4 Mexican Paper Crafts: Simple and Fun Craft Tutorials

Inspired by Mexican Artisan Paper Decorations Ellen Deakin, Harry Olden, 2014-08 Description The Mexican tradition of paper crafting dates back to pre-Hispanic times when the Aztecs made paper from tree bark, called Amate. With the Spanish conquest brightly colored tissue paper or Papel de China arrived on trading boats from the Phillipines and was used in paper crafts. Pinatas, papel picado and paper flowers are important in the festivities of Cinco de Mayo and Dia de los Muertos and are also used to decorate birthday parties, weddings and baby showers amongst other celebrations. From the beginning of Happythought we have been inspired by the beauty and simplicity of these Mexican paper crafts. We have really enjoyed trying our hand at creating our own, with satisfying results! Now we have put together four of our favorite paper craft tutorials for you try in one book. The techniques we have used are not always traditional - the projects are designed to be easy to make and use materials that you hopefully already have at home or in your craft box. The crafts are also designed with little fingers in mind - most of the activities are easy enough for a child to complete, with a little adult supervision! Tutorials How to make a paper star These stunning ornaments are

partly inspired by Mexican star pinatas and partly by the beautiful Moravian tin star lanterns made by Mexican artisans. You could also attach your star decorations to a string of fairy lights to make a garland of teeny-tiny star lanterns. We have provided three colorful templates for you to use, or why not create your own using the black and white template as a starting point?

How to make paper flowers

These simple paper flowers are fun to make and so easy that the whole family can get involved. They can be used to decorate a party or Cinco de Mayo celebration, arranged in vases or as a centerpiece at a wedding, or placed on an ofrenda for Dia de los Muertos. You could also attach one or two flowers to a bobby pin or hair band and create a decorative hair piece!

How to make papel picado

Papel picado means 'punched' or 'perforated' paper, and traditionally papel picado are made from colored tissue paper and cut using chisels. We wanted to simplify the perforated paper technique so that you could create papel picado with household scissors, and after a bit of experimentation we came up with this easy method of producing your own stunning papel picado. We made ours using crepe paper as it comes in lovely, vibrant colors and we found it much easier to handle than tissue paper, which tends to tear. It also means that your papel picado last longer so you can use them again next year!

How to make a mini pinata

Ever since we moved our family to South America, we have all fallen head-over-heels for pinatas, so it wasn't long until we felt compelled to try making one of our own. Traditionally, you beat a pinata with a stick until it exploded and all the yummy, shiny contents fell to the ground. Now days, as a safer option, pinatas often come with a string which you pull down on to release the contents. We wanted to make a fully functioning mini pinata, so ours too has a pull string. It's been tried and tested by our children, so we can report that it works beautifully!

Templates

If you would like to use the templates shown in the tutorial photos they are all free with the book to download from the Happythought website. We have also included templates in this book which you

can photocopy and scale up to use for your projects, copy by hand or use as inspiration for your own designs.

The Mushroom at the End of the World Anna Lowenhaupt

Tsing, 2017-09-19 What a rare mushroom can teach us about sustaining life on a fragile planet Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial

forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

What We Think About When We Try Not To Think About Global Warming Per Espen Stoknes, 2015 Today, about 98 percent of scientists affirm that climate change is human made, and about 2 percent still question it. Despite that overwhelming majority, though, about half the population of rich countries, like ours, choose to believe the 2 percent. And, paradoxically, this large camp of deniers grows even larger as more and more alarming proof of climate change has cropped up over the last decades. This disconnect has both climate scientists and activists scratching their heads, growing anxious, and responding, usually, by repeating more facts to 'win' the argument. But, the more climate facts pile up, the greater the resistance to them grows, and the harder it becomes to enact measures to reduce greenhouse gas emissions and prepare communities for the inevitable change ahead. Is humanity up to the task? It is a catch-22 that starts, says psychologist and climate expert Per Espen Stoknes, from an inadequate understanding of the way most humans think, act, and live in the world around them. With dozens of examples, he shows how to retell the story of climate change and apply communication strategies more fit for the task.--Publisher's description.

Invisible Man Ralph Ellison, 2016-08-18 Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of the Brotherhood, and

retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.
