Stereographics Viction:workshop,2008 As the digital medium has been infinitely explored in the graphic environment we have seen a return to the analogue, the crafty, and the real world manifestation and creation of visual ideas. One of the truly inspired methods within this setting is the creation of graphics within a sculptural or £D environment. Now logos are no longer flat but reflect a physical presence, typeface is now carved and sculpted. The edge has again been blurred between the real, the physical and the imagined. Stereo Graphics explores the application of prop building towards the creation of inspired graphics, and especially fresh new font design, by showing hundreds of successful projects based on model creation. Promotional flyers, brochures, in-store graphics as well as textiles and clothing reflect this brave new world of boundless design.

Pulp Art Book Joni Harbeck,2010 Pulp Art Book--the multi-media collaboration between photographer Neil Krug and model Joni Harbeck--has become a virtual sensation online, and is now the subject of the artists' first monograph. Pulp Art Book: Volume One is an LP-sized hardcover book, split into several vignettes ranging from a spaghetti western theme to a Bonnie and Clyde revival and to the struggles of a 1950s housewife. These series tell the story of each character, and will be expanded in subsequent volumes. The inspiration for the pulp theme comes from the artists' collective appreciation of societal life and the artistic expressions of the 1960s and 70s. Old LP jackets, Giallo posters, vintage book covers, and B-movie cinema themes have defined their taste for this project. Initially they set out to capture something simple and sexy; as the shoots progressed, however, natural story lines emerged. The resulting work captures the smell of those decades and expresses them in a fresh way--Publisher's Web site.
