infrastructure and greater access to education in Japan’s colonies. Anne Booth examines and critiques such arguments in this ambitious comparative study of economic development in East and Southeast Asia from the beginning of the twentieth century until the 1960s. Booth takes an in-depth look at the nature and consequences of colonial policies for a wide range of factors, including the growth of export-oriented agriculture and the development of manufacturing industry. She evaluates the impact of colonial policies on the growth and diversification of the market economy and on the welfare of indigenous populations. Indicators such as educational enrollments, infant mortality rates, and crude death rates are used to compare living standards across East and Southeast Asia in the 1930s. Her analysis of the impact that Japan’s Greater Asian Co-Prosperity Sphere and later invasion and conquest had on the region and the living standards of its people leads to a discussion of the painful and protracted transition to independence following Japan’s defeat. Throughout Booth emphasizes the great variety of economic and social policies pursued by the various colonial governments and the diversity of outcomes. Lucidly and accessibly written, *Colonial Legacies* offers a balanced and elegantly nuanced exploration of a complex historical reality. It will be a lasting contribution to scholarship on the modern economic history of East and Southeast Asia and of special interest to those concerned with the dynamics of development and the history of colonial regimes. Hegel, Deleuze, and the Critique of Representation Henry Somers-Hall, 2012-02-14 Hegel, Deleuze, and the Critique of Representation provides a critical account of the key connections between twentieth-century French philosopher Gilles Deleuze and nineteenth-century German idealist G. W. F. Hegel. While Hegel has been recognized as one of the key targets of Deleuze's philosophical writing, Henry Somers-Hall shows how Deleuze's antipathy to Hegel has its roots in a problem the two thinkers both try to address: getting beyond a philosophy of judgment and the restrictions of Kant's transcendental idealism. By tracing the development of their attempts to address this problem, Somers-Hall offers an interpretation of the sweep of nineteenth- and twentieth-century philosophy, providing a series of analyses of key moments in the history of thought, including the logics of Aristotle and Russell, Kant's own philosophy of judgment, and the philosophy of Bergson. He also develops a novel interpretation of Deleuze's philosophy of difference, and situates his philosophy in relation to the broader post-Kantian tradition. In addition to Deleuze's relation to Hegel, the book makes important contributions to the study of Deleuze's philosophy of mathematics, as well as to the study of several underappreciated areas of Hegel's own philosophy.

Indonesia Library of Congress. Federal Research Division, 1993 Describes the history, politics, customs, etc. of India.

A Certain Age Rudolf Mrázek, 2010-04-16 *A Certain Age* is an unconventional, evocative work of history and a moving reflection on memory, modernity, space, time, and the limitations of traditional historical narratives. Rudolf Mrázek visited Indonesia throughout the 1990s, recording lengthy interviews with elderly intellectuals in and around Jakarta. With few exceptions, they were part of an urban elite born under colonial rule and educated at Dutch schools. From the early twentieth century, through the late colonial era, the national revolution, and well into independence after 1945, these intellectuals injected their ideas of modernity, progress, and freedom into local and national discussion. When Mrázek began his interviews, he expected to discuss phenomena such as the transition from colonialism to postcolonialism. His interviewees, however, wanted to share more personal recollections. Mrázek illuminates their stories of the past with evocative depictions of their late-twentieth-century surroundings. He brings to bear insights from thinkers including Walter Benjamin, Bertold Brecht, Le Corbusier, and Marcel Proust, and from his youth in Prague, another metropolis with its own experience of passages and revolution. Architectural and spatial tropes organize the book. Thresholds, windowsills, and sidewalks come to seem more apt as descriptors of historical transitions than colonial and postcolonial, or modern and postmodern. Asphalt roads, homes, classrooms, fences, and windows organize movement, perceptions, and selves in relation to others. *A Certain Age* is a portal into questions about how the past informs the present and how historical accounts are inevitably partial and incomplete.

Learning to Serve Maureen E. Kenny, Lou Anna K. Simon, Karen Kiley-Brabeck, Richard M. Lerner, 2012-12-06 Service learning, as defined by the editors, is the generation of knowledge that is of benefit to the community as a whole. This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship. The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning, infused throughout the curriculum and coupled with outreach

scholarship, is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society. The editors, through this series of models of service learning, make a powerful argument for the necessity of engaged institutions.

To Live as Brothers Barbara Watson Andaya, 1993 Andaya (Asian studies, U. of Hawaii) examines how the arrival of the Dutch and English impacted the relationship between two kingdoms in Sumatra, the Jambi and the Palembang, who had a long history of cyclical hostility and reconciliation. She focuses on three themes culled from legends and folklore

The Lesser Key of Solomon Aleister Crowley, S.L. MacGregor Mathers, 2022-01-04 The Lesser Key of Solomon, also known as Lemegeton Clavicula Salomonis or simply Lemegeton, is an anonymous grimoire on demonology. It was compiled in the mid-17th century, mostly from materials a couple of centuries older. It is divided into five books—the Ars Goetia, Ars Theurgia-Goetia, Ars Paulina, Ars Almadel, and Ars Notoria. This edition was translated by Samuel Liddell MacGregor Mathers and published by Aleister Crowley under the title The Book of the Goetia of Solomon the King. Crowley added some additional invocations previously unrelated to the original work, as well as essays describing the rituals as psychological exploration instead of demon summoning.

bookdown Yihui Xie, 2016-12-12 bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

Ethnographic Fieldwork Jan Blommaert, Dong Jie, 2010-06-28 Ethnographic fieldwork is something which is often presented as mysterious and inexplicable. How do we know certain things after having done fieldwork? Are we sure we know? And what exactly do we know? This book describes ethnographic fieldwork as the gradual accumulation of knowledge about something you don't know much about. We start from ignorance and gradually move towards knowledge, on the basis of practices for which we have theoretical and methodological motivations. Jan Blommaert and Dong Jie draw on their own experiences as fieldworkers in explaining the complexities of ethnographic fieldwork as a knowledge trajectory. They do so in an easily accessible way that makes these complexities easier to understand and to handle before, during and after fieldwork.

Scraps of Hope in Banda Aceh Marjaana Jauhola, 2020-12-17 Scraps of Hope in Banda Aceh examines the rebuilding of the city of Banda Aceh in Indonesia in the aftermath of the celebrated Helsinki-based peace mediation process, thirty years of armed conflict, and the tsunami. Offering a critical contribution to the study of post-conflict politics, the book includes 14 documentary videos reflecting individuals' experiences on rebuilding the city and following the everyday lives of people in Banda Aceh. Marjaana Jauhola mirrors the peace-making process from the perspective of the 'outcast' and invisible, challenging the selective narrative and ideals of the peace as a success story. Jauhola provides alternative ways to reflect the peace dialogue using ethnographic and film documentarist storytelling. Scraps of Hope in Banda Aceh tells a story of layered exiles and displacement, revealing hidden narratives of violence and grief while exposing struggles over gendered expectations of being

good and respectable women and men. It brings to light the multiple ways of arranging lives and forming caring relationships outside the normative notions of nuclear family and home, and offers insights into the relations of power and violence that are embedded in the peace.
