Lang Meenakshi Mukerji is one of today's masters of modular origami, designs comprised of multiple pieces of paper. Senbazuru Michael James Wong, 2021-10-19 Fold your way to happiness through the inspiring philosophy of Senbazuru—the tradition of folding one thousand paper cranes—with a leading voice in the global mindfulness movement as your guide. In Japan, the paper crane is a symbol of peace, hope, and healing. It is considered the bird of happiness, a mystical and majestic creature that according to myth can live for a thousand years. Tradition has it that if a person were to fold one thousand paper cranes in a single year, they would be gifted one special wish that would grant long life, healing from illness or injury, and eternal happiness. The tradition of folding one thousand paper cranes is called Senbazuru (sen meaning one thousand and orizuru meaning paper crane). In this book, renowned yoga and meditation teacher Michael James Wong brings Senbazuru to life as an inspiring philosophy that encourages slowing down and taking many small steps on our own personal path. This is a book of small steps and gentle wisdoms to heal your soul and help you find your own path to happiness. **FOR READERS OF:** *Ikigai* and *Dot Journaling*, and fans of mindful craft like coloring books and puzzles. **ORIGAMI IS THE NEW MINDFUL CRAFT:** Fans of coloring books and puzzles will flock to this trend for its ease, versatility, and affordability. **FOR FANS OF JAPANESE CULTURE:** This will appeal to readers of books like *Ikigai* and *A Little Book of Japanese Contentments*. **EXPERT AUTHOR:** Wong is the founder of Just Breathe, an organization focused on bringing mindfulness into the real world. He hosts events; speaks regularly in the UK, Australia, and California; and partners with brands like Rituals and international festivals like Wanderlust. He has nearly

40,000 followers on Instagram, and his work has been featured in The Telegraph, BBC Radio, Mind Body Green, Women's Health, Men's Health, Yahoo! News, Well + Good, and more. **CHARITY PROJECT:** Through Michael's charity partnership, Cranes of Hope, his corporate sponsors will donate £1 to a COVID relief fund for everyone who makes and sends in a paper crane. The cranes are going to be built into an amazing installation in St. Paul's Cathedral in London, where an event will be held to mourn those lost to COVID and bring hope for the future. Details on U.S. events to come. **A PRACTICE OF PATIENCE FOR HEALING AND WELLNESS:** As we've had to take a step back from socializing and cancel plans during the pandemic, we have all been reminded of what it means to really slow down. The origami practice is not, like most things today, a work of self-gratification but rather a work of patience and discovery. Wong's origami technique forces readers to breathe deeply and slow down, soothing the mind and soul. Perfect for: enthusiasts of mindfulness, wellness, yoga, origami; coloring book / puzzle aficionados; parents Digital audio edition introduction read by the author.

From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of

information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in

Philadelphia have shown me, in retrospect, that the more I taught, t
